Key disclaimers to note

Since 2021, this SANDAG Annual Crime in the San Diego Region Bulletin has utilized crime data from the California Incident Based Reporting System/National Incident Based Reporting System (CIBRS/NIBRS). The Federal Bureau of Investigation's (FBI) NIBRS became the standard for law enforcement crime reporting in the United States on January 1, 2021. CIBRS is the California state version of NIBRS, which allows California law enforcement agencies to report their crime data directly to the California Department of Justice (CAL DOJ). San Diego County law enforcement agencies received CIBRS certification in 2022.

The crime statistics prior to 2021 utilized the Uniform Crime Reporting Summary Reporting System (UCR Summary). Therefore, data shown here should not be compared to UCR Summary data from any other sources due to different methods of counting offenses and/or crime cases. To access historical UCR Summary crime data for the San Diego region prior to 2021 please see the ARJIS or visit SANDAG's [Criminal Justice Clearinghouse](#).

Data for this publication were extracted as a snapshot of all regional CIBRS crime counts in April of 2025. Data are derived from the ARJIS Operational Storehouse and are subject to change as new information becomes available. Data derived directly from San Diego Police Department's records management system may differ slightly from data available to SANDAG through ARJIS; therefore, aggregate data in this bulletin cannot offer a direct comparison to statistics originating from within San Diego Police Department.

The San Diego Sheriff's Office (SDSO) is transitioning to a new Records Management System (RMS) to improve data accuracy and transmission. Due to this transition, SDSO data were extracted in two parts: one from ARJIS for years 2021, January 1-November 18 for 2024, and June 19 to December 31 for 2025; and the second was received directly from SDSO for November 19-December 31 for 2024, and January 1-June 18 for 2025. Additionally, data derived directly from SDSO's records management system may differ slightly from data available to SANDAG through ARJIS; therefore, aggregate data in this bulletin cannot offer a direct comparison to statistics originating from within SDSO.

It should be noted that in 2021, Coronado Police Department provided partial CIBRS/NIBRS data (began reporting in August of 2021); California State University San Marcos, San Diego State University, and the University of California San Diego did not provide data because they were not fully transitioned to CIBRS/NIBRS. As such, crime rates for 2021, along with 2021-2025 annual comparisons in the Appendix Tables are not presented for these agencies. Due to the small number of incidents these agencies had in 2024 and 2025, missing data do not have a significant effect on regional totals or rates.

To access more current data, visit ARJIS' [Open Data Portal](#) (ODP). For information on NIBRS Offense Code definitions, visit the ODP's [CIBRS Offense Code Table](#).

The CIBRS/NIBRS reporting system is a standardized data collection system designed to improve the reporting, collection, and analysis of crime data.

If you have any questions, please contact the Criminal Justice Research Division at (619) 699-1900. For more information about the SANDAG Criminal Justice Clearinghouse, please visit [SANDAG.org/cj](https://sandag.org/cj).

Introduction

SANDAG has compiled and reported regional crime statistics for San Diego County since 1980 and remains the only local source for regional statistics not available at the national level. The compilation of these data over the past 46 years has relied on the support and cooperation of local law enforcement agencies and the Automated Regional Justice Information System (ARJIS). Their continued partnership is gratefully acknowledged.

In 2023, this publication transitioned to reporting crime data based on the California Incident Based Reporting System (CIBRS)/National Incident Based Reporting System (NIBRS). Developed by the FBI in the 1980s, NIBRS became the national standard for crime data reporting following a federally mandated implementation deadline in 2021.

CIBRS is California's state-specific version of NIBRS, which allows California law enforcement agencies to report their crime data directly to California Department of Justice (CAL DOJ). In 2016, San Diego County law enforcement agencies began collaborating with ARJIS to implement the new reporting system and enhance the quality and scope of local crime data. They began submitting NIBRS data in 2021 and received CIBRS certification in 2022.

This 2025 Annual Crime in the San Diego Region Bulletin presents Group A and Group B CIBRS/NIBRS annual data for 2021, 2024, and 2025, consisting of crime rates per 1,000 residents,¹ along with the actual counts of crime incidents reported.²

This annual report includes comparison data from the current year, the previous year, and five years prior. This CIBRS/NIBRS data collection effort, extraction, and validation was supported by ARJIS staff and ARJIS member agencies.³

Highlights

- The **crimes against persons** annual rate of 9.70 per 1,000 residents was **1% lower** than in 2024, reflecting fewer kidnapping/abductions (-16%), non-consensual sex offenses (-9%), murders and aggravated assaults (-5% each), and consensual sex offenses (-4%). There were increases in simple assaults (<1%) and intimidation offenses (8%).
- The **crimes against property** rate of 19.49 was **9% lower** than in 2024. There were decreases for almost all categories, including motor vehicle thefts (-26%), robberies (-23%), burglaries (-19%), and larceny thefts (-1%). There was an increase in arsons (8%) and extortion/blackmail incidents (17%).
- The **crimes against society** rate of 7.42 was **2% lower** than in 2024, reflecting fewer prostitutions (-40%), drug equipment violations (-5%), and weapon law violations (-5%). There was a slight increase in drug/narcotic violations (<1%).
- **Group B offenses/arrests** (which includes less serious crime categories) **increased by 8%** from 2024 to 2025.

¹ The annual crime rates per 1,000 residents are estimated by dividing the number of crimes reported by the population and multiplying by 1,000.

² 2024 population estimates were used for this report. The populations used to calculate rates are provided in Appendix Table 17.

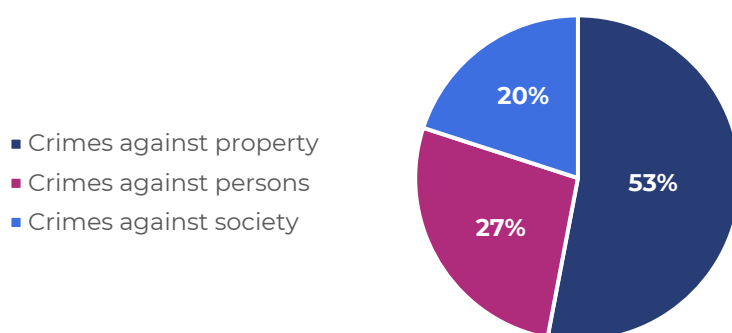

³ Coronado Police Department and university police departments provided CIBRS data separately.

Group A Offenses

Overall crime

There were **121,415 CIBRS/NIBRS Group A offenses** reported to law enforcement in the San Diego region in 2025,⁴ reflecting a 6% decrease from 2024 (129,247) and an 18% decrease from 2021 (147,853) (Appendix Table 1). Of those reported incidents, more than half (53%) were crimes against property, followed by crimes against persons (27%) and crimes against society (20%) (Figure 1).

