## **SANDAG** Board of Directors Agenda

#### Friday, April 23, 2021 8 a.m. \*\*Teleconference Meeting\*\*

#### MEETING ANNOUNCEMENT AMIDST COVID-19 PANDEMIC:

The Board of Directors meeting scheduled for Friday, April 9, 2021, will be conducted virtually in accordance with Governor Newsom's State of Emergency declaration regarding the COVID-19 outbreak, Executive Order N-29-20, and the Guidance for Gatherings issued by the California Department of Public Health. Board Members will primarily participate in the meeting virtually, while practicing social distancing, from individual remote locations.

- To participate via Zoom webinar, click the link to join the meeting: https://zoom.us/j/92190867408
- Webinar ID: 921 9086 7408
- To participate via Telephone, dial a number based on your current location:
   US: + 1 669 900 6833 or + 1 253 215 8782 or + 1 346 248 7799 or + 1 301 715 8592 or + 1 312 626 6799 or + 1 929 205 6099
- International numbers available: https://zoom.us/u/aoneKuxP4

SANDAG is relying on commercial technology to broadcast the meeting via Zoom. With the recent increase of virtual meetings, platforms such as Microsoft Teams, WebEx, GoToMeeting, and Zoom are working to scale their systems to meet the new demand. If we experience technical difficulty or you are unexpectedly disconnected from the broadcast, please close and reopen your browser and click the link to rejoin the meeting. SANDAG staff will take all possible measures to ensure a publicly accessible experience.

**Public Comments:** Persons who wish to address the members on an item to be considered at this meeting, or on non-agendized issues, may email comments to the Clerk at clerkoftheboard@sandag.org (please reference "April 23 Board Meeting" in your subject line and identify the item number(s) to which your comments pertain). Comments received by 4 p.m. on Thursday, April 22 will be provided to members prior to the meeting.

If you desire to provide live verbal comment during the meeting, please join the Zoom meeting by computer or phone and use the "Raise Hand" function to request to provide public comment. On a computer, the "Raise Hand" feature is on the Zoom toolbar. By phone, enter \*9 to "Raise Hand" and \*6 to unmute. Requests to provide live public comment must be made at the beginning of the relevant item, and no later than the end of any staff presentation on the item. The Clerk will call on members of the public who have timely requested to provide comment by name for those joining via a computer and by the last three digits of for those joining via telephone. All comments received prior to the close of the meeting will be made part of the meeting record. Please note that any available chat feature on the Zoom meeting platform should be used by panelists and attendees solely for procedural or other "housekeeping" matters as comments provided via the chat feature will not be retained as part of the meeting record. All comments to be provided for the record must be made via email or orally per the instructions above.

# SANDAG

Welcome to SANDAG. Members of the public may speak to the Board of Directors on any item at the time the Board is considering the item. Public speakers are limited to three minutes or less per person. The Board may only take action on any item appearing on the agenda.

In order to keep the public informed in an efficient manner and facilitate public participation, SANDAG also provides access to all agenda and meeting materials online at sandag.org/meetings. Additionally, interested persons can sign up for email notifications at sandag.org/subscribe.

SANDAG operates its programs without regard to race, color, and national origin in compliance with Title VI of the Civil Rights Act. SANDAG has developed procedures for investigating and tracking Title VI complaints, and the procedures for filing a complaint are available to the public upon request. Questions concerning SANDAG nondiscrimination obligations or complaint procedures should be directed to the SANDAG General Counsel, John Kirk, at (619) 699-1997 or john.kirk@sandag.org. Any person who believes himself or herself or any specific class of persons to be subjected to discrimination prohibited by Title VI also may file a written complaint with the Federal Transit Administration.

In compliance with the Americans with Disabilities Act (ADA), SANDAG will accommodate persons who require assistance in order to participate in SANDAG meetings. If such assistance is required, please contact the Clerk of the Board at ClerkoftheBoard@sandag.org or at (619) 699-1985, at least 72 hours in advance of the meeting. To request this document or related reports in an alternative format, please call (619) 699-1900 or (619) 699-1904 (TTY), or fax (619) 699-1905 at least 72 hours in advance of the meeting.

SANDAG agenda materials can be made available in alternative languages. To make a request, call (619) 699-1900 in advance of the meeting.

Los materiales de la agenda de SANDAG están disponibles en otros idiomas. Para hacer una solicitud, llame al (619) 699-1900.

如有需要,我们可以把SANDAG议程材料翻译成其他語言.

请在会议前至少 72 小时打电话 (619) 699-1900 提出请求.

#### Closed Captioning is available

To access Closed Captioning:

- Click the closed caption icon on the toolbar at the top of your screen and follow the prompts, or
- Open your browser and paste the link: streamtext.net/player?event=SANDAG-BOD.

#### Message from the Clerk

In compliance with Government Code §54952.3, the Clerk hereby announces that the compensation for legislative body members attending the following simultaneous or serial meetings is: Executive Committee (EC) \$100, Board of Directors (BOD) \$150, and Regional Transportation Commission (RTC) \$100. Compensation rates for the EC and BOD are set pursuant to the SANDAG Bylaws, and the compensation rate for the RTC is set pursuant to state law.

#### **Mission Statement**

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; makes strategic plans; obtains and allocates resources; plans, engineers, and builds public transit; and provides information on a broad range of topics pertinent to the region's quality of life.

#### **Our Commitment to Equity**

We hold ourselves accountable to the communities we serve. We acknowledge we have much to learn and much to change; and we firmly uphold equity and inclusion for every person in the San Diego region. This includes historically underserved, systemically marginalized groups impacted by actions and inactions at all levels of our government and society.

We have an obligation to eliminate disparities and ensure that safe, healthy, accessible, and inclusive opportunities are available to everyone. In 2021, SANDAG will develop an equity action plan that will inform how we plan, prioritize, fund, and build projects and programs; frame how we work with our communities; define how we recruit and develop our employees; guide our efforts to conduct unbiased research and interpret data; and set expectations for companies and stakeholders that work with us.

We are committed to creating a San Diego region where every person who visits, works, and lives can thrive.

San Diego Association of Governments · 401 B Street, Suite 800, San Diego, CA 92101-4231 · (619) 699-1900 · Fax (619) 699-1905 · sandag.org

## **Board of Directors**

Friday, April 23, 2021

## First Reading of Proposed Amendments to the TransNet **Extension Ordinance**

#### Overview

At its March 26, 2021, meeting, the Board of Directors approved the Draft FY 2022 Program Budget, including recommended changes to the annual TransNet apportionments to provide the agency with a sustainable source of funding necessary to support ongoing and future TransNet activities.

In order to implement the recommended changes, the TransNet Extension Ordinance must be updated. Section 16 of the TransNet Extension Ordinance states the Commission may, with a two-thirds vote, amend the Ordinance to further its purposes.

Attachment 1 includes Commission Ordinance CO-2021-01, amending Regional Transportation Commission Ordinance No. CO-04-01 related to administrative expenses.

#### **Key Considerations**

#### Proposed Amendment to Administrative Expense Allocation

#### Action: Conduct First Reading

The Board of Directors, acting as the San Diego County Regional Transportation Commission, is asked to conduct the first reading of RTC Ordinance No. CO-2021-17 (Attachment 1), related to administrative expenses, by reading the title and waiving full recitation of the Ordinance for this and all future readings.

#### **Fiscal Impact:**

An additional estimated \$3.2 million would be allocated to fund administrative efforts in FY 2022.

#### Schedule/Scope Impact:

The SANDAG Board will be asked to conduct first and second readings at its meetings in April and May 2021. Thereafter, the amendment would take effect 30 days after its final passage and would be incorporated into the final FY 2022 SANDAG Program Budget.

SANDAG, acting as the San Diego County Regional Transportation Commission, uses the TransNet administrative funds to administer the San Diego County Regional Transportation Commission Act, including advancing TransNet projects and programs throughout the region and providing services that support oversight and administration of the TransNet program. An additional 1% in administrative expense category beginning in FY 2022 is proposed. This will ensure that adequate resources are available to effectively administer the program consistent with recommendations that have resulted from recent TransNet audits and the agency's organizational assessment, both of which identified numerous opportunities for improvement to address the changing needs of the region, the Board of Directors, and the public.

Key investments are needed in areas such as:

- Performance management, data analytics, and modeling to enable target setting and improved reporting of outcomes, greater transparency, and better insights for decision making consistent with prior TransNet performance audit recommendations
- Member agency services and communications to advance local policy initiatives and compete for federal and state funds to leverage TransNet dollars
- TransNet financial management to support finance and bonding research and forecasting allowing staff to conduct refunding and refinancing activities to economize fund management and position the region to attract new funding

- Office of the Independent Performance Auditor to monitor performance of SANDAG programs and projects including those undertaken pursuant to the *TransNet* Ordinance
- Equity and inclusion, consistent with the Board's recent Commitment to Equity statement, to bring a social equity lens to the *TransNet* program, perform additional Title VI analyses to inform program and project decisions, and ensure projects meet the requirements of the Americans with Disabilities Act

#### TransNet Independent Taxpayer Oversight Committee Review

At the March 10, 2021, ITOC meeting, staff presented a proposal to amend the *TransNet* Ordinance. ITOC members requested a special meeting (held on March 17, 2021) to allow more time to review and discuss the proposal.

At its special meeting, consistent with Ordinance provisions, the ITOC reviewed and discussed the proposed amendment to the administrative expense allocation, including activities that would be funded with the additional 1%, the impact to *TransNet* subprograms, peer agency comparisons, and project-level detail of all activities funded by *TransNet* administrative funds, among other relevant considerations. After a careful and thorough review, the ITOC recognized the proposed changes would ultimately benefit taxpayers and the San Diego region and help to further the SANDAG mission. Therefore, the ITOC recommended that the approve an increase to the administrative expense limit from 1% to 2%.

#### **Next Steps**

- **April 23, 2021:** The Board will be asked to conduct the First Reading of Proposed Amendments to the *TransNet* Extension Ordinance
- May 14, 2021: The Board will be asked to conduct the Second Reading of Proposed Amendments to the *TransNet* Extension Ordinance
- May 14, 2021: The proposed Final FY 2022 SANDAG Program Budget is scheduled for review and adoption by the Executive Committee and Board

The proposed amendment would take effect 30 days after its final passage and would be incorporated into the Final FY 2022 SANDAG Program Budget.

## COMMISSION ORDINANCE CO-2021-01

## An Ordinance of the San Diego County Regional Transportation Commission Amending Regional Transportation Commission Ordinance No. Co-04-01 Related to Administrative Expenses

THE SAN DIEGO COUNTY REGIONAL TRANSPORTATION COMMISSION ORDAINS AS FOLLOWS:

Sections 2.F. and 12. of Regional Transportation Commission Ordinance No. CO-04-01 are hereby amended to read as set forth below:

2.F. Administration and Independent Taxpayer Oversight Committee: Up to one <u>two</u> percent of the total annual revenues available will be used for administrative expenses and up to \$250,000 per year will be used for the operation of an Independent Taxpayer Oversight Committee.

12. ADMINISTRATIVE EXPENSES: Revenues may be expended by the Commission for staff salaries, wages, benefits, and overhead and for those services, including contractual services, necessary to administer the Act; however, in no case shall such expenditures exceed one two percent of the annual revenues provided by the measure. Any funds not utilized in a given fiscal year shall remain available for expenditure in subsequent fiscal years. Costs of performing or contracting for project related work shall be paid from the revenues allocated to the appropriate purpose as set forth in Section 4 herein. An annual independent audit shall be conducted through the Independent Taxpayers Oversight Committee to assure that the revenues expended by the Commission under this section are necessary and reasonable in carrying out its responsibilities under the Act.

PASSED AND ADOPTED this 14th day of May 2021.

AYES:

NOES:

ABSENT:

Chair of the Board of Directors of the San Diego County Regional Transportation Commission

[Seal]

Attest:

Secretary of the Board of Directors of the San Diego County Regional Transportation Commission

Chair Catherine Blakespear (Encinitas) called the meeting of the Board of Directors to order at 9:02 a.m.

#### 1. Public Comments/Continued Public Comments

Action: Approve

The Board of Directors is asked to approve the minutes from its April 9, 2021, meeting.

Jesse O'Sullivan, Circulate San Diego, asked the Board to

consider adopting a Vision Zero policy with the goal of reducing the number of street traffic fatalities and serious injuries to zero.

Lori Saldaña, former Assemblymember, spoke regarding the memorialization of more women and people of color on public highways and bridges.

Nicole Burgess, member of the public, asked the Board to consider adopting a Vision Zero policy with the goal of reducing the number of street traffic fatalities and serious injuries to zero.

Noah Harris, Climate Action Campaign and Quality of Life Coalition, asked the Board to consider adopting a Vision Zero policy with the goal of reducing the number of street traffic fatalities and serious injuries to zero.

Mike Bullock, member of the public, spoke regarding climate stabilization targets and the Regional Transportation Plan.

Karinna Gonzalez, member of the public, asked the Board to consider adopting a Vision Zero policy with the goal of reducing the number of street traffic fatalities and serious injuries to zero.

Councilmember Paloma Aguirre, Metropolitan Transit System, spoke regarding the new PRONTO system and changes to the fare ordinance.

Mayor Rebecca Jones, City of San Marcos, spoke regarding stakeholder involvement in planning Class 3 and 4 bike lanes, as well as the process for members requesting to add an item to the agenda.

