

LOSSAN Rail Realignment – What We’ve Heard

WHAT WE’VE HEARD
The rail line needs safer crossings for coastal access
Should be a fast and convenient mobility option
The rail line should help people get to coastal destinations
The realignment should minimize impacts to the lagoon
This project should be a wise investment of tax dollars
I don't want loud construction in my neighborhood
I don't want the rail line to impact my property
The tunnel should reduce property impacts
The design should prevent flooding from sea level rise
Tunnels should be designed to reduce noise and vibration

CONSIDERATIONS
Improved safety
Travel time
Connectivity and travel demand
Environmental impact
Project cost
Constructability and duration
Potential property impacts
Tunnel clearance
Flood prevention
Community impacts