Figure 1: Group A Offenses by Crime Category in 2025

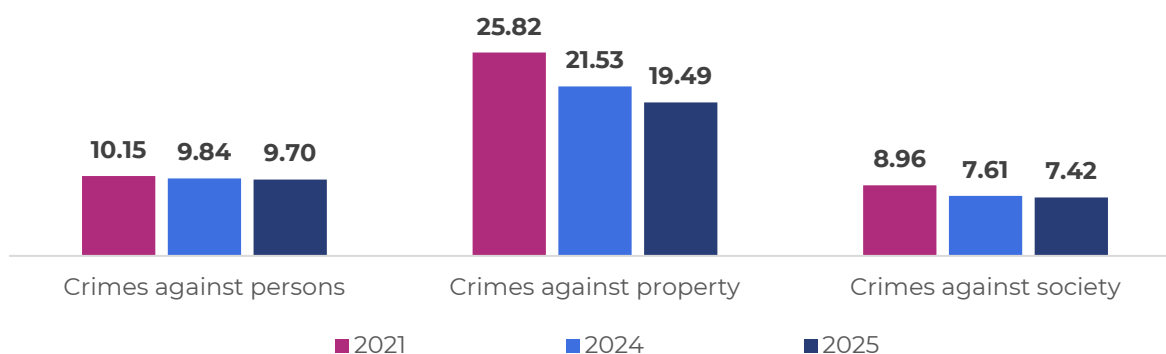

Total = 121,415

Sources: SANDAG; ARJIS

The 2025 annual crime rate for Group A offenses in the region was **36.62 crimes per 1,000 residents** (Appendix Table 2).⁵ All three crime categories saw decreases from the year prior, with crime against property rates showing the largest decrease, dropping 9% from 2024 and 25% from 2021 (Figure 2).

Figure 2: Crime Rates per 1,000 Residents by Category (2021, 2024, 2025)

Sources: SANDAG; ARJIS

⁴ Group A offenses include 52 offenses of the most serious crimes (e.g., murder and nonnegligent manslaughter, rape, robbery, and burglary). Group A offenses are classified into three categories: crimes against persons, crimes against property, and crimes against society. See Appendix Table 1.

Crimes against persons

Crimes against persons include 15 offenses: murder and nonnegligent manslaughter, negligent manslaughter, justifiable homicide, rape, sodomy, sexual assault with object, fondling, aggravated assault, simple assault, intimidation, kidnapping/abduction, incest, statutory rape, human trafficking-commercial sex acts, and human trafficking-involuntary servitude.⁶

There were **32,203 crimes against persons** incidents reported to local law enforcement agencies in the region during 2025, representing decreases from both 2024 (-1%) and 2021 (-4%) (Appendix Tables 1 and 7).

In 2025, crimes against persons accounted for more than one in four (27%) total crimes reported (Figure 1, Appendix Table 1). As expected, crime trends varied across jurisdictions in the region. Among the 18 jurisdictions with sufficient data for comparison, 12 had decreases from 2024 (ranging from <-1% in Chula Vista to -15% in Del Mar) and six had increases (ranging from <1% in Vista to 9% in Carlsbad) (Appendix Table 3).⁷

The most common crime against persons reported was simple assault—constituting over half (56%) of all incidents—followed by aggravated assault (28%), intimidation (8%), non-consensual sex offenses (5%), and kidnapping/abduction (2%) (Figure 3). Less than 1% of cases were classified as murder and nonnegligent manslaughter, negligent manslaughter, justifiable homicide, consensual sex offenses, and human trafficking (not shown). This distribution is similar to that of previous years.

About **1 in 4** total incidents reported to law enforcement by 2025 were **crimes against persons**.

Figure 3: Reported Crimes Against Persons in 2025 by Crime Type

*Note: Percentages may not total 100 due to the exclusion of offenses that collectively made up <1%.
Sources: SANDAG; ARJIS*

⁶ In crimes against persons, one offense is counted per each victim. For instance, if a kidnapping incident involves three victims, three separate offenses are counted.

⁷ Percent changes are only shown when both comparison years have more than 30 incidents.

Variations in specific crimes against persons types

- There were 69 **murders and nonnegligent manslaughters** reported in the region in 2025, resulting in a 5% decrease from the year prior (73) (Figure 4, Appendix Table 1). Among the incidents for which a motive could be determined, the most common were arguments (69%), domestic violence (19%), gang involvement and alcohol (5%, each respectively), and one incident with an “other-not specified”.⁸
 - Murders and nonnegligent manslaughters most frequently took place on a residence (36%) or street/sidewalk (32%).
 - Of the 67 murders and nonnegligent manslaughters with a known weapon, the most common was a firearm (48%).
 - Of the 57 murders and nonnegligent manslaughters with a known victim-suspect relationship, the suspect was known by the victim in 34 incidents (60%).
- There were 9,134 **aggravated assaults** reported in 2025, down 5% from the year prior (Figure 4, Appendix Table 1). Among 16 comparable jurisdictions, 10 had decreases (ranging from <-1% in National City to -29% in Encinitas), 5 had increases (ranging from 3% in Carlsbad and Chula Vista to 43% in Poway), and Santee remained the same (Appendix Tables 11A, 11B, 12A, 12B).
 - Two-fifths (41%) of aggravated assaults involved the use of a personal weapon (e.g., hands, feet, arms, etc.), 24% an “other” weapon (e.g., brick, poison, vehicle), 15% a knife/cutting instrument, 13% a blunt object, and 7% a firearm (Table 2).⁹

Table 2: Weapons Used in Aggravated Assaults and Percentage Change From 2024 to 2025

Aggravated Assault Type of Weapon	2025 Percentage (Within Category)	% Change from 2024-2025
Personal weapon	41%	-3%
Other weapon	24%	-2%
Knife/cutting instrument	15%	-7%
Blunt object	13%	-9%
Firearm	7%	-9%
Total	10,436	-5%

Sources: SANDAG; ARJIS

- Simple assaults** increased by less than 1%, from 17,983 incidents in 2024 to 18,085 in 2025 (Figure 4, Appendix Table 1). This figure includes all assaults and attempted assaults which are not aggravated in nature and do not result in serious injury. Among the 18 jurisdictions with sufficient data for comparison, 12 had decreases (ranging from -1% in

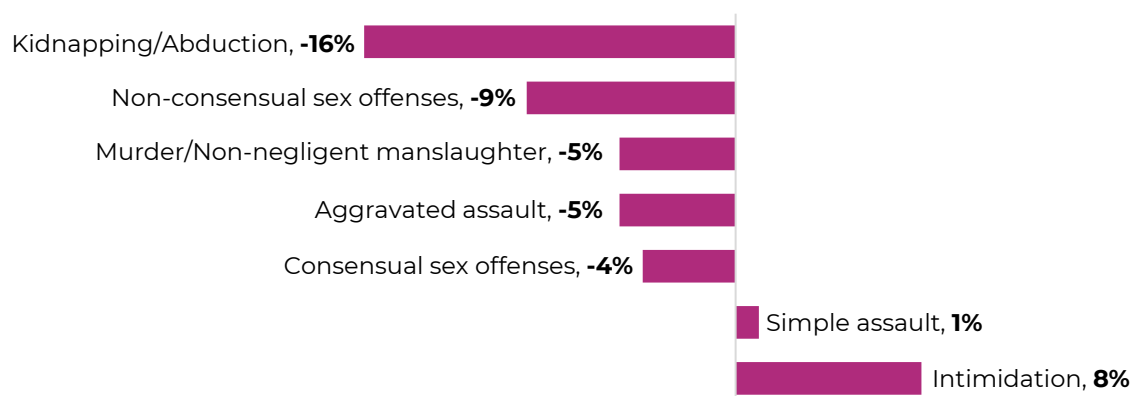

⁸ Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B.