Mayor Serge Dedina, City of Imperial Beach, spoke regarding sewage issues in the border region and Imperial Beach.

#### 2. Executive Director's Report (Discussion)

Executive Director Hasan Ikhrata presented an update on key programs, projects, and agency initiatives.

There were no public comments on this item.

#### 3. 2021 Regional Plan: Role of Technology (Discussion)

A panel of SANDAG staff and industry leaders discussed the technology trends that have disrupted transportation, and opportunities to leverage technology in support of our goals for fast, fair and clean mobility.

Councilmember Dan Quirk, City of Del Mar, asked if key technological trends are converging to create a new form mass transit; and asked SANDAG to consider whether or not light rail was a good investment given continuing technological advances and low ridership.

Gretchen Newsome, IBW569 and the Quality of Life Coalition, spoke regarding policies to ensure socially equitable outcomes from the Regional Plan.

David Grubb, Quality of Life Coalition, spoke regarding climate change and ending reliance on fossil fuels.

April 23, 2021

Bee Mittermiller, Quality of Life Coalition, spoke regarding the inequitable impacts of the digital divide.

Noah Harris spoke regarding equitable access to transportation technologies, and climate change impacts on communities of concern.

Deborah Knight, Friends of Rose Canyon and Quality of Life Coalition, spoke in opposition to highway widening and the addition of additional HOV lanes.

Carolina Martinez, Environmental Health Coalition, spoke regarding the transition to electric buses.

Jesse O'Sullivan spoke regarding actions the agency can take now in support of safety and combating climate change.

#### Consent

#### 4. Approval of Meeting Minutes (Approve)

The Board of Directors was asked to approve the minutes from its March 26, 2021, meeting.

There were no public comments on this item.

#### 5. Policy Advisory Committee Actions (Approve)

The Board of Directors was asked to ratify the delegated actions taken by the Policy Advisory Committees.

There were no public comments on this item.

#### 6. Executive Director Delegated Actions (Information)

In accordance with various Board Policies, this report summarized delegated actions taken by the Executive Director.

There were no public comments on this item.

#### 7. Audit Committee Public Member Screening Committee (Approve)

The Board of Directors was asked to approve Lauren Warrem, Chief Deputy Treasurer for the County of San Diego, as a member of the SANDAG Audit Committee Public Member Screening Committee.

There were no public comments on this item.

<u>Action</u>: Upon a motion by Second Vice Chair Sotelo-Solis and a second by Vice Chair Todd Gloria (City of San Diego) the Board of Directors voted to approve Consent Item Nos. 4 through 7.

The motion passed.

Yes: Chair Blakespear, Vice Chair Gloria, Second Vice Chair Sotelo-Solis, Mayor Matt Hall (City of Carlsbad), Mayor Mary Salas (City of Chula Vista), Councilmember Mike Donovan (City of Coronado), Supervisor Terra Lawson-Remer (County of San Diego), Mayor Terry Gaasterland (City of Del Mar), Mayor Bill Wells (City of El Cajon), Councilmember Consuelo Martinez (City of Escondido), Mayor Serge Dedina (City of Imperial Beach), Councilmember Jack Shu (City of La Mesa), Mayor Racquel Vasquez (City of Lemon Grove), Councilmember Christopher Rodriguez (City of Oceanside), Mayor Steve Vaus (City of Poway), Mayor Rebecca Jones (City of San Marcos), Mayor John Minto (City of Santee), Mayor Lesa Heebner (City of Solana Beach), and Mayor Judy Ritter (City of Vista).

No: None.

Abstain: None.

Absent: None.

#### Reports

#### 8. 2021 Regional Plan: Supporting Considerations Resolution (Adopt)

Councilmember Shu presented the item.

Gretchen Newsome spoke in support of the Resolution.

Lori Saldaña spoke regarding historically marginalized groups and asked the board to consider delaying the vote to gather additional public input if the Resolution does not align with the agency's equity statement.

Shane Harris, member of the public, asked the Board to amend the Resolution to include any state-approved apprenticeship programs.

Craig Jones, member of the public, recommended a language change to the Resolution that would include the elimination of land use sprawl.

Eric Christen, member of the public, spoke in opposition to Project Labor Agreements (PLA) and asked that all state-approved apprenticeship programs be included.

Brad Barnum, Association of General Contractors (AGC), spoke in opposition to PLAs, and asked the Board to meet with stakeholders for their input before approving a Resolution.

Aasiyah Hameed, member of the public spoke in support of amending the Resolution to include the Black Contractors Association.

Dustin Steiner, AGC, spoke in opposition to the PLA language and asked that stakeholders be included in discussions about how to amend the Resolution.

Tom Lemmon, member of the public, spoke in support of the Resolution and joint labor management apprenticeship programs.

Mike Bullock, member of the public, spoke in support of the Resolution and vehicle miles traveled and greenhouse gas reductions.

Eddie Sprecco, AGC, spoke in support of the Regional Plan and in opposition to the PLA language in the Resolution.

Abdure-Rahim Hameed, Black Contractors Association, spoke in opposition to the PLA language and asked that all state-approved apprenticeship programs be included.

Francisco Pena, member of the public, spoke regarding apprenticeship opportunities.

Ricardo Flores, member of the public, urged the Board to provide apprenticeship opportunities for women and communities of color who have been underrepresented.

Carol Kim, member of the public, spoke in support of the Resolution.

<u>Action</u>: A motion was by Mayor Jones, and seconded by Mayor Hall, to allow stakeholders who will be directly affected, including the Black Contractors Association, be allowed to provide input on an augmented resolution, and that that augmented resolution be presented to the Transportation and Regional Planning Committees for recommendation prior to coming back to the Board for approval, no later than July 2021.

A substitute motion was made by Mayor Sotelo-Solis, and seconded by Mayor Gloria, to amend the last paragraph of the first page of the Resolution to include the Black Contractors Association.

A motion was made by Mayor Minto, and seconded by Councilmember Rodriguez, to vacate the substitute motion on the floor.

The motion failed.

Yes: Mayor Hall, Mayor Richard Bailey (City of Coronado), Mayor Gaasterland, Mayor Wells, Councilmember Rodriguez, Mayor Vaus, Mayor Jones, Mayor Minto, and Mayor Ritter.

No: Chair Blakespear, Vice Chair Gloria, Second Vice Chair Sotelo-Solis, Mayor Salas, Supervisor Lawson-Remer, Councilmember Martinez, Councilmember Paloma Aguirre (City of Imperial Beach), Councilmember Shu, and Mayor Heebner.

Abstain: None.

Absent: City of Lemon Grove.

The Board voted on the substitute motion on the floor.

The motion failed.

Yes: Chair Blakespear, Vice Chair Gloria, Second Vice Chair Sotelo-Solis, Mayor Salas, Supervisor Lawson-Remer, Councilmember Martinez, Councilmember Aguirre, Councilmember Shu, and Mayor Heebner.

No: Mayor Hall, Mayor Bailey, Mayor Gaasterland, Mayor Wells, Councilmember Rodriguez, Mayor Vaus, Mayor Jones, Mayor Minto, and Mayor Ritter.

Abstain: None.

Absent: City of Lemon Grove.

Councilmember Shu and Supervisor Lawson-Remer called for a weighted vote on the substitute motion.

The motion passed.

Yes: Chair Blakespear, Vice Chair Gloria, Second Vice Chair Sotelo-Solis, Mayor Salas, Supervisor Lawson-Remer, Councilmember Martinez, Councilmember Aguirre, Councilmember Shu, Council President Jennifer Campbell (City of San Diego – Seat B), and Mayor Heebner.

No: Mayor Gaasterland.

Abstain: None.

Absent: City of Carlsbad, City of Coronado, County of San Diego – Seat B, City of El Cajon, City of Lemon Grove, City of Oceanside, City of Poway, City of San Marcos, City of Santee, and City of Vista.

#### 9. Upcoming Meetings

The next Board Policy meeting is scheduled for Friday, April 23, 2021, at 9 a.m.

#### 10. Adjournment

Chair Blakespear adjourned the meeting at 12:50 p.m.

# Federal Transit Administration Section 5311 Program of Projects

#### Overview

The Federal Transit Administration (FTA) provides funding for capital and operating assistance to agencies providing transportation services in rural areas through the Section 5311 Non-Urbanized Area Formula Program. On March 22, 2021, Caltrans published the estimated apportionments for the Federal Fiscal Year (FFY) 2021 and Coronavirus Relief and Response Supplemental Appropriations Act (CRRSAA) Section 5311 Program and requested a call for projects. For the San Diego area, this program is divided between the Metropolitan Transit System (MTS) and the North County Transit District (NCTD) by a formula based on the rural population served by each agency.

#### Action: **Approve**

The Transportation Committee recommends that the Board of Directors approve the Federal Fiscal Year 2021 and Coronavirus Relief and Response Supplemental Appropriations Act apportionments of Federal Transit Administration Section 5311 Non-Urbanized Area Formula Program funds for the San Diego region.

#### **Fiscal Impact:**

Caltrans estimates \$2,988,108 of Federal Transit Administration Section 5311 funds are available for the San Diego region.

#### Schedule/Scope Impact: None.

#### **Key Considerations**

FTA Section 5311 funds are initially apportioned to the state. The state, in turn, reapportions the funds to the regions based solely on the regional rural population as a share of the total state rural population. Consistent with an agreement with the transit agencies approved in FY 2007, the Board of Directors allocates these federal funds based on service area rural population: 59% to NCTD and 41% to MTS. The applications from the transit agencies, as well as the SANDAG-approved Section 5311 Program of Projects, are due to the state by April 30, 2021.

Based on the Caltrans estimate, there is \$2,988,108 available for San Diego County for FFY 2021 (\$820,064 through annual apportionment and \$2,168,044 through CRRSAA). Of this amount NCTD would receive \$1,762,984 (59%) and MTS would receive \$1,225,124 (41%). Both NCTD and MTS plan to use the available funding for operations.

The projects also must be included in an approved Regional Transportation Improvement Program (RTIP). Projects from both agencies are scheduled to be included in Amendment No. 1, to the 2021 RTIP, scheduled for approval as part of Item No. 7 on this agenda. At its meeting on April 16, 2021, the Transportation Committee recommended that the Board approve the Federal Fiscal Year 2021 and CRRSAA apportionments of Federal Transit Administration Section 5311 Non-Urbanized Area Formula Program funds for the San Diego region.

#### **Next Steps**

Upon approval by the Board, MTS, and NCTD will then submit their FFY 2021 FTA Section 5311 applications prior to receiving the funds.

## **SANDAG** Board of Directors

## FY 2022 Transit Capital Improvement Program

#### Overview

The regional Transit Capital Improvement Program (CIP) is a rolling five-year plan, which outlines current transit needs and planned investments in transit capital, rehabilitation, and replacement projects. The program is updated annually and is designed to meet ongoing transit operational and infrastructure needs in a responsive and efficient manner.

As the Metropolitan Planning Organization (MPO) for the San Diego region, SANDAG is the designated recipient for the Federal Transit Administration (FTA) formula funds and is responsible for approving the grant applications for the San Diego region and programming the FTA funds in the Regional Transportation Improvement Program (RTIP).

#### **Key Considerations**

Three FTA formula programs: Section 5307 Urbanized Area Formula Program, Section 5337 State of Good Repair Program, and Section 5339 Bus and Bus Facilities Program are the primary source of funding for the transit agency CIPs and generally provide 80% of the cost of eligible activities (Attachment 1). Additional state and local funding sources supplement the FTA programs. The combined funding for the regional CIP is \$244.3 million for FY 2022 and \$1.1 billion for the five-year program from FY 2022 to FY 2026. The individual transit agency CIP summaries are in Attachment 2.

#### Action: **Approve**

The Transportation Committee recommends that the Board of Directors:

- 1. approve the submittal of Federal Transit Administration grant applications for the San Diego region; and
- adopt Regional Transportation Commission Resolution No. RTC-2021-06, approving Amendment No. 1 to the 2021 Regional Transportation Improvement Program.

#### **Fiscal Impact:**

Pending approval by the Board of Directors the Transit Capital Improvement Programs will provide approximately \$244.3 million for capital projects, preventive maintenance, American with Disabilities Act, and planning activities in FY 2022.

Amendment No. 1 reflects an increase of approximately \$506.6 million to the 2021 Regional Transportation Improvement Program.

#### Schedule/Scope Impact:

Federal Transit Administration grant applications would be executed in summer 2021.

After allocating funds to SANDAG for the cost of the vanpool program, the balance of the Section 5307 funds are allocated to the operators on a 70%/30% basis, with the more populous Metropolitan Transit System (MTS) area receiving 70% and the 30% share going to North County Transit District (NCTD).<sup>1</sup> The same 70/30 formula is used to allocate the Sections 5337 and 5339 funds between MTS and NCTD. Funding assumptions used for development of the FY 2022 Transit CIP are based on Federal Fiscal Year (FFY) 2021 apportionments and some carryover of the FFY 2020 apportionments. The estimate for FTA formula programs conservatively remains flat for the four final years of the estimate, FFY 2022 through FFY 2025, which are outside of the Fixing America's Surface Transportation Act. The *TransNet* funding estimate for the FY 2022 CIP reflects the revenue estimates approved by the Board of Directors at its February 26, 2021, meeting.

<sup>&</sup>lt;sup>1</sup> This methodology was approved by the Board of Directors at its February 23, 2007, meeting.

MTS and NCTD reviewed and prioritized capital project submittals to ensure that operationally critical projects were funded. The NCTD Board of Directors approved its CIP on January 21, 2021, and the MTS Board of Directors approved its CIP on April 8, 2021. The FY 2022 Transit Capital Program Fiscally Constrained CIPs can be seen in Attachment 3.

#### Regional Transportation Improvement Program

As the MPO for the San Diego region, SANDAG is the designated recipient for FTA formula funds and is responsible for programming the FTA funds in the RTIP. The RTIP is the multiyear funding program for major transportation projects in the San Diego region. Projects included in the CIP, and subsequently in the FTA grant application, also must be programmed in the RTIP.

Major changes in funding are highlighted in Attachment 5, while the proposed amendments are included in Attachment 6. The *TransNet* Independent Taxpayer Oversight Committee reviewed Amendment No. 1 to the 2021 RTIP at its April 14, 2021, meeting, focusing its review on the *TransNet*-funded projects within this amendment. Any comments received will be presented to the Transportation Committee.

Tables 3a through 3c (Attachment 7) provide updated program financial summaries, including a comparison from the adoption of the 2021 RTIP. Changes are highlighted in yellow. Each transit agency made allowable changes during the public comment period which are detailed in Attachment 8. Finally, it has been determined that the 2021 RTIP would remain in compliance with federal regulations upon approval of Amendment No. 1 (Attachment 9). At its meeting on April 16, 2021, the Transportation Committee recommended that the Board approve the submittal of Federal Transit Administration grant applications for the San Diego region; and adopt Regional Transportation Commission Resolution No. RTC-2021-06, approving Amendment No. 1 to the 2021 Regional Transportation Improvement Program.

#### **Next Steps**

Pending approval by the Board, SANDAG, MTS, and NCTD will submit the FTA grant applications for the San Diego region and the 2021 RTIP Amendment No. 1 will be transmitted to Caltrans for review and approval and then forwarded to the Federal Highway Administration and FTA. Upon the approval of both federal agencies, the amendment will be incorporated into the 2021 Federal Statewide Transportation Improvement Program.

## Federal Transit Administration Formula Grant Programs

### Section 5307

Section 5307 Urbanized Area Program provides funding for transit capital and operating assistance in urbanized areas and for transportation-related planning. Eligible activities under this program include planning, engineering design, and evaluation of transit projects and other technical transportation-related studies; capital investments in bus and bus-related activities such as replacement of buses; overhaul and rebuilding of buses; crime prevention and security equipment; construction of maintenance and passenger facilities; and capital investments in new and existing fixed guideway systems, including rolling stock, overhaul and rebuilding of vehicles, track, signals, communications, and computer hardware and software. All preventive maintenance and some American with Disabilities Act complementary paratransit service, while recorded as operating expenditures, are considered capital costs for purposes of eligibility. The Federal Transit Administration defines preventive maintenance as all maintenance costs related to vehicles and non-vehicles. Specifically, it is all the activities, supplies, materials, labor, services, and associated costs required to preserve or extend the functionality and serviceability of the asset in a cost-effective manner, up to and including the current state-of-the-art for maintaining such an asset.

### Section 5337

This State of Good Repair program provides capital assistance for maintenance, replacement, and rehabilitation projects of high-intensity, fixed guideway and bus systems to help transit agencies maintain assets in a state of good repair. Additionally, State of Good Repair grants are eligible for developing and implementing Transit Asset Management plans. This program reflects a commitment to ensuring that public transit operates safely, efficiently, reliably, and sustainably so that communities can offer balanced transportation choices that help to improve mobility, reduce congestion, and encourage economic development. Eligible activities include projects that maintain, rehabilitate, and replace capital assets as well as projects that implement transit asset management plans. The Fixing America's Surface Transportation (FAST) Act clarifies that high-intensity motorbus tier funds can only be used for vehicle state of good repair costs and not for roadway state of good repair costs.

### Section 5339

The FAST Act provides both formula and discretionary programs for this section as developed under the Moving Ahead for Progress in the 21st Century Act. The Bus and Bus Facilities program makes federal funding available for the purpose of financing capital bus and bus-related projects, which will support the continuation and expansion of public transportation services in the United States. There is also a sub-program that provides competitive grants for bus and bus facility projects that support low- and zero-emissions vehicles. The purpose of both formula and competitive programs is to provide capital funding to replace, rehabilitate, and purchase buses, vans, and related equipment, and to construct bus-related facilities.

# Approving Amendment No. 1 to the 2021 Regional Transportation Improvement Program

WHEREAS, on February 26, 2021, the San Diego Association of Governments (SANDAG) adopted the 2021 Regional Transportation Improvement Program (RTIP) and found the 2021 RTIP in conformance with the applicable State Implementation Plans (SIPs), and with the 2016 Regional Air Quality Strategy (RAQS), in accordance with California law; and

WHEREAS, on April 16, 2021, the U.S. Department of Transportation (U.S. DOT) determined the 2021 RTIP and San Diego Forward: The 2019 Federal Regional Transportation Plan (2019 Federal RTP) in conformance to the applicable SIPs in accordance with the provisions of 40 Code of Federal Regulations (CFR) Parts 51 and 93; and

WHEREAS, on October 25, 2019, the Board of Directors adopted the air quality conformity determination, finding that the Revenue Constrained Plan is in conformance with the SIP for air quality, and adopted the 2019 Federal RTP and its supporting analyses; and

WHEREAS, this amendment is consistent with the 2019 Federal RTP, which conforms to the applicable SIP and to the emissions budgets from the 2008 Eight-Hour Ozone Attainment Plan for San Diego County, which were found adequate for transportation conformity purposes by the U.S. Environmental Protection Agency in December 2017; and

WHEREAS, the San Diego Metropolitan Transit System, North County Transit District, and SANDAG have requested various changes to existing projects for inclusion into the 2021 RTIP, as shown in Table 2; and

WHEREAS, this amendment is consistent with the 2019 Federal RTP, which conforms to the 2015 ozone national ambient air quality standards using the budget test procedure to demonstrate conformity (i.e., using emissions budgets for the 2008 ozone standard); and

WHEREAS, this amendment is consistent with the regional emissions analysis for the 2019 Federal RTP and 2021 RTIP, as amended, which demonstrates conformity to both the 2008 Eight-Hour Ozone and 2015 Eight-Hour Ozone standards; and

WHEREAS, the regionally significant, capacity increasing projects have been incorporated into the quantitative air quality emissions analysis and conformity findings conducted for the 2019 Federal RTP and the 2021 RTIP, as amended; and

WHEREAS, Amendment No. 1 to the 2021 RTIP continues to provide for timely implementation of transportation control measures contained in the adopted RAQS/SIP for air quality, and a quantitative emissions analysis demonstrates that the implementation of the RTIP projects and programs meet all federally required emissions budget targets; and

WHEREAS, projects in Amendment No. 1 satisfy the transportation conformity provisions of 40 CFR 93.122(g) and all applicable transportation planning requirements per 23 CFR Part 450, including the performance-based planning requirements; and are expected to support the achievement of approved targets; and

WHEREAS, all other projects in Amendment No. 1 are either non-capacity increasing or exempt from the requirements to determine conformity; and

WHEREAS, the projects in 2021 RTIP Amendment No. 1 are fiscally constrained; and

WHEREAS, the projects in 2021 RTIP Amendment No. 1 are consistent with the Public Participation Policy adopted by the Board of Directors; NOW THERFORE

BE IT RESOLVED that the Board of Directors, ALSO ACTING AS THE SAN DIEGO COUNTY REGIONAL TRANSPORTATION COMMISSION, does hereby approve Amendment No. 1 to the 2021 RTIP; and

BE IT FURTHER RESOLVED, that SANDAG finds the 2021 RTIP, including Amendment No. 1, is consistent with the 2019 Federal RTP, is in conformance with the applicable SIPs, and with the 2016 RAQS for the San Diego region, is consistent with SANDAG Intergovernmental Review Procedures, and is consistent with SANDAG Public Participation Policy, as amended.

PASSED AND ADOPTED this 23rd of April 2021.

\*The State released FTA 5311 apportionments and transit agencies updated their programming accordingly.

# Federal Requirements Analysis for 2021 RTIP Amendment No. 1

# Metropolitan Planning and Transportation Conformity

The U.S. Department of Transportation (U.S. DOT) Metropolitan Planning Regulations<sup>1</sup> and U.S. Environmental Protection Agency (U.S. EPA) Transportation Conformity Regulations<sup>2</sup> establish six criteria requirements which the Regional Transportation Improvement Program (RTIP) must satisfy. The metropolitan planning regulations require that: (1) the RTIP be financially constrained and (2) make progress toward achieving federal performance targets. The transportation conformity regulations state that the RTIP must: (3) be consistent with San Diego Forward: The 2019 Federal Regional Transportation Plan (2019 Federal RTP); (4) meet regional emissions tests; (5) include timely implementation of transportation control measures (TCMs); and 6) include inter-agency consultation and public involvement.

The 2021 RTIP with Amendment No. 1 meets all six tests required under federal metropolitan planning and transportation conformity regulations. SANDAG made these findings for the 2021 RTIP under the required federal tests on February 26, 2021. On April 16, 2021, Federal Highways and the Federal Transit Administration are expected to find that the 2021 RTIP conforms with the provisions of 40 CFR Parts 51 and 93. Amendment No. 1 continues to meet all federal requirements.

## **Financial Constraint Test**

Federal regulations 23 CFR Section 450.326(j) require the 2021 RTIP to be a revenue-constrained document with programmed projects based upon available or committed funding and/or reasonable estimates of future funding. Chapter 4 of the 2021 RTIP discusses in detail the financial capacity analysis of major program areas, including a discussion of available revenues.

*Finding:* The projects contained within the 2021 RTIP, including Amendment No. 1, are reasonable when considering available funding sources as demonstrated in Tables 3a through 3c, including a comparison from the prior approved version (changes are highlighted in yellow.)

## **Performance Management Test**

Federal regulations 23 CFR Section 450.326(c) require the 2021 RTIP to be designed such that once implemented, it makes progress toward achieving the performance targets established under 450.306(d) and shall include, to the maximum extent practicable, a description of the anticipated effect of the RTIP toward achieving the performance targets identified in the transportation plan, linking investment priorities to those performance targets. Appendix H of the 2021 RTIP provides information on the projects which support safety, infrastructure conditions, system performance, freight, Congestion Mitigation and Air Quality (CMAQ), transit asset management and transit safety performance management requirements.

*Finding:* The projects contained within the 2021 RTIP, including Amendment No. 1, make progress toward achieving the established performance targets for safety established by the Board of Directors through investment in projects with the primary purpose of improving safety, active transportation projects, and safety features provided as part of a larger transportation project.

*Finding:* The projects contained within the 2021 RTIP, including Amendment No. 1, make progress toward achieving the 2020 regional performance targets for transit asset management approved by the Board on February 28, 2020. The program includes investments in the four key categories for transit asset management: equipment, facilities, infrastructure, and rolling stock.

## **Consistency with San Diego Forward: The Regional Plan Test**

*Finding:* The 2021 RTIP, through Amendment No. 1, is consistent with San Diego Forward: The 2019 Federal Regional Transportation Plan (2019 Federal RTP) adopted on October 25, 2019 (policies, programs, and projects). All projects conform to the scope, cost, and schedule included in the 2019 Federal RTP.

## **Regional Emissions Tests**

These findings are based on the regional emissions analyses tests shown in Table 5-2 in Chapter 5 of the 2021 RTIP.

*Finding:* The regional emissions analyses for the 2021 RTIP through Amendment No. 1 are consistent with the emissions analyses for the 2019 Federal RTP.

*Finding:* The proposed Amendment No. 1 does not reflect a change in the design, concept, or scope of the projects or the conformity analysis years as modeled for the regional emissions analysis of the 2019 Federal RTP and the 2021 RTIP, as amended.

*Finding:* The 2021 RTIP, including Amendment No. 1, remains in conformance with the applicable State Implementation Plan<sup>3</sup> (SIP).

## **Timely Implementation of TCM Test**

*Finding:* The TCMs, established as Transportation Tactics in the 1982 SIP, have been fully implemented and Amendment No. 1 continues to fund the four TCMs, which include: (1) ridesharing; (2) transit improvements; (3) traffic flow improvements; and (4) bicycle facilities and programs.

## **Inter-Agency Consultation and Public Involvement Test**

*Finding:* The 2021 RTIP complies with all federal and state requirements for public involvement by following the strategies described in Board Policy No. 025: Public Participation Plan Policy. Amendment No. 1 was posted for a 15-day public comment period from March 23, 2021, through April 13, 2021.

*Finding:* The SANDAG Conformity Working Group (CWG), including members from the San Diego County Air Pollution Control District, Caltrans, California Air Resources Board, SANDAG, U.S. DOT, and U.S. EPA, serve as a forum to meet the federal and state requirements for interagency consultation for the 2021 RTIP. All exempt projects in Amendment No. 1 were submitted to the CWG on March 30, 2021, for its review and members concurred with the exempt categorization.