⁹ Types of weapon/force involved are counted at the incident level, not by the total number of charges or victims. An incident with a known weapon could involve anywhere from one to five weapons. For this reason, the total count of aggravated assaults may not match the total count of weapons/force used.

San Diego to -20% in Poway), and six had increases (ranging from <1% in Carlsbad to 9% in Vista) (Appendix Tables 11A, 11B, 12A, 12B).

- The 2,690 acts of **intimidation** reported in 2025 represented an 8% increase from the previous year (Figure 4, Appendix Table 1). Seven of the ten jurisdictions with sufficient data for comparison saw increases (ranging from <1% in Escondido and Oceanside to 47% in Santee), while three saw decreases (ranging from -18% in Chula Vista to -26% in National City) (Appendix Tables 11A, 11B, 12A, 12B).
- Compared to 2024, **non-consensual sex offenses** (including rape, sodomy, sexual assault with an object, and fondling) reported to law enforcement fell by 9%, reaching 1,501 incidents by 2025 (Figure 4, Appendix Table 1). Among the seven jurisdictions with large enough counts for comparison in 2024 and 2025, six saw decreases (ranging from -3% in San Diego to -43% in National City), and only Carlsbad saw a 26% increase (Appendix Tables 11A, 11B, 12A, 12B).
 - Of the four crime categories under non-consensual sex offenses, only rape saw an increase from the previous year (5%). The other three decreased, including fondling (-16%), sexual assaults with an object (-8%), and sodomy (-5%) (Appendix Table 1).
- **Kidnapping/abduction**¹⁰ incidents fell 16% from 2024, reaching 632 incidents by 2025 (Figure 4, Appendix Table 1). Three out of the four jurisdictions with sufficient data for comparison in 2024 and 2025 saw decreases (ranging from -4% in Escondido to -24% in Chula Vista), and National City increased by 21% (Appendix Tables 11A, 11B, 12A, 12B).
- **Consensual sex offenses** (including incest and statutory rape) reported to law enforcement fell by 4%, from 75 in 2024 to 72 in 2025 (Figure 4, Appendix Table 1).¹¹

Figure 4: Crimes Against Persons, Percentage Change From 2024 to 2025

Note: Categories with less than 30 incidents in any of the comparison years are not shown.

Sources: SANDAG; ARJIS

Crimes against persons saw less incidents in 2025 in comparison to 2024. Nearly all categories within this crime type decreased, murder-nonnegligent manslaughter including kidnapping/abduction, aggravated assaults, and consensual and non-consensual sex offenses. Only incidents of intimidation and simple assault increased.

¹⁰ NIBRS definition of kidnapping/abduction is the unlawful seizure, transportation, and/or detention of a person against their will or of a minor without the consent of a custodial parent(s) or legal guardian.

¹¹ Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A and 12B.

Crimes against property

Crimes against property include 25 offenses: robbery, burglary, eight types of larceny theft offenses, motor vehicle theft, arson, vandalism/destruction of property, counterfeiting/forgery, seven types of fraud offenses, embezzlement, extortion/blackmail, bribery, and stolen property. A total of **64,605 crimes against property** incidents were reported to regional law enforcement in 2025 (Appendix Tables 1 and 8), marking a 9% decrease from 2024 and a 24% decrease from 2021.

Crimes against property incidents accounted for over half (53%) of total crimes reported in 2025 (Figure 1 and Appendix Table 1). The crimes against property rate was 19.49 per 1,000 residents (Figure 2 and Appendix Table 4).

Crimes against property are typically counted as one offense for each distinct criminal act, regardless of how many victims or items are involved. An exception to this rule is motor vehicle theft (NIBRS Code 240), which is counted as one offense per stolen vehicle.

Of the 18 jurisdictions with counts large enough for comparison in 2024 and 2025, almost all experienced decreases in crime against property rates (ranging from -4% in Poway to -34% in Coronado). Santee saw the only increase (14%) (Appendix Table 4).

The three most common reported incidents within crimes against property were larcenies (46%), acts of vandalism/destruction of property (19%), and motor vehicle thefts (12%) (Figure 5). Arson, counterfeiting, embezzlement, extortion, and bribery incidents collectively made up 2% (not shown).

Figure 5: Reported Crimes Against Property in 2025 by Crime Type

Note: Percentages may not add to 100 due to the exclusion of arson, counterfeiting, embezzlement, extortion, and bribery offenses, which collectively made up 2%.

Sources: SANDAG; ARJIS

Varying trends in specific crime against property types

- **Robberies** in the region decreased 23% to 1,807 in 2025 (Figure 6, Appendix Table 1). Seven out of the eight jurisdictions with robbery numbers large enough for comparison in 2024 and 2025 experienced a decrease (ranging from -13% in La Mesa to -40% in Escondido), and only Vista saw a 2% increase (Appendix Tables 11A, 11B, 12A, 12B).
 - Almost two thirds of robberies (60%) involved a personal weapon, 17% an “other” weapon, 10% a firearm, 9% a knife/cutting instrument, and 4% a blunt object (Table 3).¹²

¹² Types of weapon/force involved are counted at the incident level, not by the total number of charges or victims. An incident with a known weapon could involve anywhere from one to five weapons. For this reason, the total count of robberies may not match the total count of weapons/force used.

Table 3: Weapons Used in Robberies and Percentage Change from 2024 to 2025

Robbery Type of Weapon	2025 Percentage (Within Category)	% Change from 2024-2025
Personal weapon	60%	-17%
Other weapon	17%	-1%
Firearm	10%	-21%
Knife/cutting instrument	9%	-30%
Blunt object	4%	-18%
Total	2,821	18%

Sources: SANDAG; ARJIS

- Burglaries** saw a decline of 19%, from 5,946 in 2024 to 4,808 in 2025 (Figure 6, Appendix Table 1). Among the 15 jurisdictions with burglary counts large enough for comparison in 2024 and 2025, 13 experienced decreases (ranging from -3% in Poway to -45% in National City) and two experienced increases (1% in Vista and 18% in Solana Beach) (Appendix Tables 11A, 11B, 12A, 12B).
 - In 2025, more than half (58%) of burglaries were categorized as forced entry, and 42% as no forced entry (not shown).
 - Of the 4,254 burglaries that had a known category at the time of this report, 56% were non-residential, and 44% residential. Compared to the previous year, non-residential and residential burglaries decreased by 31% and 25%, respectively.
- Motor vehicle thefts** saw a stark decrease of 26% in 2025, reaching 7,529 incidents (Figure 6, Appendix Table 1). All 15 jurisdictions with sufficient data for comparison saw decreases from 2024 (ranging from -8% in Coronado to -44% in Vista) (Appendix Tables 11A, 11B, 12A, 12B).¹³
 - In 2025, more than two thirds (67%) of all motor vehicle thefts were automobiles, followed by trucks (13%), “other” (11%), and motorcycles (10%) (not shown).¹⁴ Almost all motor vehicle thefts were completed (99%) and only <1% were attempted (not shown).
- Arsons** increased by 8% from 2024, reaching 384 incidents (Figure 6, Appendix Table 1).¹⁵
- There were 12,022 **destruction of property** (vandalism) offenses reported in 2025, 12% lower than in 2024 (Figure 6, Appendix Table 1). Of the 16 comparable jurisdictions, 13 had decreases (ranging from -6% in Imperial Beach to -65% in Coronado) and 3 had increases (ranging from 3% in Chula Vista to 23% in Santee) (Appendix Tables 11A, 11B, 12A, 12B).