## Regional Active Transportation Program Funding Recommendations

## Overview

The Active Transportation Program (ATP) is administered by the California Transportation Commission (CTC) and distributes funding for active transportation projects. Funding is competitively awarded in two stages. First, a statewide competition is led by the CTC, followed by a regional competition conducted by the metropolitan planning organization of each region. This report contains the project rankings and funding recommendations for the 2021 Regional ATP.

## **Key Considerations**

The Board of Directors adopted the 2021 Regional ATP scoring criteria on March 27, 2020, and the CTC adopted the criteria on June 25, 2020. Thirty-seven applications were submitted requesting approximately \$156 million in funding. Attachment 1 provides information on the evaluation process. Four projects from the San Diego region were awarded funding through the statewide ATP competition, as shown in green in Attachment 2. These projects are from SANDAG and the cities of Oceanside, Imperial Beach, and National City. At its meeting on April 16, 2021, the Transportation Committee considered the results of the Regional ATP competition and recommends two projects

## Action: Adopt

The Transportation Committee recommends that the Board of Directors:

- 1. adopt Resolution No. 2021-18, certifying the results of the San Diego Regional Active Transportation Program (ATP); and
- 2. recommend that the California Transportation Commission fund the San Diego Regional ATP projects consistent with Attachment 3.

## **Fiscal Impact:**

Pending adoption by the Board of Directors and the California Transportation Commission, the regional Active Transportation Program would provide approximately \$16 million in state and federal funding to active transportation projects, including approximately \$12 million for one SANDAG project.

## Schedule/Scope Impact:

Funding could be distributed between 2019 and 2023.

– one each from SANDAG and the City of La Mesa – receive funding through the regional ATP competition as shown in Attachment 3.

## **Next Steps**

Pending action by the Board, SANDAG will submit its funding recommendations for the regional ATP competition to the CTC. The CTC is scheduled to consider adoption of the region's funding recommendations and contingency project list at its meeting on June 23-24, 2021. One of the projects to be awarded is a SANDAG project. Pending CTC approval, a budget amendment to include ATP funds awarded for the SANDAG Orange Family Friendly Street Project and Inland Rail Trail – Gap Connector Project (including corresponding *TransNet* match and amendment to the 2021 Regional Transportation Improvement Program) will be brought for Board consideration in fall 2021.

  - 4. Resolution No. 2021-18: Approving the Proposed List of Regional Active Transportation Program Projects and Funding Recommendations to the California Transportation Commission

# **Discussion Memo**

## Active Transportation Program Background

Approximately \$891 million in state and federal funding was budgeted by the California Transportation Commission (CTC) for the 2021 Active Transportation Program (ATP) over four years, beginning with FY 2021-2022. Fifty percent of the funding was competitively awarded for projects selected by the CTC on a statewide basis, and 10% of the funding was distributed to small urban and rural regions. The remaining 40% of the funding will be allocated for projects selected through the regional competitive processes. The estimated funding available for the San Diego region is approximately \$16 million total, or about \$4 million per year. In addition, a minimum of 25% of the funds in both the statewide and regional programs must benefit disadvantaged communities as defined in the CTC ATP Guidelines.

Eligible agencies include cities, counties, and Metropolitan Planning Organizations (MPOs), as well as transit agencies, natural resources or public land agencies, public schools or school districts, tribal governments, and private nonprofit tax-exempt organizations.

## Statewide and Regional Competitions for the 2021 Active Transportation Program

## Statewide Active Transportation Program Competition

The CTC announced the 2021 ATP call for projects on March 25, 2020. Applications were received for 454 projects, requesting approximately \$2.3 billion in ATP funds. On February 8, 2021, CTC staff released the list of projects recommended for funding for the statewide and small urban and rural components of the ATP. Thirty-seven projects were submitted from the San Diego region, and four of those projects – one each from SANDAG and the cities of Oceanside, Imperial Beach and National City – were recommended by CTC staff to be considered for funding (Attachment 2). One application from the San Diego region was deemed ineligible by the CTC. The remaining 32 projects that were not recommended for the statewide component remain eligible for the regional ATP. The CTC adopted the list of projects recommended for funding for the statewide and small urban and rural components at its meeting on March 24-25, 2021.

## Regional Active Transportation Program Competition

At its March 27, 2020, meeting, the Board of Directors approved the scoring criteria for the 2021 Regional ATP competitive program. The CTC adopted the criteria at its meeting on June 24, 2020.

SANDAG is both an eligible applicant as a regional transportation planning agency and has a role as an MPO to administer the regional program. To ensure that the evaluation process is open and transparent and does not give advantage to SANDAG projects, SANDAG staff directly associated with applications did not have a role in evaluating project applications or the facilitation of the regional competitive process. This work was carried out independently by the SANDAG Grants Division. Additionally, the SANDAG Quality Assurance team performed an independent review of the project scores and rankings, checking for consistency with the evaluation committee score sheets, and correct formulas and calculations used for scores. No errors were found during this independent review.

In accordance with CTC ATP Guidelines, SANDAG assembled a multidisciplinary evaluation panel to assist in evaluating project applications. The evaluation panel was composed of volunteers who had not submitted an ATP application and had expertise in biking and pedestrian transportation, including safe routes to school projects and projects benefitting disadvantaged communities.

Projects received scores for qualitative criteria from the evaluation panel members and scores for quantitative criteria from SANDAG staff in the Grants Division, in accordance with the scoring criteria approved by the Board. Scores for quantitative criteria were informed by data provided by the SANDAG Data, Analysis, and Modeling Department. A project's quantitative score was added to the qualitative scores provided by each evaluator to determine a total score. This was done for all projects. Then, for each evaluator, the projects were ranked based on their total scores. The sum of all evaluators' ranks for each project dictated the final project ranking order, with the lowest sum of ranks representing the highest rating and the highest sum of ranks representing the lowest rating. The project evaluation process resulted in application rankings with 1 of the 32 projects being recommended for full funding, and 1 project being recommended for partial funding (City of La Mesa). Grants Division staff has confirmed with the City of La Mesa that partial funding will be accepted, the funds can be used effectively on the project, and the scope of the project will remain the same as the scope of the project in the original project application. The results of this process are set forth in Attachment 3.

In conformance with the CTC guidelines, a minimum of 25% of the funds distributed to each MPO must benefit disadvantaged communities. Both of the projects recommended for funding will benefit disadvantaged communities, which exceeds the minimum requirement.

## **Contingency Projects**

In accordance with the ATP Guidelines, applications awarded ATP funding must be ready to allocate ATP funds within the applicable fiscal years of the program. ATP projects will be monitored closely by CTC staff to ensure timely delivery within the identified constraints of the program. In the event that a project is unable to allocate the awarded funds or obtain an extension within the timeframe identified by the CTC, the next highest ranked project on Attachment 3 (including a project that may have been partially funded) would receive ATP funds in place of the originally selected project. In this instance, the project that fails to meet its delivery timeline would forfeit the unspent portion of its ATP funds and would have to compete again to receive ATP or other funds. The 30 projects not recommended for funding in the 2021 ATP as well as those unable to meet the four prior ATP cycle allocation deadlines may re-compete in the next ATP competition, the 2023 ATP, which is anticipated to occur in 2022. Contingency projects would be ineligible if they are awarded funds through the 2023 ATP competition or from another funding source. The contingency list would expire after the approval of the 2023 ATP funding recommendations.

\*Prior to programming, Caltrans will contact the applicant for project clarifications.

<sup>§</sup>Project requires a baseline agreement. Please see the SB 1 Accountability and Transparency Guidelines for more information.

<sup>†</sup>The City of National City requested \$1,895,000 for the Highland Avenue Inter-City Bike Connection project. However, only \$539,000 in programming capacity remains. Commission staff will work with the applicant to determine if the project can be delivered with available ATP funding.

## Resolution No. 2021-18

## Approving the Proposed List of Regional Active Transportation Program Projects and Funding Recommendations to the California Transportation Commission

WHEREAS, the Legislature and Governor of the State of California have provided funds for the Active Transportation Program; and

WHEREAS, the California Transportation Commission (CTC) has statutory authority for the administration of this grant program and established necessary procedures; and

WHEREAS, the CTC has required in its Active Transportation Program (ATP) Program Guidelines that Metropolitan Planning Organizations (MPOs) coordinate the competitive selection process to select projects to receive a portion of the ATP funding; and

WHEREAS, the San Diego Association of Governments (SANDAG), as the MPO for the San Diego region, conducted a competitive selection process for the distribution of ATP funds in the San Diego region; and

WHEREAS, the SANDAG competitive selection process has resulted in a list of projects that are deemed to meet the requirements of the ATP Program Guidelines; and

WHEREAS, the CTC requires the Governing Body of the MPO to approve the proposed ranked list of Regional ATP projects and funding recommendations to the CTC; NOW THEREFORE

BE IT RESOLVED that the Board of Directors:

- 1. Certifies that the San Diego Regional ATP competitive selection process was conducted in accordance with the 2021 CTC ATP Program Guidelines, including the use of a multidisciplinary advisory group as application evaluators; and
- 2. Attests the projects recommended for ATP funding per the 2021 San Diego Regional ATP competition include projects benefitting pedestrians and bicyclists, including students walking and cycling to school; and
- 3. Approves the proposed ranked list of ATP projects and funding recommendations to the CTC; and
- 4. Recommends the Contingency List of projects be used to reallocate ATP funds in the event a project initially recommended for funding is unable to allocate the awarded funds or obtain an extension within the timeframes identified by the CTC.

PASSED AND ADOPTED this 23rd of April 2021.

#### Attest:

Chair

Secretary

**Member Agencies**: Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, San Marcos, Santee, Solana Beach, Vista, and County of San Diego.

**Advisory Members**: California Department of Transportation, Metropolitan Transit System, North County Transit District, Imperial County, U.S. Department of Defense, Port of San Diego, San Diego County Water Authority, Southern California Tribal Chairmen's Association, and Mexico.

# SANDAG Board of Directors

# Proposed Contract Amendment: Centralized Train Control Contract Capacity Increase

## Overview

The MTS Middletown and Beech Double Crossover project modifies the existing track and signaling system and installs new signals and powered switches. Whenever the traction power and signaling system is modified the Centralized Train Control (CTC) displays at the operation control center (OCC) must be updated to reflect the updated system configuration so MTS line supervisors are able to see the updated real time system status information. To incorporate the Middletown and Beech Double Crossover configuration changes at the operations control center the CTC system integrators contract capacity must be increased. This item increases the contract capacity to enable the integration work to proceed.

## **Key Considerations**

SANDAG has coordinated with MTS to integrate new track and signaling system modifications into the CTC

## **Action: Approve:**

The Board of Directors is asked to approve adding \$360,000 in contract capacity to Contract 5000786 with ARINC, a part of Collins Aerospace, in support of ongoing track and signal work by MTS into the Advanced Information Management Centralized Train Control system currently maintained by SANDAG.

## Fiscal Impact:

MTS is fully funding the Beech and Middletown Double Crossover Integration.

## Schedule/Scope Impact:

A new Task Order will need to be executed in early May to meet the Middletown double crossover cutover in August 2021.

system. MTS is currently constructing a new double crossover near Middletown Station and will upgrade manual switches to power operated switches at the existing double crossover near Beech Street.

This project when completed will enable MTS Operations to see track routing, signals, and Trolley movements at each of the double crossover locations. The Middletown Double Crossover work is expected to be completed in August 2021. Initial Beech Street Double Crossover software development phase is expected to be completed by December 31, 2021.

The ARINC CTC Contract, contract no. 5000786, only has \$55,775 capacity remaining. To implement OCC modifications to display the Middletown and Beech St configuration changes an additional \$350,000 of additional capacity is needed. The CTC contact capacity increase will enable a task order to be issued to ARINC to develop and factory test software for the Middletown and Beech Street Double Crossovers and install and commission the OCC displays to show the Middletown double crossovers in August 2021. MTS is entering into a contract with ARINC that should be effective on or before January 2022. MTS plans on issuing the installation and commissioning of the software to display the Beech Street Double crossover when the Beech Street Double Crossover signaling improvements are implemented in Spring of 2022.

## **Next Steps**

If this item is approved, then a task order will be issued that will develop software that will enable the CTC displays at the OCC to be updated to show the Middletown and Beech signaling improvements so Line Supervisors are able to better manage the San Diego Trolley Operations. The Middletown CTC displays will be updated following Middletown signaling improvements in August 2021 and Beech Street software development will be completed before contract completion in December 2021.

  - 2. Proposed FY 2021 Budget Amendment for Capital Improvement Project No. 1131800, Beech and Middletown Double Crossover Integration

1255 Imperial Avenue, Suite 1000 San Diego, CA 92101-7490 (619) 231-1466 • FAX (619) 234-3407

# Agenda Item No. <u>15</u>

## MEETING OF THE SAN DIEGO METROPOLITAN TRANSIT SYSTEM BOARD OF DIRECTORS

April 8, 2021

## SUBJECT:

# ARINC / ROCKWELL COLLINS (ARINC) INTEGRATION OF MIDDLETOWN AND BEECH STREET DOUBLE CROSSOVER PROJECTS

## **RECOMMENDATION:**

That the San Diego Metropolitan Transit System (MTS) Board of Directors authorize the Chief Executive Officer (CEO) to execute Addendum 17 (in substantially the same format as Attachment A), Scope of Work 100 to the Memorandum of Understanding (MOU) between the San Diego Association of Governments (SANDAG) and MTS for the ARINC Integration of the Middletown and Beech Street Double Crossover projects in the amount of \$370,000.00.

## Budget Impact

The total budget for this project shall not exceed \$370,000.00. This project will be funded by MTS Capital Improvement Project (CIP) 2006101101 - Middletown Double Crossover and 2005107901 - Beech Street Double Crossover.

## DISCUSSION:

MTS is currently upgrading the manual switches to power operating switches at the existing double crossover between Beech Street and Ash and installing a new double crossover near the Middletown station. These two projects introduce new signals to the track in this area and the new signals need to be connected to MTS's Centralized Train Control (CTC) system.

SANDAG has a contract with ARINC / Rockwell Collins to provide technical support, maintenance, system testing, integration, and acceptance of various new technologies in the MTS system. In order to keep the same level of support and system consistency

#### 1255 Imperial Avenue, Suite 1000, San Diego, CA 92101-7490 · (619) 231-1466 · sdmts.com

San Diego Metropolitan Transit System (MTS) is a California public agency comprised of San Diego Transit Corp., San Diego Trolley, Inc. and San Diego and Arizona Eastern Railway Company (nonprofit public benefit corporations). MTS member agencies include the cities of Chula Vista, Coronado, El Cajon, Imperial Beach, La Mesa, Lemon Grove, National City, Poway, San Diego, Santee, and the County of San Diego. MTS is also the For-Hire Vehicle administrator for nine cities. without any disruption in MTS Trolley operations, MTS staff is recommending a task order amendment between SANDAG and ARINC, under the existing contract, to provide the testing and integration of the new equipment for the Middletown and Beech Street Double Crossover projects. This will extend the CTC signaling system from Cedar Street to Santa Fe Depot using SANDAG's existing Task Order 38 with ARINC.

Therefore, staff recommends that the MTS Board authorize the CEO to execute Addendum 17, Scope of Work 100, for the ARINC Integration of the Middletown and Beech Street Double Crossover projects in the amount of \$370,000.00.

Estimated Budget:	\$370,000	Effective Date:	8/1/2021		

## Addendum 17 Project Scope of Work

## Intended Source of Funds:

MTS will be using Local Funding under MTS CIP No.:

-	WBSE # 2006101101	Middletown Double Crossover
-	WBSE # 2005107901	Beech Street Double Crossover

## Describe Any Necessary Transfers of Project Funds Between the Parties:

MTS shall reimburse SANDAG via invoices for services listed herein.

## Project Description:

MTS is currently upgrading the manual switches to power operated switches at the existing double crossover between Beech Street and Ash Street and realigning the mainline track south of Sassafras Street and Middletown Station, with a new double crossover near Middletown station. This will extend the CTC signaling system from Cedar Street to Santa Fe Depot.

## Scope of Work to be Performed by MTS:

Flagging services by San Diego Trolley, Inc. (SDTI) personnel in the MTS right-of-way during construction-related testing. Any work which involves personnel or equipment within 15 feet of the center line of any active track must have an SDTI supplied flagperson for the duration of the work.

Provide Project Management in support of construction of this project.

Scope of Work to be Performed by SANDAG:

- 1. Provide project management support to MTS Project Manager for the AIM software implementation changes to reflect ongoing changes.
- 2. Execution and administration of contract 5000786 TO38 AM2 with vendor (ARINC).
- 3. Design review and approval in coordination with designated MTS staff.
- 4. Test plan review, testing and system acceptance in coordination with designated MTS staff.
- 5. Performance monitoring of new system enhancements.
- 6. Project documentation and control.

## Any Additional Project-Specific Conditions:

- 1. MTS agrees to reimburse SANDAG for the full and actual cost for administration, materials and system enhancements costs provided herein within 15 days of receipt of invoice.
- The SANDAG cost estimate is included as Attachment 1. In the event that SANDAG notifies MTS that the amount will be exceeded, MTS will meet with SANDAG to discuss the need for additional hours. In no event shall SANDAG have the responsibility to move forward until the parties are able to identify sufficient funding for hours associated with the tasks.

## APPROVED BY: SANDAG

## Transportation Network Company Access for All Grant Program

## Overview

On September 22, 2018, the Governor signed into law Senate Bill (SB) 1376 (Hill, 2018), the TNC Access for All Act. Pursuant to SB 1376, the California Public Utilities Commission (CPUC) must establish a program relating to the accessibility of transportation network company (TNC) services for persons with disabilities, including wheelchair users who need a wheelchair accessible vehicle (WAV). The purpose of the TNC Access for All (AFA) Program is to incentivize the expansion and availability of on-demand transportation service for people with disabilities statewide.

The CPUC recently adopted the TNC Access for All Program Overview and Requirements for Local Access Fund Administrators (LAFAs). SANDAG is eligible to serve as the LAFA for the San Diego region. This report provides an overview of the AFA Program, including the anticipated role for SANDAG and next steps in the process. The complete Program Overview and Requirements document is available on the CPUC website.

## Action: Approve

The Board of Directors is asked to:

- approve the submission of an application for SANDAG to serve as the San Diego region's Local Access Fund Administrator for the Access for All Program;
- 2. adopt Resolution No. 2021-20 as required by the California Public Utilities Commission; and
- 3. authorize the Executive Director to carry out all responsibilities necessary to implement the Access for All Program in the San Diego region.

## **Fiscal Impact:**

SANDAG is estimated to receive between \$2.5 million and \$3.5 million in Access for All funds to distribute to access providers between July 2022 and June 2023.

## Schedule/Scope Impact:

A Call for Projects would be conducted in FY 22 to select access providers that would receive Access for All funding.

## **Key Considerations**

## Program Overview

The AFA Program provides two mechanisms to meet the statute's overall goal of expanding and improving on-demand WAV transportation service in California: one through TNCs' investments, and the other through local access providers.

In January 2019, the CPUC required TNCs to start collecting an "Access Fee" in the amount of \$0.10 for each TNC trip and to remit the total fees collected within each county on a quarterly basis to the CPUC. The fees collected from TNCs are deposited in the TNC Access Fund for distribution to local access providers through LAFAs. The LAFA of each county will provide AFA fees to access providers that establish on-demand transportation programs or partnerships to meet the mobility needs of persons with disabilities, including individuals who need a WAV. Access providers would be identified by LAFAs as providers that are able to provide WAV service similar to that of TNCs but require additional financial resources to do so.

If TNCs expand or improve on-demand WAV service, they may "offset" the fees due to the CPUC by the amounts they spend to improve WAV service in each county. The TNCs may keep some of the Access Fee revenue they collect, so long as the WAV service meets performance requirements set by the CPUC. Thus far, TNCs operating in the San Diego region have not been able to meet the CPUC's performance requirements due to their drivers not having WAVs.

## Amount of Funding Available

The CPUC will release the AFA balance to the LAFAs by January 30 each year. The program will collect Access Fees through June 30, 2025 and be available for distribution by the AFAs on an annual basis through 2027. The AFA balance for the San Diego region as of January 30, 2021 was between \$2.5 million and \$3.5 million. This amount includes Access Fees collected by TNCs from July 2019 to June 2020.

## Local Access Fund Administrators

Per the CPUC, entities that may serve as LAFAs are limited to Metropolitan Planning Organizations, Regional Transportation Planning Agencies, and County Transportation Commissions. Each geographic area may only be served by a single LAFA. The primary role of a LAFA is to administer the AFA Program in the geographic area within its jurisdiction. Specifically, LAFAs are required to develop local WAV programs and to contract with and obligate available funds to eligible access providers in accordance with criteria adopted by the CPUC and outlined in the Program Requirements. Once an agency is selected to be a LAFA, it will be required to carry out the following responsibilities:

- 1. Establish a process for an access provider solicitation.
- 2. Select access providers to receive AFA funds based on criteria adopted by the CPUC and outlined in the Program Requirements.
- 3. Obligate available AFA funds to selected access providers.
- 4. Submit a consolidated quarterly report to the CPUC based on the quarterly reports submitted to the LAFA by access providers.
- 5. Submit annual and other quarterly reports to ensure that progress is made toward the broader goals and objectives of the AFA Program and SB 1376.

These LAFA responsibilities will require SANDAG to hire an additional Limited Term employee, which was not included in the draft FY 22 budget. Up to 15 percent of the allocated funding distributed to a LAFA may be used to pay for its administrative costs incurred in running the program, including staffing expenses.

In April, the CPUC notified potential LAFAs that applications were due to the CPUC no later than May 1, 2021. For geographic areas where no LAFA is selected, CPUC staff will retain an independent entity to act as the Statewide Access Fund Administrator (SAFA), which can be a private or non-profit entity or other state agency. If SANDAG does not submit an application by May 1, the funding in the San Diego region would be administered at the state level by the SAFA. Agencies interested in applying to become a LAFA in subsequent years would be required to file an application by April 1 of the following year. Only one submission and approval to serve as a LAFA is required for the duration of the program.

## Schedule

The CPUC has provided the following schedule to illustrate how LAFAs would be selected and AFA funds would be distributed.

LAFA Applications Due	May 1, 2021
CPUC awards funding to LAFA	July 1, 2021
CPUC distributes funding to LAFA	September 30, 2021
LAFAs select, contract with and obligate funds to access providers	July 1, 2022
Deadline for LAFAs to expend Cycle 1 AFA funds	June 30, 2023

## **Next Steps**

Pending approval of the Board of Directors, SANDAG will submit an application with the CPUC to serve as the LAFA for the San Diego region. The resolution required by the CPUC for SANDAG to serve as the LAFA is provided as Attachment 1. If selected, SANDAG will be required to execute a grant agreement with the

CPUC, and an additional Limited Term staff position will be added to the FY 22 budget to carry out the LAFA tasks using the Access Fee funds. Additionally, staff will need to develop procedures to select, contract with, and obligate funds to access providers consistent with the CPUC Program Requirements. Staff will return to the Transportation Committee and the Board of Directors with plans for conducting the selection process for access providers in FY 22.

## Hasan Ikhrata, Executive Director

 Key Staff Contact: Jenny Russo, (619) 699-7314, jenny.russo@sandag.org
 Attachment: 1. Resolution No. 2021-20: Authorizing The Execution Of The Certification To Serve As The Local Access Fund Administrator (LAFA) For The Access For All Program For San Diego County

# A Resolution of the Board of Directors of the San Diego Association of Governments Authorizing the Execution of the Certification to Serve as the Local Access Fund Administrator (LAFA) for the Access for All Program for San Diego County

WHEREAS, the San Diego Association of Governments (SANDAG) is an eligible Metropolitan Planning Organization (MPO) and may receive state funding from the Access for All Program to administer a funding program for Local Assess Providers for on-demand wheelchair accessible vehicle (WAV) transportation projects; and

WHEREAS, the statues related to state-funded transit projects require a local or regional administering agency to abide by various regulations; and

WHEREAS, Senate Bill 1376 (Hill: 2018) designated the California Public Utilities Commission (Commission) as the administrative agency for the Access for All Program; and

WHEREAS, the Commission has developed the Access for All Program Overview and Requirements for Access Fund Administrators (AFAs), for the purpose of selecting Local AFAs (LAFAs) and administering and distributing Access Funds to eligible local access providers of on-demand WAV transportation; and

WHEREAS, the SANDAG Board of Directors authorizes the Executive Director to execute the required documents and any amendments thereto relating to the Access for All Program; and

WHEREAS, SANDAG wishes to serve as the LAFA for San Diego county.

NOW THEREFORE BE IT RESOLVED by the SANDAG Board of Directors that as the Access Fund recipient, SANDAG agrees to comply with all conditions and requirements set forth in the Certification document and all applicable statutes, regulations, and Program Requirements for the Access for All Program.

BE IT FURTHER RESOLVED that the Executive Director be authorized to execute all required documents of the Access for All Program and any amendments thereto with the Commission.

BE IT FURTHER RESOLVED that the Board of Directors hereby authorizes SANDAG to serve as the LAFA of the Access for All Program for San Diego county.

PASSED AND ADOPTED this 23rd day of April, 2021.

Attest:

Chair

Secretary

**Member Agencies**: Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, San Marcos, Santee, Solana Beach, Vista, and County of San Diego.

**Advisory Members**: California Department of Transportation, Metropolitan Transit System, North County Transit District, Imperial County, U.S. Department of Defense, Port of San Diego, San Diego County Water Authority, Southern California Tribal Chairmen's Association, and Mexico.

# **SANDAG**Board of Directors

# April 23, 2021

# **Executive Director Delegated Actions**

# Overview

Various Board Policies require the Executive Director to report certain actions to the Board of Directors on a monthly basis or upon taking specified actions.

## **Delegated Actions**

## Investment Transactions: SANDAG Board Policy

No. 003 states that a monthly report of all investment transactions shall be submitted to the Board. The reportable investment transactions for March 2021 can be found in Attachment 1.

## Legal Matters: SANDAG Board Policy No. 008

authorizes the Office of the General Counsel or outside counsel to file documents and make appearances on behalf of the agency in court proceedings.

# Action: Information

In accordance with various Board Policies, this report summarizes delegated actions taken by the Executive Director.

## **Fiscal Impact:**

Six securities reached maturity for a total of \$14.7 million, one security was sold for \$4 million and three securities were purchased for \$15.2 million, providing approximately \$3.5 million of liquidity to the agency.

Schedule/Scope Impact: None.