¹³ In 2025, Cal DOJ’s CIBRS system began automatically generating a stolen vehicle count that includes both attempted and completed motor vehicle thefts.

¹⁴ Others included buses, tractors, tow dolly, trailers, snowmobiles, electric scooters, bikes, watercrafts, recreational vehicles, and all-terrain vehicles.

¹⁵ Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B. Only the cities of Chula Vista and San Diego had 30 or more incidents in each of the comparison years.

- **Stolen property offenses** decreased by 12%, reaching 1,415 incidents in 2025 (Figure 6, Appendix Table 1).¹⁶ Among the 10 jurisdictions with large enough counts for comparison, seven saw decreases (ranging from -6% in San Diego to -50% in El Cajon), and two saw increases (La Mesa 2%, and San Marcos 13%). National city remained the same (Appendix Tables 11A, 11B, 12A, 12B).
- **Larceny** remained the most common crime in 2025, with 29,437 reported incidents in 2025, marking a 1% decrease from 2024 (Figure 6, Appendix Table 1). Across the region, nine jurisdictions saw declines (ranging from -4% in Oceanside to -33% in Coronado), and seven saw increases (ranging from 1% in San Diego to 35% in Santee) (Appendix Tables 11A, 11B, 12A, 12B).
 - It is worth noting that in 2025, the San Diego region had a **shoplifting** increase of 26% from 2024 and 119% from 2021. Of 14 comparable jurisdictions, 10 experienced increases (ranging from -2% in Oceanside to -91% in National City) and four experienced decreases (ranging from -3% in Encinitas to 31% in El Cajon) (Appendix Tables 11A, 11B, 12A, 12B).¹⁷

Table 4: Types of Larcenies Reported in 2025 and Rate Change From 2024

Larceny Type	2025 Rate (Within Category)	% Change from 2024-2025
Other larceny ¹⁸	37%	-3%
Shoplifting	28%	26%
Theft from a motor vehicle	23%	-21%
Theft of motor vehicle parts/accessories	7%	13%
Theft from building	5%	-9%
Pocket-picking	<1%	-62
Purse-snatching	<1%	-29%
Theft from coin operated machine or device	<1%	--%
Total	29,437	-1%

Sources: SANDAG; ARJIS

- The 6,443 **fraud** offenses reported in 2025 marked a 2% decrease from 2024 (Figure 6, Appendix Tables 1).¹⁹ Across the region, 11 jurisdictions reported decreases (ranging from -2% in National City to -34% in Encinitas) and four reported increases (ranging from 5% in Oceanside to 37% in Lemon Grove) (Appendix Tables 11A, 11B, 12A, 12B).
 - Two-fifths (40%) of fraud incidents in 2025 were categorized as impersonation, followed by identity theft (28%) (Table 5).

¹⁶ A stolen property offense is defined as buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

¹⁷ According to the National City Police Department, National City has a large mall which accounts for the major of shoplifting cases.

¹⁸ "Other" larceny is defined as all thefts which do not fit any of the other larceny/theft or specific subcategories (e.g., thefts from fenced enclosures, recreational boats/houseboats, and airplanes).

¹⁹ Fraud is defined as the intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right.

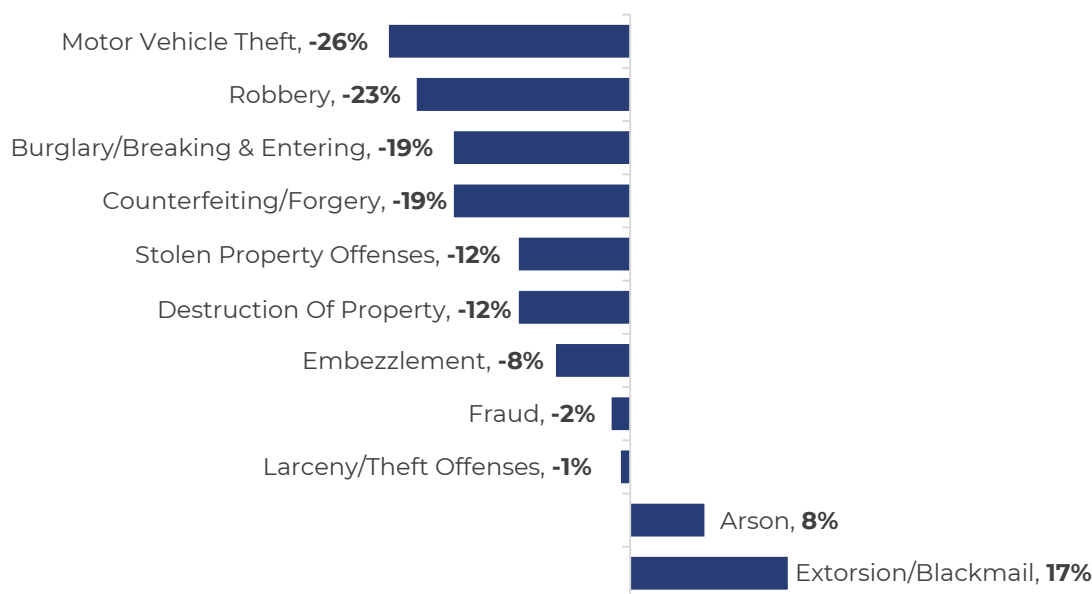

Table 5: Types of Fraud Offenses Reported in 2025 and Rate Change From 2024

Fraud Type	2025 Rate (Within Category)	% Change from 2024-2025
Impersonation	40%	4%
Identity theft	28%	-8%
False pretenses/Swindle/Confidence game	23%	9%
Credit card/Automatic teller fraud	9%	-26%
Welfare fraud	<1%	--
Hacking/Computer invasion	<1%	-6%
Wire fraud	0%	--
Total	6,443	-2%

Note: Percent changes for offenses with less than 30 incidents in any comparison year are not shown.
Sources: SANDAG; ARJIS

- Other crimes against property categories were lower in 2025 compared to 2024, including a 19% decrease in **counterfeiting/forgery** and 8% in **embezzlement** (Figure 6).²⁰
- There were 55 incidents of **extortion/blackmail** in 2025, marking a 17% increase from 2024 (Appendix Table 1).²¹

Figure 6: Crimes Against Property, Percentage Change From 2024 to 2025

Sources: SANDAG; ARJIS

Nearly all property-related crimes in the region experienced a decrease from 2024, except for arson and extortion/blackmail offenses. Larcenies, the most frequently reported offense in this category, decreased in most of its subtypes; however, shoplifting increased by 26%.

²⁰ Crimes against property with less than 30 incidents in the comparison years are not shown (bribery).

²¹ Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B.