In the matter of Anna Avenue Associates v. SANDAG (Superior Court Case No. 2018-00000231), the following actions were taken by Best Best & Krieger on behalf of SANDAG:

- On April 2, 2021, filed a Stipulation & Order for Entry of Judgment in Condemnation
- On April 6, 2021, filed a Notice of Entry of Judgment

In the matter of Skanska USA Civil West v. SANDAG (Superior Court Case No. 2019- 01086344), the following action was taken by Best Best & Krieger on behalf of SANDAG:

• On February 16, 2021, filed an Answer to Amended Cross-Complaint

In the matter of City of Coronado et al v. SANDAG (Superior Court Case No. 2020-00033974), the following actions were taken by Meyers Nave on behalf of SANDAG:

• On April 13, 2021, filed a Judgment of Dismissal

On April 12, 2021, SANDAG staff attended a Small Claims Court Trial in the matter of Carlos Dontae Kendrick v. San Diego South Bay Expressway (Superior Court Case No. 2021-00010197). The matter related to unpaid tolls and was continued.

**Budget Modifications:** SANDAG Board Policy No. 017 authorizes the Executive Director to enter into agreements currently not incorporated in the budget and to make other budget modifications in an amount of up to \$300,000 per transaction, so long as the overall budget remains in balance. This provision may not, however, be used multiple times on the same budget line item in order to circumvent the \$300,000 limit. Staff understands this to mean the budget resets when actions are reported out or upon the Board a new budget. Actions taken since the last regular meeting of the Board are shown in Attachment 2.

**Right-of-Way:** SANDAG Board Policy No. 017, Section 4.15, authorizes the Executive Director to execute all right-of-way property transfer documents, including rights of entry, licenses, leases, deeds, easements, escrow instructions, and certificates of acceptance. The list below reflects the approved documents for this reporting period.

	Mid-Coast Corridor Transit Project – Capi	tal Improvement Project No.	1257001
No.	Address	Nature of Activity	Date
1	Fez Street, San Diego, CA 92121	License Agreement (Traction	3/5/2021
1.	(no street number); SDG&E	Power Substation Agreement)	3/3/2021

**Contract Relief from Maintenance:** SANDAG Board Policy No. 024: Procurement and Contracting – Construction Policy, 5.1, authorizes the Executive Director to grant Relief from Maintenance and Responsibility on major elements of each major construction project on behalf of the Board.

- In a letter dated March 8, 2021, Mid-Coast Transit Constructors was granted Limited Relief from Maintenance for Mid-Coast South Project (Reach 1) – Effective December 17, 2020 (CIP 1257001, Contract No. 5008600, Supplement 4B).
- In a letter dated March 22, 2021, Mid-Coast Transit Constructors was granted Limited Relief from Maintenance for Elvira to Morena Double Track Project Supplements 5A and 5B Effective November 24, 2020 (CIP 1239811, Contract No. 5008600, Supplements 5A and 5B).

**Contract Acceptance:** SANDAG Board Policy No. 024: Procurement and Contracting – Construction Policy, 5.2, authorizes the Executive Director to accept contracts on behalf of the Board and requires all contract acceptances over \$25,000 to be reported to the Board.

- In a letter dated March 30, 2021, RECON Environmental, Inc., was granted Acceptance for the Lonestar & Johnson Canyon Vernal Pool Project – Effective July 31, 2020 (CIP 1200222, Contract No. 5007505, JOC7505-10). The contract value was \$549,229.85.
- In a letter dated March 31, 2021, RECON Environmental, Inc., was granted Acceptance for the Morrison Mitigation Site Project – Effective September 9, 2020 (CIP 1200206, Contract No. 5007505, JOC7505-11). The contract value was \$117,456.08.

**Schedule Extensions:** SANDAG Board Policy No. 035 authorizes the Executive Director to approve requests by grantees for project schedule extensions of up to six months.

# **COVID-19 Grant Amendments**

On April 10, 2020, the Board authorized the Executive Director to approve requests by grantees for project schedule extensions of up to 12 months related to COVID-19 delays without requiring approval by a Policy Advisory Committee. On March 12, 2021, the Board authorized the Executive Director to approve requests by grantees for project schedule extensions of up to an additional 12 months (for an aggregate total of 24 months) related to COVID-19 delays.Schedule related delegated actions to report to the Board for this reporting period are shown in Attachment 3.

After Council meetings, adjustments are typically made to the design. The additional time extension, would allow the full public participation component to be

# Meetings and Events Attended on Behalf of SANDAG

Board members participated in the following meetings and events on behalf of SANDAG. Key topics of discussion are also summarized.

# March 15, 2021: LOSSAN Board Meeting San Diego, CA

# Action: Information

Board members will provide brief reports on external meetings and events attended on behalf of SANDAG.

City of Encinitas Councilmember Joe Mosca attended the Los Angeles-San Diego-San Luis Obispo (LOSSAN) Rail Corridor Agency Board of Directors meeting as the SANDAG representative. Councilmember Mosca participated in discussions regarding the approval of adding a member to the LOSSAN Executive Committee from the San Diego region and approving the agency's annual business plan for fiscal years 2022 and 2023.

# March 25, 2021: FACT Board Meeting San Diego, CA

City of Solana Beach Councilmember Jewel Edson attended the Facilitating Access to Coordinated Transportation (FACT) meeting as the SANDAG representative. Councilmember Edson participated in discussions on the response to RideFACT ridership trends and potential demand, and a conversation with City of La Mesa Councilmember Jack Shu.

# March 25, 2021: Metrolink Board Meeting San Diego, CA

Councilmember Mosca and City of Encinitas Councilmember Kellie Hinze attended the Metrolink Board of Directors meeting as the SANDAG representatives. Councilmembers Mosca and Hinze participated in discussions on the Metrolink Climate Action Plan, future Redlands Passenger Rail Project, maintenance facilities upgrades, COVID-19 recovery planning, and the early earthquake warning system pilot project.

# March 22-23, 2021: CALCOG Regional Leadership Forum San Diego, CA

City of National City Councilmember Marcus Bush attended the California Association of Councils of Governments Regional Leadership Forum as the SANDAG representative. Councilmember Bush participated in several forum sessions on Resilient Regions.

Key Staff Contact: Francesca Webb, (619) 699-1985, francesca.webb@sandag.org

# 2021 Regional Plan: Social Equity

# Overview

The 2021 Regional Plan is being developed through a data-driven and informed process, along with input from our diverse community to develop a transportation system that is "Fast, Fair, and Clean" for all San Diegans.

The COVID-19 pandemic has highlighted the inequities that communities of color and low-income communities experience, including access to healthcare and pollution burden. While many employers transitioned to the virtual world, essential workers (a population consisting heavily of people with low-incomes and people of color) were not afforded the opportunity to do so given that the functions of their jobs are not conducive to telework.

Many people with low incomes, people of color, and seniors depend on transit as the primary mode of transportation, making access to transit critical both during and after the pandemic. Additionally, SANDAG must comply with federal civil rights requirements (Title VI) in developing the Regional Plan.

# Action: **Discussion**

A panel of SANDAG staff and industry leaders will provide an overview of social equity trends and draft social equity performance results that support the 2021 Regional Plan goals for a "fair" transportation system.

# **Fiscal Impact:**

Funding for development of the 2021 Regional Plan is included in Overall Work Program Element Nos. 3102000 and 3102005 in the FY 2021 Program Budget.

## Schedule/Scope Impact:

The draft 2021 Regional Plan and draft Environmental Impact Report (EIR) are expected to be released for review by the Board of Directors and public comment in spring and summer 2021, respectively.

Understanding that we must meet the needs of our most underserved populations in order to achieve social equity and sustainability in our region, SANDAG integrated a Regional Social Equity Planning Framework in the core development of the 2021 Regional Plan.

# **Key Considerations**

To advance the goal of providing a "fair" transportation network, a Regional Social Equity Planning Framework has been developed to guide how we approach, incorporate, and prioritize social equity in all SANDAG plans, programs, and projects.

Public engagement and partnering with the 2021 Regional Plan Social Equity Working Group have been and continue to be crucial elements in the development of the 2021 Regional Plan. Community-based organizations (CBO) partners and other interested stakeholders helped identify performance measures that could be analyzed for social equity. The measures were selected because of their relevance to assess how well the system can provide access to basic needs, key opportunities, and quality healthcare.

Consistent with past practice and state and federal laws, SANDAG has conducted a social equity analysis on the draft 2021 Regional Plan transportation network to evaluate the distribution of benefits and burdens on social equity focused populations. The three social equity focused populations include: (1) all minorities<sup>1</sup>; (2) low-income populations; and (3) seniors.

Social equity has been considered throughout the development of the Vision for the 2021 Regional Plan. Through a continuous learning process, we proactively engage with communities throughout the region with the help of our CBO outreach network and use performance measures and data to make informed decisions. We integrated data regarding where our region's social equity focused populations live and work with community feedback in developing projects and informing how we prioritized them for the 2021 Regional Plan phasing and implementation. Initial performance results show that the proposed system could provide significantly increased access for all three social equity focused populations as compared to today and as compared to previous plans.

In addition to the 2021 Regional Plan social equity analysis, SANDAG has identified transportation strategies to reduce pollution exposure for the region's disadvantaged communities, in accordance with California Assembly Bill 805 (Gonzalez, 2017) (AB 805).

Air pollution poses a considerable health risk on our most vulnerable populations, and the transportation system is the primary contributor to that pollution burden. With the 2021 Regional Plan, the transportation and active transportation networks coupled together with additional supporting policies and programs will alleviate air pollution burden on underserved communities by reducing pollution emissions and exposure in these communities and the region as a whole.

## **Next Steps**

Prior to release of the draft 2021 Regional Plan in May 2021, staff will present an additional component of the Regional Plan: Alignment of state, regional and local planning to the Board on April 30, 2021.

The Board will be asked to consider adoption of the 2021 Regional Plan and certification of the Final EIR in fall 2021.

# Social Equity Analysis for the 2021 Regional Plan

"Social equity" is a shorthand term SANDAG uses for an overarching goal that combines the concepts of environmental justice, the federal laws in Title VI of the Civil Rights Act, and various other federal and state laws intended to promote an equitable distribution of the benefits and burdens resulting from SANDAG policies, programs, and projects. In developing the 2021 Regional Plan, SANDAG has used performance measures and other evidence to make decisions intended to ensure compliance with Title VI requirements and environmental justice principles.

The framework for the social equity analysis for the 2021 Regional Plan includes the following steps:

- 1. Define the Social Equity Focus (SEF) Populations based on socioeconomic and demographic characteristics that can be forecasted into the future.
- 2. Identify key questions and social equity performance measures that reflect issues faced by SEF populations and communities in the region that can provide meaningful comparative data.
- 3. Conduct a social equity analysis on the Plan Network in relation to the No Build Scenario using the selected social equity performance measures for each of the SEF populations. The two aspects of this are to examine the improvements for each SEF population and the comparative improvement relative to the non-SEF population.
- 4. Identify disadvantaged communities geographically in accordance with Assembly Bill 805 (Gonzalez, 2017) and develop strategies for reducing pollution exposure for these affected communities.

The three SEF populations include: (1) all minorities<sup>1</sup>; (2) low-income populations (200% of the 2016 federal poverty level); and (3) seniors (age 75 and older)<sup>2</sup>. The threshold of 200% was determined because of the higher cost of living in the San Diego region. The threshold of 75 for seniors was determined through conversations with the social equity stakeholders considering this an age at which seniors are more likely to be transit dependent and a proxy for limited mobility.

Community-based organizations (CBO) partners and other interested stakeholders helped identify performance measures that could be analyzed for social equity. They were selected because of their relevance to measure how well the system can provide access to basic needs, key opportunities, and healthy communities. The social equity performance measures below are a subset of the overall performance measures used to evaluate the effectiveness of the Regional Plan.

- Benefit-cost ratio of transportation investment
- Change in percent of income consumed by out-of-pocket transportation costs
- Transit access to opportunities:

<sup>&</sup>lt;sup>1</sup> Minority is defined as a person who is: Black (having origins in any of the black racial groups of Africa); Hispanic (of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race); Asian American (having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent); or American Indian and Alaskan Native (having origins in any of the original people of North and South America and who maintains tribal affiliation or community attachment); or Native Hawaiian or Other Pacific Islander (having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands). Source: U.S. Department of Transportation Federal Transit Administration Circular 4702.1B – Title VI Requirements and Guidelines for Federal Transit Administration Recipients.

<sup>&</sup>lt;sup>2</sup> SANDAG went beyond the minimum federal requirement by asking the public what other disadvantaged groups should be analyzed in addition to low-income and minority populations. After collecting social equity stakeholder input from workshops and examining mapped data, SANDAG identified the senior population as an additional social equity focused population group for analyzing the 2015 Regional Plan. It was determined to utilize the same populations identified in the 2015 Regional Plan as maintaining consistency would allow for comparison between the 2015 and 2021 Regional Plans.

- Employment centers Tier 1-3
- Higher education
- Access to basic needs (retail, healthcare, parks)
- Percentage of population within 0.5-mile of high-quality transit stops (commuter rail, light rail, and Next Gen *Rapid*)
- Percentage of population within 0.25-mile of a bike facility
- Average Particulate Matter PM<sub>2.5</sub><sup>3</sup> (type of toxic air particulate)

As part of the 2021 Regional Plan social equity analysis, the percentages of each SEF population were compared to its comparable non-SEF population to determine whether the percentage point difference between the groups is substantial enough to potentially qualify for further evaluation as a disparate impact or disproportionate effect. Anything above a 20-percentage point difference would be cause for SANDAG to conduct further analysis. None of the initial draft disparity calculations exceeded this threshold; indeed, most social equity calculations were within 5 percentage points and often the benefit was to the SEF population rather than the non-SEF population.