Crimes against society

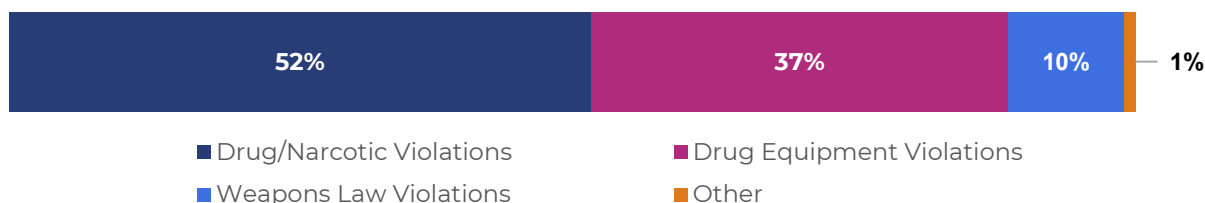

Crimes against society include 12 offense types (drug/narcotic violations, drug equipment violations, four gambling-related offenses, pornography/obscene material, prostitution,²² weapon law violations, and animal cruelty).

In 2025, the region recorded a rate of 7.42 crimes against society per 1,000 residents, a figure slightly below 2024 (7.61) and notably lower than in 2021 (8.96) (Figure 7 and Appendix Table 5). Law enforcement agencies reported a total of **24,607 crimes against society** in 2025, marking a 2% decrease from 2024 and a 16% decline from 2021 (Appendix Tables 1 and 9).

In 2025, **1 in 5 (20%)** crimes reported in the region were **crimes against society**.

Over half (52%) of reported crimes against society incidents were drug/narcotic violations, 37% drug equipment violations, and 10% weapons law violations. Incidents of pornography/obscene material, prostitution, animal cruelty, and gambling cumulatively made up about 1% of crimes. Among the 16 comparable jurisdictions in 2024 and 2025, eight had lower crime against society rates (ranging from -9% in Carlsbad to -50% in Encinitas), and eight had higher rates (ranging from <1% in El Cajon to 38% in La Mesa) (Appendix Table 5).

Figure 7: Reported Crimes Against Society in 2025 by Crime Type

Note: Incidents of pornography/obscene material, prostitution, animal cruelty, and gambling cumulatively made up less than 1% are labeled as "Other" in the figure.

Sources: SANDAG; ARJIS

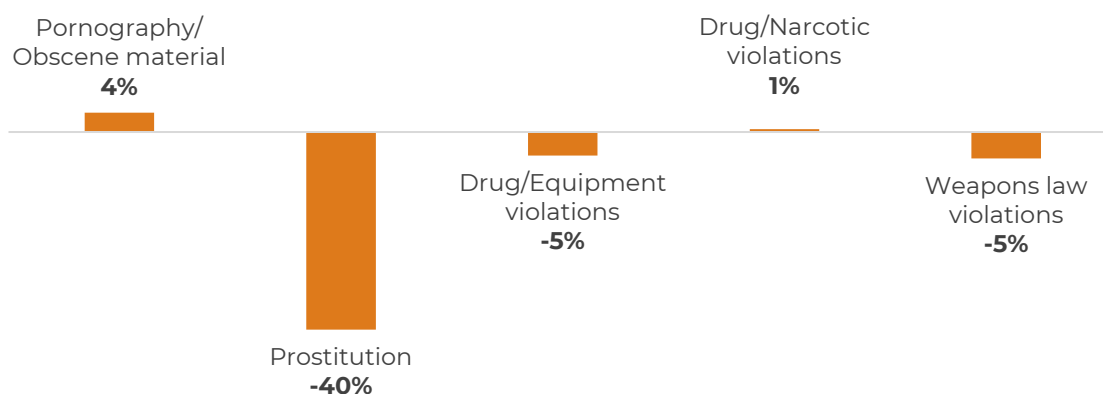

Variations in specific crime against society types

- There were 12,723 **drug/narcotic violations** reported in 2025, a <1% increase from 2024 (Figure 8, Appendix Table 1). Among the 15 jurisdictions with counts large enough for comparison, eight saw decreases (ranging from -9% in Carlsbad to -49% in Encinitas), while seven saw increases (ranging from 3% in Chula Vista to 35% in Escondido) (Appendix Tables 11A, 11B, 12A, 12B).
- Drug equipment violations** decreased 5% compared to 2024, reaching 9,112 in 2025 (Figure 8, Appendix Table 1). For the 15 jurisdictions with drug equipment violation numbers large enough for comparison in 2024 and 2025, nine had decreases (ranging from <-1% in Chula Vista to -51% in Encinitas), and six had increases (ranging from 2% in San Diego to 77% in National City) (Appendix Tables 11A, 11B, 12A, 12B).

²² Prostitution includes three offenses: prostitution, assisting or promoting prostitution, and purchasing prostitution.

- There were 2,531 **weapons law violations** reported in 2025, 5% lower than in 2024 (Figure 8, Appendix Table 1).²³ For the 12 jurisdictions with weapons law violations numbers large enough for comparison in 2024 and 2025, seven had decreases (ranging from -2% in Escondido to -32% in San Marcos), four had increases (ranging from 4% in Carlsbad to 48% in La Mesa), Santee had no change (Appendix Tables 11A, 11B, 12A, 12B).
- **Prostitution** crime incidents decreased 40% from 2024, reaching 145 reported incidents in 2025 (Figure 8, Appendix Table 1).²⁴
- There were three more incidents of **pornography/obscene materials** in 2025 compared to 2024, from 77 to 80 (Figure 8, Appendix Table 1).

Figure 8: Crimes Against Society, Percentage Change From 2024 to 2025²⁵

Sources: SANDAG; ARJIS

Overall, crimes against society saw a slight decrease in 2025 compared to the previous year. Drug narcotic violations and drug equipment violations made up the majority of reported incidents and each decreased by 5%. Reported incidents of prostitution, while smaller in numbers, saw the largest relative decrease from 2024.

²³ Weapon law violations include violations such as the manufacture, sale, or possession of deadly weapons, carrying deadly weapons, concealed or openly, using, manufacturing, etc., silencers; and furnishing deadly weapons to minors.

²⁴ Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B. Only the cities of National City and San Diego had 30 or more prostitution incidents in each comparison year.

²⁵ Crimes against society categories with less than 30 incidents in any of the comparison years are not shown (animal cruelty and all gambling offenses).

Group A Offense Changes (2024–2025)

In 2025, the majority of comparable Group A offense categories decreased from the year prior, with the exception of six offenses (Table 6). Reported incidents of prostitution, motor vehicle theft, and robbery experienced the largest declines from 2024.

Table 6: Changes in Group A Offenses From 2024 to 2025²⁶

Crime offenses that decreased	Crime offenses that increased
- Prostitution (-40%) - Motor vehicle theft (-26%) - Robbery (-23%) - Burglary (-19%) - Counterfeiting/Forgery (-19%) - Kidnapping/Abductions (-16%) - Destruction of property (-12%) - Stolen property offenses (-12%) - Non-Consensual sex offenses (-9%) - Embezzlement (-8%) - Weapons law violations (-5%) - Aggravated assaults (-5%) - Drug equipment violations (-5%) - Murder and nonnegligent manslaughter (-5%) - Consensual sex offenses (-4%) - Fraud offenses (-2%) - Larceny/Theft offenses (-1%)	- Simple assaults (<1%) - Drug narcotic violations (<1%) - Pornography/Obscene materials (4%) - Intimidation (8%) - Arsons (8%) - Extortion/Blackmail (17%)