Equity Area	Measure	Low Income	Minority	Seniors
Fast	People within 0.5 miles of transit (by transit tier)	~	✓	×
	Access to opportunities via transit:			
	Employment Centers	~	~	n/a
Fair	Higher Education	1	✓	n/a
	Benefit-Cost Ratio	~	✓	~
	Transportation system use costs	~	✓	×
	Access to Basic Needs:			
	• Retail	*	✓	~
Class	• Parks	1	1	~
Clean	Medical/Healthcare	1	1	×
	Average Particulate Matter (PM <sub>2.5</sub> )	1	1	✓
	People within 0.25 miles of bicycle facilities	✓	✓	*

Below is a summary table of the initial draft findings.

✓ = No Disparate Impact or Disproportionate Adverse Effect

Initial draft key results of the 2021 Regional Plan social equity performance measures show that the system could provide significantly increased access to all SEF populations.

<sup>&</sup>lt;sup>3</sup> Particulate matter, " also known as particle pollution or PM, is a complex mixture of extremely small particles and liquid droplets. Particle pollution is made up of a number of components, including acids (such as nitrates and sulfates), organic chemicals, metals, and soil or dust particles. epa.gov/pm

# California Assembly Bill 805 Transportation Strategies to Reduce Pollution Exposure in Disadvantaged Communities

# Overview

The Vision for the 2021 Regional Plan reimagines the transportation system using a data-driven planning process and the 5 Big Moves—inter-reliant strategies that provide a regional system of Complete Corridors that are managed in real time by the Next Operating System (Next OS) to create capacity and keep the transportation system operating smoothly and safely for all modes. Transit Leap and Flexible Fleet services connect a network of Mobility Hubs that covers the region's population centers, major employment centers, and other key activity centers across the region.

The 2021 Regional Plan integrates the 5 Big Moves to meet state and local mandates, address traffic congestion, and create equitable access to jobs, education, healthcare, and other community resources. In addition, California Assembly Bill 805 (Gonzalez Fletcher, 2017) (AB 805) (Chapter 658, Statutes of 2017) requires, among other things, that the 2021 Regional Plan identify disadvantaged communities, and include transportation strategies to reduce pollution exposure in these communities.

# Defining Disadvantaged Communities

In accordance with AB 805, SANDAG has identified the location of disadvantaged communities as designated pursuant to Section 39711 of the Health and Safety Code. The California Office of Environmental Health Hazard Assessment has developed a screening tool—the California Communities Environmental Health Screening Tool, or CalEnviroScreen 3.0—for designating these communities. This statewide tool evaluates multiple pollutants and stressors at the Census tract level. CalEnviroScreen provides a snapshot of existing conditions based on historical data; it does not forecast future conditions for disadvantaged communities. SANDAG used the data to identify the projects, strategies, and programs included in the 2021 Regional Plan that reduce pollution exposure for those impacted communities.

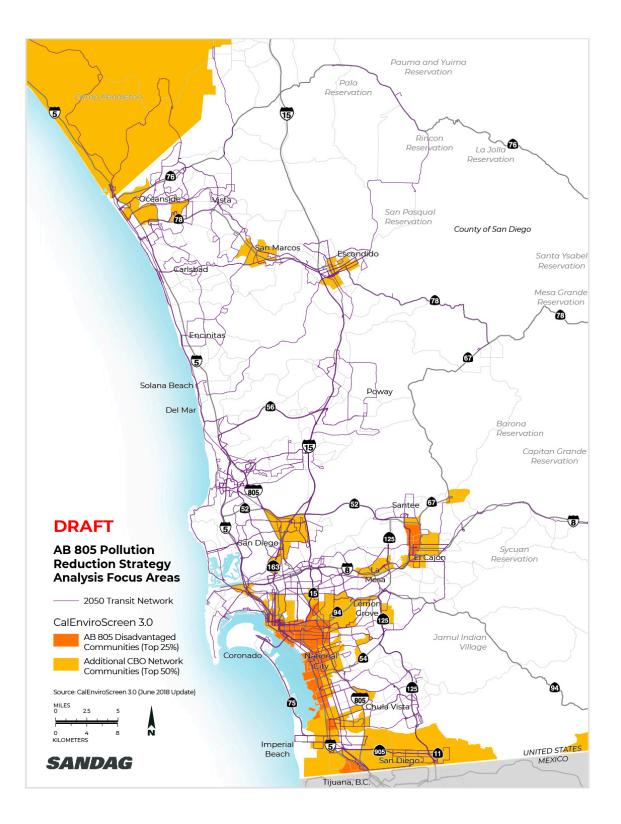

Using CalEnviroScreen, SANDAG has mapped the communities in the region that meet the pollution exposure and demographic characteristics of disadvantaged communities. Figure 1 shows the disadvantaged communities in the San Diego region. Aligning with the California Environmental Protection Agency's Designation of Disadvantaged Communities Pursuant to Senate Bill 535<sup>1</sup>, the 2021 Regional Plan identifies the most vulnerable 25% of communities on the environmental/socioeconomic vulnerability scale and includes transportation strategies to reduce pollution exposure in those communities. However, with the understanding that there are communities in the region with varying levels of vulnerability, SANDAG completed an additional analysis to include Census tracts ranking in the top 50% of CalEnviroScreen scores. This additional consideration is inclusive of communities the 2021 Regional Plan Community-Based Organization (CBO) network serves.

The 2021 Regional Plan Social Equity Working Group (Working Group) provided input on the development of the 2021 Regional Plan from a social equity perspective. The Working Group provided input on various steps in the development of the 2021 Regional Plan, including gathering input on the

<sup>&</sup>lt;sup>1</sup> "Designation of Disadvantaged Communities Pursuant to Senate Bill 535 (De Leon)," California Environmental Protection Agency. April 2017, https://calepa.ca.gov/wp-content/uploads/sites/6/2017/04/SB-535-Designation-Final.pdf.

mobility needs of each community, defining the performance measures used for the social equity analysis, and providing input about how the AB 805 analysis was conducted for the 2021 Regional Plan. Working Group members provided input on the methodology for defining disadvantaged communities and the version of CalEnviroScreen to use. At the time the plan was drafted, CalEnviroScreen 3.0 was the adopted version of the tool. A draft of CalEnviroScreen version 4.0 was not released until late February 2021, so this analysis relies on the adopted version 3.0 of the tool to identify disadvantaged communities.

Transportation Strategies to Reduce Pollution Exposure Pollution-reduction measures in the 2021 Regional Plan include projects, policies, and programs that all work together to implement the transportation network. The projects, policies, and programs are described in detail in Appendices A and B.

Critical to implementing these pieces of the plan is the SANDAG Regional Social Equity Planning Framework. The 2021 Regional Plan establishes a framework for how SANDAG approaches, incorporates, and prioritizes social equity in all SANDAG plans, programs, and projects. SANDAG will partner to advance investments in communities that have been historically underserved and underrepresented – those who have been systemically marginalized and impacted by actions and inactions at all levels of our government and society. This includes people with low incomes, people of color, people with disabilities, and people with limited English proficiency. While the projects listed below are specific to the identified disadvantaged communities, the policies and programs apply more generally and do not specifically allocate or apply to any particular community. It is therefore important to understand how SANDAG will distribute funding in the future and to fully integrate the Social Equity Planning Framework into any methodology or formula for distributing funds or implementing programs.

While it should be noted that the 2021 Regional Plan includes network improvements for all modes of transportation, and the projects are intended to work as a system to benefit mobility, congestion, and equity, some of the projects – on their own – would not necessarily reduce pollution exposure. Therefore, those transportation projects that either alone, or as they function within the transportation system, reduce pollution exposure are listed in Tables H3.1 and H3.2. Following the transportation project list is a description of the Regional Plan policies and how they could be implemented to reduce pollution exposure, and finally the programs (grants) that could be applied in disadvantaged communities to reduce pollution exposure.

# Transportation Projects

Table H.3.1 shows projects benefitting communities in the highest scoring 25% Census tracts of CalEnviroScreen. They are ordered by type and alphabetical by jurisdiction. Similarly, Table H3.2 lists projects benefitting communities in the expanded threshold and is organized in the same manner. Because the analysis of projects is based on the Census tract level, some communities will be included in both Table H3.1 and Table H3.2.

Following Tables 1 and 2, the projects are shown in Figures 2 and 3.

# Figure 3: AB 805 Pollution Reduction Strategies: Transit Projects

In addition to the project list, the transportation and active transportation networks will benefit from service enhancements and upgrades that are not identified on the list of projects. Specifically, the Transit Leap category of projects create a complete network of fast, high-capacity, high-frequency transit services that connect communities to employment centers, healthcare facilities, and other important destinations throughout the San Diego region. Some of these projects build upon the existing transit services with upgrades to transit stations and increased frequencies. The light rail lines currently in operation will receive major enhancements in service through grade separation and double- or triple-tracking for higher-frequency operations. Seeing that many of the light rail routes operate in disadvantaged communities, grade separation will reduce the communities' pollution exposure by alleviating traffic congestion while allowing rail service to operate more frequently without having to stop for local traffic.

At the center of this network are new commuter rail services that will provide faster, more frequent services for longer regional trips, while faster and more frequent light rail, *Rapid*, and local bus routes provide viable alternatives to driving for local trips. Commuter rail uses higher-speed trains (more than 100 miles per hour) in tunnels or on bridges with trains arriving every 8–10 minutes all day. More than 30 new *Rapid* bus routes operating at 10-minute frequency will serve disadvantaged communities in addition to local bus routes running at the same frequency. Ultimately, these transit lines connect with the 31 Mobility Hubs that serve communities with a high concentration of people, destinations, and travel choices spanning one, two, or a few miles based on the community characteristics and tailored specifically to the needs of the community.

Mobility Hubs offer on-demand travel options and supporting infrastructure that enhance connections to high-quality Transit Leap services while helping people make short trips around the community on Flexible Fleets. SANDAG recognizes that new transit services and stations alone will not address the air pollution burden disadvantaged communities face, but when coupled with electrification, they can help reduce air pollution emission and exposure. This is why one key feature of the Mobility Hubs will be the availability of electric shared vehicle fleets and charging stations.

In conjunction with the transportation network, projects within the Regional Bike Network will also provide pollution reduction benefits for disadvantaged communities and the entire region. The 2021 Regional Plan provides almost 400 miles of bike facility upgrades and new construction to establish a safe network, making it easier to get around and providing a significant contribution to social equity efforts along with the environmental benefits.

SANDAG recognizes that, in some cases, the existing street design, such as bike lanes and routes that share the road with vehicular traffic, may not be comfortable for all to use. With that in mind, it designs all active transportation projects to international best practices in creating safe and comfortable places for every person to walk and bike, implementing facilities like protected bikeways and heavily traffic-calmed streets. The projects will, when complete, provide a fully interconnected network of active transportation facilities that connect people from the beginning of their trip to the end.

SANDAG is working to implement an active transportation network that serves regional trips and heavily traveled local corridors. Interconnected with this, SANDAG member agencies are working to build out a

much finer network of bike facilities along local streets that support and function in concert with the SANDAG Regional Bike Network.

A more robust, reliable, and faster transit and active transportation network would help create more equitable access to jobs, education, and healthcare, particularly for disadvantaged communities, all while reducing reliance on use of single-occupancy vehicles.

# **Regional Plan Policies**

SANDAG has developed 11 policies outlining actions that will be taken to achieve the goals of the 2021 Regional Plan. How these policies are implemented will have an important effect on pollution reduction in disadvantaged communities in the region. Social equity is a key factor in developing methodologies for each of these policies, and while some of these methodologies are yet to be developed, others are already being implemented. SANDAG will reevaluate these in light of the Regional Social Equity Planning Framework and SANDAG's Commitment to Equity statement. While all of the policies are summarized below, a complete description of each policy, the near- and long-term implementation actions, program costs, and social equity considerations are included in Appendix B.

Below is a list of the policies, including a brief description of how social equity is being considered for each and how the policy could reduce pollution exposure in disadvantaged communities.

Land Use and Regional Growth – The 2021 Regional Plan vision for land use focuses on development and growth in Mobility Hub areas to preserve the region's open space and support transportation investments by reducing vehicle miles traveled. SANDAG will consider how land use programs, projects, and policies it supports address social equity in relation to regional access to affordable housing, proximity to jobs and transit, opportunities for residents to live where they work and play, convenient access to multimodal transportation options, and other opportunities for work, commerce, and recreation.

Land use is the foundation in determining what is built where and how transportation systems connect work, home, and recreation. Ensuring equitable development starts with considering equity in land use decisions and patterns. By coordinating equity, land use, and transportation, we can better understand where historically marginalized communities are located, how to better connect them with opportunities throughout the region, and enable residents to accomplish daily needs without traveling long distances, thereby contributing toward pollution exposure reduction. Because land use authority is reserved to local jurisdictions, SANDAG will leverage partnerships with cities and the County through the Smart Growth Incentive Program and other grants to provide funds for transportation-related improvements and planning efforts that support smart growth in Mobility Hubs to realize this vision.