Sources: SANDAG, ARJIS

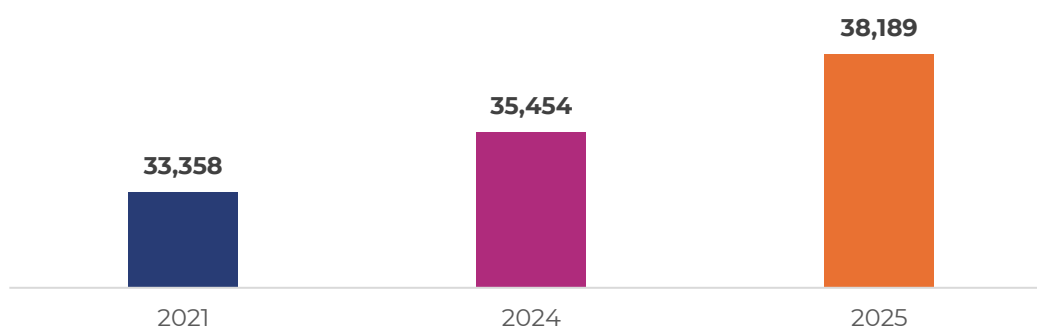

²⁶ Percentage changes should be interpreted with caution, particularly for offenses with relatively small numbers of reported incidents. In these cases, a small change in the number of incidents can result in a relatively large percentage change from year to year.

Group B Offenses

Group B offenses include less serious crime categories such as curfew/loitering/vagrancy, disorderly conduct, driving under the influence (DUI), family offenses (nonviolent), liquor law violations, trespassing, and all other offenses. Law enforcement agencies must report both incidents (crime cases) and arrests for Group A offenses. However, Group B offenses are only reported if an arrest is made. Therefore, only Group B arrest reports include circumstances of the arrest and arrestee data (e.g., age, gender, race and ethnicity).

In 2025, there were **38,189 Group B offenses** in the San Diego region, marking a 8% increase from 2024 (35,454), and a 14% increase from 2021 (33,358) (Figure 9 and Appendix Table 13). All offenses under this category experienced increases from 2024, with the exception of disorderly conduct (-6%) (Appendix Table 13).

Figure 9: Number of Reported Group B Offenses by Year (2021, 2024, 2025)

Sources: SANDAG; ARJIS

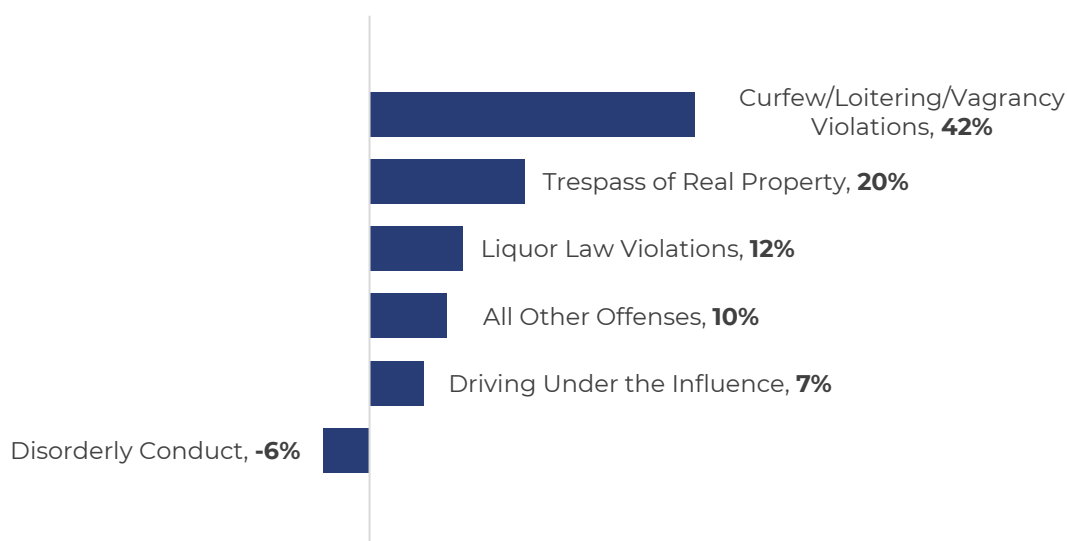

Variations in specific Group B offenses

- There were **25,990 all other offenses** reported during 2025, an increase of 10% from 2024 (Figure 10, Appendix Table 13).²⁷ Out of the 15 jurisdictions with counts large enough for comparison, 14 saw increases (ranging from 10% in Escondido to 120% in Encinitas). San Diego saw the only decrease, <-1% (Appendix Tables 15A, 15B, 16A, 16B).
- **Curfew/loitering/vagrancy violations** increased 42% from 2024, reaching 903 reported incidents in 2025 (Figure 10, Appendix Table 13). The only two jurisdictions with large enough counts for comparison saw increases (El Cajon 13%, and San Diego 84%) (Appendix Tables 15A, 15B, 16A, 16B).
- There were 5,490 **disorderly conduct** offenses reported in 2025, 6% lower than in 2024 (Figure 10, Appendix Table 13). Of the 14 comparable jurisdictions, 12 had decreases (ranging from -2% in Escondido to -36% in San Marcos) and two had increases (7% in Santee and 13% in La Mesa) (Appendix Tables 15A, 15B, 16A, 16B).

²⁷ All other offenses include offenses of General Applicability (i.e., aiding and abetting, assault to commit, conspiracy to commit, enticement, facilitation of, solicitation to commit, etc.).

- Incidents of **driving under the influence** increased 7% in 2025, reaching 4,879 incidents (Figure 10, Appendix Table 13). Of 15 jurisdictions with counts large enough for comparison, 9 had increases (ranging from 3% in La Mesa and Oceanside to 93% in Poway), and 6 had decreases (ranging from -4% in Chula Vista to -15% in Imperial Beach) (Appendix Tables 15A, 15B, 16A, 16B).
- **Liquor law violations** increased 12% to 198 incidents in 2025 (Figure 10, Appendix Table 13).²⁸
- **Trespass of real property** incidents increased by 20%, reaching 723 counts in 2025 (Figure 10, Appendix Table 13). Chula Vista and San Diego were the only two jurisdictions with large enough counts for comparison, with a 28% and 10% increase respectively from the year prior (Appendix Tables 15A, 15B, 16A, 16B).
- There were six incidents of a **family offense (nonviolent)** in 2025 (Appendix Table 13), which was the same as the incidents reported in 2024 (Appendix Tables 15A, 15B, 16A, 16B).

Figure 10: Types of Group B Offenses, Percentage Change From 2024 to 2025

Note: Group B categories with less than 30 incidents in any of the comparison years are not shown (i.e., family offenses nonviolent).

Sources: SANDAG; ARJIS

Hate Crimes

As part of the California Penal Code (PC), the Attorney General is required to submit an annual report to the Legislature regarding crimes motivated by a victim's race/ethnicity, religion, gender, sexual orientation, national origin, or physical or mental disability. According to the California PC, a hate crime is a criminal act committed in whole or in part because of the actual or perceived characteristics of the victim. Thus, hate crimes are not separate, distinct crimes, but rather traditional offenses specifically motivated by the offender's bias.

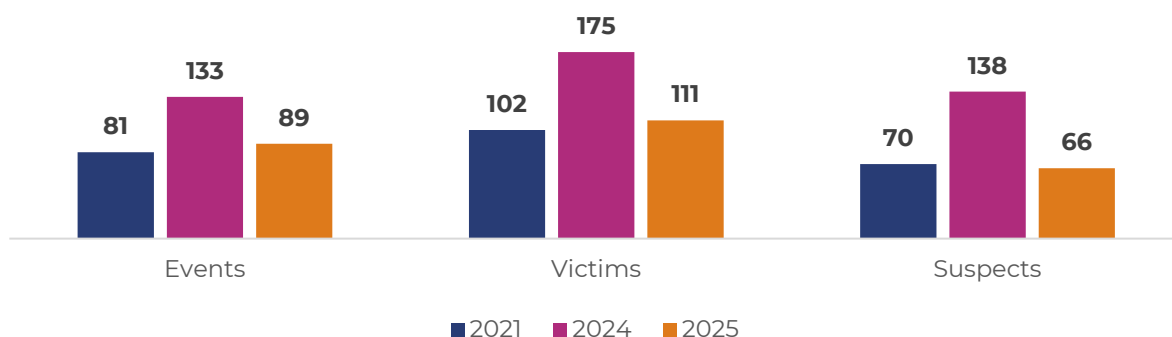

Since 2008, local law enforcement agencies have shared the hate crime reports they submit to the state directly with SANDAG, allowing access to more detailed information than what is

²⁸ Jurisdictional numbers for comparison are available in Appendix Tables 15A, 15B, 16A, 16B. Only the city of San Diego had 30 or more incidents in each of the comparison years.

available in the state report. In 2025, law enforcement across the region reported a total of **89 hate crime events**, involving 111 victims and 66 known suspects (Figure 11).²⁹

Compared to 2024, the number of hate crime events fell by 33%, down from 133 events. Hate crimes were reported by Police Departments in Carlsbad, Chula Vista, Coronado, Escondido, La Mesa, National City, Oceanside, San Diego, San Diego Sheriff's Department (Del Mar, Encinitas, Vista, Unincorporated areas, and Sheriff Other), California State University San Marcos, San Diego State University, and University of California San Diego (not shown).

Figure 11: Number of Hate Crime Events, Victims and Suspects (2021, 2024 and 2025)

Source: SANDAG

Additional key findings from the compiled hate-crime data include:

- Of the 92 documented offenses (one event may account for multiple offenses):
 - More than half (52%) were described as crimes against property. These consisted of 46 incidents of destruction or damaging of property in some way (e.g., vandalism) and one larceny theft and robbery (each respectively).
 - Less than half (47%) were crimes against persons. This included 16 acts of intimidation, 14 simple assaults, and 13 aggravated assaults.
 - There was one crime against society incident that consisted of a weapon law violation.
- Of the 75 events where a victim description was available, 68% involved an individual or multiple individuals; 16% involved a religious organization; 10% involved a government entity, 5% a business, and 1% an “other.”
- Of the 73 person victims whose gender was documented, 60% were male.
- Of the 89 events where location was noted, 21% occurred at a church, synagogue, temple or mosque; 15% at a parking lot or garage; 15% at a school (college, or university); 13% at a business; 12% at a residence, home, or driveway; 11% on a highway, road, alley, street; or sidewalk; 6% at an other or unknown location; 2% in an outdoor area; at a government building; and at a jail, penitentiary, or correctional facility (each respectively).

²⁹ A victim can be an individual, a business or financial institution, a religious organization, a government entity, or other.

- Of the 89 hate crime events, 45% were motivated by race, ethnicity, or national origin; 33% by religion; 20% by sexual orientation; and 2% by gender identity.
- Of the 40 incidents related to the victim's actual or perceived race, ethnicity, or national origin, 48% of the bias motivations were described as being anti-Black, 20% anti-Hispanic, 10% anti-White, 8 % anti-Other, and anti-Asian (each respectively), 5% anti-multiple races, and 3% anti-Arab.
- Of the 29 incidents related to the victim's actual or perceived religion, more than half (59%) of the bias motivations were described as being anti-Jewish, 14 % anti-Catholic, and anti-other religion (each respectively), and 7% anti-Islamic.

Understanding the different crime reporting systems

Uniform Crime Reporting Summary Reporting System (UCR Summary)

The Uniform Crime Reporting Summary Reporting System (UCR Summary) was used and maintained nationally by the Federal Bureau of Investigation (FBI) since the 1920s. The UCR Summary had two specific classification categories: Part I offenses consisting of 8 crimes (e.g., murder, rape, aggravated assault, robbery, burglary, larceny theft, motor vehicle theft and arson) and Part II offenses consisting of 21 crimes (e.g., simple assault, fraud, vandalism, drug offenses, and driving under the influence).

While the UCR Summary provided valuable crime data for many years, it also had several limitations. Under this system, only the most serious offense or highest charge associated with each incident was reported. For instance, if an individual broke into a vehicle, committed a simple assault, and subsequently committed a rape, only the rape offense would be recorded, as it represents the most severe crime in that scenario.

The UCR Summary focused on a limited number of crimes, potentially overlooking important details and emerging trends. For instance, it only recorded the attempted or completed status for a limited number of crime types. Additionally, information on weapon involvement was collected exclusively for certain offenses, such as homicide, robbery, and aggravated assault. Lastly, it only collected aggregate counts, meaning it did not capture detailed information about the context of crimes, characteristics of the victims and offenders, relationships, or other circumstances related to the crime.

National Incident Based Reporting System (NIBRS)

The National Incident Based Reporting System (NIBRS) is a federal incident-based reporting system for law enforcement agencies to report crime cases and arrests to the United States Department of Justice (US-DOJ).

First created in the 1980s, NIBRS collects detailed data on all offenses that occur within a single incident, rather than only the most serious offense. NIBRS also collects more comprehensive information about each crime, including multiple offenses within the same incident. For instance, an incident involving rape, motor vehicle theft, and kidnapping would have each offense reported separately. Law enforcement agencies are required to report each offense as a separate and distinct crime, not as part of another. Additionally, they must provide specific details such as the date and time of the offense, location, victim and offender demographics, and the relationships between the individuals involved.

NIBRS has two specific crime categories known as Group A and Group B offenses. Group A offenses include 52 serious crimes (e.g., murder, rape, robbery, and burglary). Group B offenses include 8 offenses that tend to be less serious in nature (e.g., disorderly conduct, curfew/loitering/vagrancy, drunkenness, and trespassing).

NIBRS became the standard for law enforcement crime reporting in the United States on January 1, 2021. In order to comply with the FBI mandated NIBRS reporting deadline, San Diego County law enforcement agencies began cooperating with the Automated Regional Justice Information System (ARJIS) in 2016 to implement the new system and improve the quality and breadth of local crime data.

California Incident Based Reporting System (CIBRS)

The California Incident-Based Reporting System (CIBRS) is California's state-specific version of NIBRS, designed to capture additional data values that are of interest to the state. This system allows agencies to transmit their NIBRS data to the California Department of Justice (CA-DOJ), which then forwards the data to the United States Department of Justice (US-DOJ), to ensure compliance with national NIBRS reporting standards. San Diego County law enforcement agencies became CIBRS-compliant in 2022, one year after beginning their NIBRS data reporting efforts.

How do CIBRS and NIBRS differ?