*Housing* – California is experiencing a housing crisis, with housing demand far outstripping supply. The 2021 Regional Plan addresses the housing crisis through Mobility Hubs, bringing where people live and work closer together and providing more housing options for more San Diegans through increased density. SANDAG will rely on building strong partnerships with local jurisdictions to increase housing in the region, especially housing available to low-income residents. Through grant programs and technical support, SANDAG will serve as a funding partner and resource to assist local jurisdictions in reaching the region's housing production goals.

While affordable housing has been concentrated in many disadvantaged communities, the goal of this policy is to ensure fairness throughout the region and to not overburden select communities. Providing adequate housing near employment areas can shorten trips and help reduce pollution exposure, but existing deficiencies in communities should be considered before new housing is added. SANDAG is studying ways to accelerate housing production without displacing low-income residents in communities where housing growth occurs and will increase equity in the region by furthering fair housing in resource-rich areas to provide low-income residents with greater access to jobs, educational opportunities, and other resources.

*Climate Action Planning* – To help reach regional and state greenhouse gas (GHG) emissions reduction targets, the 2021 Regional Plan focuses heavily on the conversion to clean transportation and a shift from personal vehicle dependency through the 5 Big Moves. To help local jurisdictions make this transition and achieve broader reductions in GHG emissions, SANDAG will provide technical assistance, guidance resources, templates, and grant funding to incorporate the 5 Big Moves and Sustainable Communities Strategy actions into their climate action plans (CAPs) and plan for more well-connected, sustainable, healthy communities that are accessible to all.

SANDAG recognizes that all residents, regardless of age, race, or income, deserve to live in safe and healthy communities and that climate impacts disproportionately affect low income populations and communities of color. SANDAG will consider climate impacts and the equitable distribution of funding and program assistance for all communities across the region.

*Climate Adaptation and Resilience* – The San Diego region is anticipated to feel the effects of climate change through hotter and more frequent heat waves, prolonged droughts, increased wildfires, rising sea levels, and destructive storm surges. The 2021 Regional Plan aims to better prepare San Diego communities for these climate change impacts by considering evacuation and rapid mobility needs in our transit corridors, evaluating and considering climate vulnerabilities to the region's transportation infrastructure, and utilizing natural lands and conservation to absorb and protect against climate change impacts. SANDAG will establish a coordinated effort across agencies and local jurisdictions for more holistic, comprehensive, equitable, sustainable, and resilient communities.

SANDAG recognizes that climate change affects everyone, with low-income and communities of color disproportionately feeling those effects. Regional resilience is only possible if all communities and populations are prepared. The 2021 Regional Plan seeks to equitably prioritize climate resilience projects and increase public awareness of climate change across San Diego County. SANDAG will promote climate resilience projects through the Resilient Capital Grants and Innovative Solutions program, prioritizing communities most vulnerable to the impacts of climate change.

*Electric Vehicles* – The adoption of electric vehicles (EVs) regionwide is a key player in the 5 Big Moves of the 2021 Regional Plan as a way to reach regional greenhouse gas (GHG) emission-reduction targets. Electric vehicles are zero-emission vehicles that include plug-in battery EVs and hydrogen fuel cell EVs. SANDAG aims to incentivize and encourage the incorporation of all types of EVs into Flexible Fleets, Transit Leap, and goods movement and support funding programs that increase electric vehicle charging stations throughout the region and within Mobility Hubs and as part of the Complete Corridor strategy.

Regionwide adoption of electric vehicles requires affordable and convenient access to zero-emission options for all residents. The charger incentive program currently reserves a minimum of 25% of funds for installations in disadvantaged communities and will explore increases to this amount through program updates. The vehicle incentive program plans to prioritize rebate funds for low- and moderate-income households. The new regional EV strategy that will be developed through the Accelerate to Zero Emissions Collaboration with regional partners will include engagement with CBOs and address social equity considerations in its purpose, policies, and recommendations. The Collaboration's steering committee also includes representatives from two equity-focused organizations. SANDAG is also committed to coordinating with regional stakeholders to accelerate the transition to zero-emission buses and trucks to meet state climate and environmental goals. As SANDAG develops clean transportation pilot projects, benefits accrued to disadvantaged communities will be a factor in determining pilot locations.

**Parking and Curb Management** – Proactively managing parking and curb space enables more people to access places within our communities using alternatives to driving. Effective parking-management policies contribute to the region's ability to meet the California Senate Bill 375 (Steinberg, 2008) GHG-reduction targets by applying parking pricing and reduced parking supply assumptions. In addition, the 2021 Regional Plan addresses curb management by proposing strategies to help balance competing and changing travel needs at the curb while remaining flexible to resident, employee, business, and visitor needs. While the authority to implement parking and curb policies remains with local jurisdictions, SANDAG plays a unique role of informing these policies by sharing resources and best practices and serving as the regional Mobility Data Clearinghouse. Proactively managing parking and curb space enables more people to access places within our communities using alternatives to driving.

SANDAG considers how parking and curb management can address social equity and how all residents in the San Diego region can benefit from its potential impacts. Such policies can enable affordable housing development and create equitable curb space for all travelers, including those who depend on modes like transit, biking, or other Flexible Fleets. These alternatives to driving alone not only enable less required parking, but also can reduce pollution exposure as trips are shifted to cleaner modes. SANDAG will ensure that pricing strategies are implemented in coordination with more convenient and accessible travel choices and mobility incentive programs as they become available.

**Transportation Demand Management** – Transportation Demand Management (TDM) innovations have the potential to transform the way people travel within and between communities. Managing demands on the existing transportation system is a vital strategy for making the overall system more effective in reducing drive-alone commute trips. SANDAG will continue to administer and monitor the iCommute program by providing regional rideshare, employer outreach, and bike education and secure parking services to help reduce commute-related traffic congestion and vehicle miles traveled. Beyond commute trips, TDM programs are expanded to include grants and incentives that make it easier and safer to use active modes for short trips.

SANDAG recognizes that all residents throughout the region deserve convenient, safe, and affordable commute options and will ensure equitable distribution of funding and incentive program assistance. Additionally, SANDAG commuter programs will design options for low-income or unbanked residents

while ensuring marketing, outreach, and education efforts reach underrepresented populations in the region.

Greater participation in TDM programs have great potential for pollution exposure reduction by reducing the number of single-occupant vehicles.

*Vision Zero* – Traffic-related fatalities and serious injuries are a critical and preventable public health and equity issue in the region. Vision Zero is a national campaign to eliminate all traffic-related deaths and serious injuries by focusing on policies and the redesign of streets to create a transportation system that is safe for everyone. In adopting Vision Zero, SANDAG will work towards Zero by collecting and analyzing crash data to identify safety issues and recommend solutions, developing a regional safety policy, continuing to construct the Regional Bike Network, working with local jurisdictions to conduct outreach for and build out their complete streets networks, and funding educational programs, including opportunities to collaborate with tribal nations.

Statistics show that low-income communities and communities of color are disproportionately affected by traffic-related injuries and fatalities, which indicates that establishing an equitable and inclusive transportation system is a critical component of achieving Vision Zero. SANDAG will prioritize consideration of and outreach with marginalized communities to make transportation safe and convenient for every person in the region. Pollution exposure reduction can be achieved when people make greater use of facilities that are safe for everyone.

*Fix it First* – The 2021 Regional Plan envisions many improvements to the San Diego transportation system and network to set the region up for success as a world-class transportation system. To optimize investments in the region's transportation infrastructure, the 2021 Regional Plan and the 5 Big Moves focus on improving upon existing roads, rails, and sidewalks. The Fix It First strategy aims to repair existing roads and create a system for sustained maintenance in the future, creating a safe and efficient transportation network for all users.

The Fix it First strategy can help reduce pollution exposure by maintaining infrastructure that facilitates use of efficient routes and does not neglect facilities that could force users to seek inefficient and longer routes. The Fix it First strategy can prioritize funding in disadvantaged communities and places that have not seen investment to maintain older facilities that are in various states of disrepair.

Special attention will be paid to the location of transportation maintenance investments relative to the location of social equity focus populations to ensure that they benefit from the transportation maintenance system. Along with maintenance project location, the frequency, treatment type, and quality will be monitored to ensure an equitable distribution of benefits.

**System Management and Operations** – Transportation System Management and Operations (TSMO) employs a series of intelligent transportation system strategies designed to maximize the capacity and efficiency of the existing and future transportation system. TSMO includes the establishment of institutional and governance actions to help advance and facilitate cross-agency collaboration to ensure that existing and proposed transportation systems are not operated or managed as independent systems but as a multimodal transportation system. These strategies will help SANDAG manage the complete

corridor system in a coordinated way across jurisdictions and operators that include capital and technology investments.

As SANDAG prepares for the design and deployment of TSMO, several steps can be undertaken to help address social equity considerations. Initial efforts are generally carried out during the technology planning process to ensure that the designs and identification of technological tools respond to the needs of the entire community (e.g., voice activated multilingual applications, traveler information kiosks, and mobile apps).

In addition, recognizing that communications infrastructure plays a pivotal role towards the implementation of the Next Operating System, a near-term effort is the completion of a regional communications digital strategy in an effort to address the digital divide. The strategy will set forth a regional roadmap that will focus on identifying communications infrastructure improvements to bring affordable, reliable, and high-speed broadband internet access to underserved and rural populations.

Better trip routing, traffic signal coordination and overall system efficiency can reduce pollution exposure in disadvantaged communities and throughout the region. Incorporating modernized transportation technology in the region's established and new infrastructure will enable equitable benefits now and in the future.

**Value Pricing** – The 2021 Regional Plan incorporates a variety of pricing strategies as tools to improve mobility by encouraging changes in travel behaviors while generating revenue to address our aging infrastructure and expand travel options. Specifically, the 2021 Regional Plan explores a network of Managed Lanes, a mileage-based road usage charge, a fee on the fares charged for rides provided by Transportation Network Companies, and further subsidization of transit fares. Pricing strategies such as these are in different phases of planning, design, pilot, and deployment in different regions and are also being explored at the state and federal level.

SANDAG will rely on coordination with the other metropolitan planning organizations in California along with the State Department of Transportation to integrate the selection of technology, collection methods, and account management to ensure a consistent experience for travelers. Meanwhile, other elements of pricing strategies, such as the fee structure and distribution of revenue, should be specifically designed for the San Diego region's unique environment and priorities. Better managing the system can lead to pollution exposure reduction by reducing congestion and generating funds that can benefit other, cleaner travel options.

For all different pricing mechanisms included in the 2021 Regional Plan, SANDAG will develop the fee structure and distribution of revenue strategy to ensure equitable outcomes. The Next OS can provide discounts to low-income, youth, and other vulnerable populations. Meanwhile, revenues can be prioritized to fund improved transportation options for low-income and historically underserved neighborhoods. Additionally, shifting away from the regressive taxes and fees traditionally used to fund transportation can improve equity outcomes.

# Programs

SANDAG administers and/or implements several grant programs that could be utilized to reduce pollution exposure in disadvantaged communities in the region. The following list describes the grant programs that could benefit disadvantaged communities. Applying the Regional Social Equity Planning Framework, future updates to eligibility and grant scoring criteria could include metrics designed to identify projects in disadvantaged communities.

- Smart Growth Incentive Program The TransNet Smart Growth Incentive Program (SGIP) supports transportation investments that create more compact, walkable, bikeable, and transitoriented communities. Funding for this grant program is made available approximately every three years. The next cycle of SGIP funding is anticipated to be announced December 2022.
- Active Transportation Grant Program The TransNet Active Transportation Grant Program provides funding for projects that improve safety and prioritize access for people biking and walking. Funding for this grant program is made available approximately every three years. The next cycle of ATGP funds is anticipated to be announced December 2022.
- 3. **Specialized Transportation Grant Program** The SANDAG Specialized Transportation Grant Program funds projects and programs that expand mobility options for seniors and individuals with disabilities. The program is composed of two funding sources: *TransNet* and Federal Transit Administration Section 5310. *TransNet* funds are administered through the Senior Mini-Grant program, which provides financial support to local agencies and nonprofit organizations to offer specialized transportation services for seniors age 60 and older. Funding for this grant program is made available approximately every two years. The next cycle of STGP funds is anticipated to be announced Summer 2022.
- 4. SANDAG Electric Vehicle Charger Program SANDAG has committed to funding the Regional Electric Vehicle Charging Program (EVCP) with \$30 million over the course of 30 years. In the first three years, SANDAG partnered with the San Diego County Air Pollution Control District (APCD) and the California Energy Commission to launch the EVCP known as CALeVIP San Diego County Incentive Project a first-come, first-served rebate program to offset the purchase and installation costs of electric vehicle (EV) charging stations in San Diego County. The EVCP established a communities of concern definition<sup>2</sup> and committed 25% of total program funds to installations in these communities. While the state and APCD funding for the CALeVIP partnership is only for the first three years of the SANDAG EVCP commitment, SANDAG will reassess EVCP program objectives, funding levels, and eligibility to ensure funds are equitably distributed as the CALeVIP San Diego County Incentive Project wraps up.

<sup>&</sup>lt;sup>2</sup> Communities of concern include SB 535 disadvantaged communities and AB 1550 low-income communities. 2020, https://calevip.org/faq/what-low-income-community-lic-0; https://calevip.org/faq/what-disadvantaged-community-dac-5