While NIBRS and CIBRS share the same foundational structure and both adhere to federal reporting standards, CIBRS is designed to capture all standard NIBRS data elements while incorporating additional data fields that address California's unique priorities. NIBRS is a national system that is used by law enforcement agencies across the United States with extra categories exclusive to federal and tribal law enforcement agencies (e.g., immigration violations, and fugitive offenses).

How do CIBRS/NIBRS compare to UCR Summary?

CIBRS and NIBRS are built on an incident-based reporting framework designed to capture more comprehensive, accurate, and detailed information about each crime event. This shift allows for better analysis of crime trends and the circumstances surrounding each offense. In order to better understand the differences between CIBRS/NIBRS and UCR Summary, the following table compares key elements of both crime reporting systems. It is important to remember that due to different methodologies on how crimes are counted and categorized, crime statistics should not be compared between both systems.

Table 1: Differences between UCR Summary and CIBRS/NIBRS

UCR Summary	CIBRS/NIBRS
- Only highest offense counted per crime case 8 Part I Offenses 21 Part II Offenses - Tabulated and sent on "Report Date" - Data updated monthly "Attempted" or "Completed" status only tracked for select crime types - Weapon information only collected for select crime types (murder, robbery, and aggravated assaults)	- Up to ten offenses counted per crime case 52 Group A Offenses 8 Group B Offenses - Tabulated on "Incident Date" - Transactional real-time reporting "Attempted" or "Completed" status tracked for all crimes types - Weapon information collected for all crime types

How CIBRS/NIBRS Group A offenses are counted

Definition of an Incident

The FBI defines an incident as one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place. In most circumstances, think of each crime case as one incident.

Definition of an Offense

Offenses are the specific crimes that occur within each incident. Agencies can report up to 10 Group A offenses within a particular incident. For example, an incident can include the offenses of rape, motor vehicle theft, and kidnapping/abduction. Each crime case can include multiple CIBRS/NIBRS offenses.

Crimes Against Persons: One offense is counted per victim. For example, if an aggravated assault involves two victims, it is recorded as two aggravated assaults.

Crimes Against Property: One offense is generally counted for each distinct operation of crime, with the exception of motor vehicle theft (NIBRS Code 240), which is counted as one offense per stolen vehicle. For example, if one location is robbed, only one count of robbery is recorded regardless of the number of victims or items robbed. Conversely, if two cars are stolen, two counts of motor vehicle theft are reported.

Crimes Against Society: One offense is counted for each distinct operation of crime.

How CIBRS/NIBRS Group B offenses are counted

Definition of a Group B Offense

Group B offenses tend to be minor in nature, such as curfew/loitering/vagrancy violations, disorderly conduct, driving under the influence, etc. and are only reported when an arrest occurs. The Group B Arrest Report describes only the circumstances of the arrest, the Group B arrest offense, and the arrestee data (e.g., his/her age, sex, race, and ethnicity). Reporting agencies are required to submit a separate Group B Arrest Report for each arrestee involved in the incident.

Group B Offense: One offense is counted per arrest.

For more information on offense counting and classification criteria, please see the FBI's [2025 NIBRS User Manual](#), as the criteria vary for crimes against persons, crimes against property, and crimes against society.

Appendix Table 1

Group A offenses**San Diego Region, Annual 2021, 2024, and 2025**

	2021	2024	2025	Change 2021-2025	Change 2024-2025

Vista	11.42	10.30	10.39	-9%	<1%
Unincorporated Total	8.11	7.01	6.73	-17%	-4%
Total	10.15	9.84	9.70	-4%	-1%

Notes: Crimes against persons include murder, negligent manslaughter, justifiable homicide, non-consensual sex offenses, consensual sex offenses, human trafficking-commercial sex acts, and human trafficking-involuntary servitude. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, Cuyamaca College, Grossmont College, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. "Unincorporated" includes 4S Ranch, Alpine, Campo, Fallbrook, Julian, Lakeside, Pine Valley, Ramona, Ranchita, Rancho San Diego, and Valley Center, as well as the unincorporated areas of Imperial Beach, Lemon Grove, North Coastal, Poway, San Marcos, Santee, and Vista. Percent changes are based on computed crime rates rounded to the precision level of two decimal points. Percent changes are not presented if either comparison number used to compute the crime rate equals 30 or less.

In 2021, Coronado police department provided partial CIBRS/NIBRS data (started reporting in August of 2021). In 2021 Cal State San Marcos University, San Diego State University, and University of California San Diego did not report CIBRS/NIBRS.

Notes: Crimes against society category includes drug/narcotic violations, drug equipment violations, gambling offenses, pornography/obscene material, prostitution, weapons law violation, and animal cruelty. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, Cuyamaca College, Grossmont College, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. "Unincorporated" includes 4S Ranch, Alpine, Campo, Fallbrook, Julian, Lakeside, Pine Valley, Ramona, Ranchita, Rancho San Diego, and Valley Center, as well as the unincorporated areas of Imperial Beach, Lemon Grove, North Coastal, Poway, San Marcos, Santee, and Vista. Percent changes are based on computed crime rates rounded to the precision level of two decimal points. Percent changes are not presented if either comparison number used to compute the crime rate equals 30 or less.

In 2021, Coronado police department provided partial CIBRS/NIBRS data (started reporting in August of 2021). In 2021 Cal State San Marcos University, San Diego State University, and University of California San Diego did not report CIBRS/NIBRS.

Notes: “Sheriff-Total” includes the contract cities and the unincorporated area served by the San Diego County Sheriff’s Department, as well as crime reported in the Sheriff’s “other” category that includes the Sheriff’s detention facilities, courts staffed by the Sheriff, Cuyamaca College, Grossmont College, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. “Unincorporated” includes 4S Ranch, Alpine, Campo, Fallbrook, Julian, Lakeside, Pine Valley, Ramona, Ranchita, Rancho San Diego, and Valley Center, as well as the unincorporated areas of Imperial Beach, Lemon Grove, North Coastal, Poway, San Marcos, Santee, and Vista. Some incidents for the San Diego Sheriff’s Department were not associated with a specific contract city or unincorporated areas at the time of this report. As a result, the Sheriff Total count may be slightly higher than the sum of all the contract cities and unincorporated area.

In 2021, Coronado police department provided partial CIBRS/NIBRS data (started reporting in August of 2021). In 2021 Cal State San Marcos University, San Diego State University, and University of California San Diego did not report CIBRS/NIBRS.

TOTAL Group B Offenses	193	0	11	15	1	94	12	301	42	0	78	54	1,860

Notes: “Sheriff-Total” includes the contract cities and the unincorporated area served by the San Diego County Sheriff’s Department, as well as crime reported in the Sheriff’s “other” category that includes the Sheriff’s detention facilities, courts staffed by the Sheriff, Cuyamaca College, Grossmont College, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. “Unincorporated” includes 4S Ranch, Alpine, Campo, Fallbrook, Julian, Lakeside, Pine Valley, Ramona, Ranchita, Rancho San Diego, and Valley Center, as well as the unincorporated areas of Imperial Beach, Lemon Grove, North Coastal, Poway, San Marcos, Santee, and Vista. Some incidents for the San Diego Sheriff’s Department were not associated with a specific contract city or unincorporated areas at the time of this report. As a result, the Sheriff Total count may be slightly higher than the sum of all the contract cities and unincorporated area.
