

**BOARD OF DIRECTORS
NOVEMBER 30, 2007**

**AGENDA ITEM NO. 07-11-14
ACTION REQUESTED - APPROVE**

**2006 REGIONAL TRANSPORTATION IMPROVEMENT
PROGRAM - AMENDMENT NO. 9**

File Number 4000600

Introduction

On August 4, 2006, the Board of Directors adopted the 2006 Regional Transportation Improvement Program (RTIP) and found the 2006 RTIP in conformance with the 1998 Regional Air Quality Strategy (RAQS) and the 2002 Ozone Maintenance Plan. The 2006 RTIP is the five-year program of proposed major highway, arterial, transit, and bikeway projects in the San Diego region covering the period FY 2007 to FY 2011.

Discussion

As outlined in the Board Policy No. 031, "TransNet Ordinance and Expenditure Plan Rules," each local agency is required to hold a public hearing on any proposed changes to the RTIP at its City Council or Board of Supervisors meeting. A resolution attesting to the public hearing was due to SANDAG by November 2, 2007; however, due to the recent wildfires around the county, some agencies cancelled their meetings at which a public hearing was scheduled to occur. Therefore, SANDAG has extended the due date for receipt of the resolutions to November 29. As of this report all proposed amendments are included. However, should any agency fail to submit the required resolution, those projects will be highlighted in the oral presentation of this report and excluded from the final RTIP Amendment No. 9.

SANDAG processes amendments to the RTIP generally on a quarterly basis and occasionally on a more frequent basis as circumstances arise. By Board delegation, RTIP amendments are approved by the Transportation Committee. However Amendment No. 9 is scheduled for approval by the Board for several reasons:

1. One of the requirements of Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) is that the Regional Transportation Plan (RTP) and the RTIP must be consistent documents. Agenda Item No. 13 is proposed for Board action to adopt a SAFETEA-LU compliant RTP. RTIP Amendment No. 9 also is fully compliant with SAFETEA-LU with updates consistent with the new 2030 RTP update, including project schedule, cost, and scope.

Recommendation

The Board of Directors is asked to approve Resolution No. 2008-10 (Attachment 1) approving Amendment No. 9 to the 2006 RTIP, which finds the Amendment in conformance with State Implementation Plans for air quality, and pending the receipt of signed local agency resolutions that attest to holding a public meeting regarding projects included in this amendment.

2. Whenever there is an update to the RTP, SANDAG is required to re-determine conformity of the RTP within six months. RTIP Amendment No. 9 is scheduled for the same Board meeting subsequent to adoption of the RTP and includes the required conformity re-determination.
3. RTIP Amendment No. 9 takes the place of the regular quarterly amendment (regularly scheduled for October) in order to amend the RTP following the adoption of the RTP.

Independent Taxpayer Oversight Committee

The Independent Taxpayer Oversight Committee (ITOC) is the independent citizen oversight committee that reviews *TransNet*-funded projects. At its meeting on November 14, 2007, ITOC reviewed RTIP Amendment No. 9 focusing its review on the *TransNet* Extension program and *TransNet* Local Street Improvement projects. The ITOC expressed concern regarding the California Transportation Commission's (CTC) recent deferral of allocations of State Transportation Improvement Program (STIP) funds due to state budgetary concerns. The Committee suggested that the SANDAG Transportation Committee and Board of Directors be briefed as part of the 2008 STIP report regarding the potential impacts on *TransNet*-funded projects. No other comments were received from the ITOC.

Public Notices

SANDAG transmitted the draft list of projects proposed for RTIP Amendment No. 9 to interested parties and several SANDAG technical working groups for a 30-day public review. There were no comments as of the comment deadline of November 2, 2007.

Projects Proposed for Amendment

Table 1 (Attachment 2) provides project information for all of the 66 projects included in this amendment. Certain projects that require noteworthy programming changes are discussed individually in detail below. However, this report does not discuss individually those projects in which the programming changes are administrative in nature. As defined by the 2006 RTIP document, administrative changes include, among other things, moving funding between fiscal years and phases without changing the total programmed amounts, and changes in project funding limited to \$2 million, or 20 percent, whichever is less. Detailed descriptions of minor changes are included in the final 2006 RTIP document. For local agencies, FY 2009 begins the *TransNet* Extension with different requirements. Staff analyzed the various requirements and the sponsoring agencies are in compliance.

The discussion below describes the proposed changes to projects:

Caltrans

- **Interstate 5 (I-5) Lomas Santa Fe Interchange/High Occupancy Vehicle (CAL09A):** This amendment would substitute Corridor Mobility Improvement Account (CMIA) funds taken from CAL09C (below) in exchange for *TransNet*-Major Corridor (MC) funding. The CTC approved \$82 million in Proposition 1B CMIA funding for CAL09C, which, along with CAL09A, are considered elements of the same I-5/I-805 North Corridor. SANDAG is partnering with the state on both of these projects and both entities have concurred that there is a mutual benefit to use some of the CMIA funds (\$24.5 million) to fund this earlier project. SANDAG benefits by deferring the cost of using *TransNet* funds. There is an added prestige to being the first project under construction using these Proposition 1B funds. This amendment also would revise the project cost, scope, and description to be consistent with the 2030 RTP

update. After adjustments to the final cost, total project costs would be reduced to \$52,664,000.

- **Interstate 805 Direct Access Ramp/High Occupancy Vehicle at Carroll Canyon (CAL09C):** This amendment proposes to program the right-of-way and construction phases of this project funded in part with the remaining \$57.5 million in CMIA funding described above. The additional programming thereby triggers the need to change the capacity status from noncapacity increasing (NCI) to capacity increasing (CI). Since this project now is a new capacity increasing project, which by federal law requires SANDAG to re-determine air quality conformity for the region, CAL09C was included in the most recent air quality conformity report (included with the 2030 RTP update). Total project programmed would increase to \$102,000,000, consistent with prior Board action.
- **I-15 Managed Lanes North (CAL18A):** At its June 22, 2007, meeting, the Board approved an increase to the total project budget for I-15 Managed Lanes corridor which includes all three freeway segments (Middle, North, South) as well as the Bus Rapid Transit (BRT) services, and the expansion of the FasTrak® electronic toll collection system. This amendment would increase funding for the north segment consistent with the June Board action. Total project programming would increase to \$224,019,000.
- **State Route (SR) 52 Freeway (CAL26):** Although the Board approved on April 27, 2007, fully funding this project (\$599.5 million), the Transportation Committee approved programming up to \$503 million as part of RTIP Amendment No. 6 (July 20, 2007), because the total project would have exceeded the project cost in the current MOBILITY 2030 RTP. Federal law requires major projects in the RTIP and RTP to be consistent in scope, schedule, and cost. With the project cost updated in the 2030 RTP update, this amendment proposes to program the total project cost consistent with the RTP and with the Board action. Total programmed would increase to \$599,500,000.
- **SR 76 Middle (CAL29) and SR 76 East (CAL29B):** Caltrans submitted updated project schedules and project diagrams for purposes of updating the air quality conformity analysis. Total programming for these projects remains \$29,095,000 and \$8,400,000, respectively.
- **SR 905 New Freeway (CAL38) and SR 11 (CAL66):** The amendment would add \$7 million in STIP-Interregional Program to CAL38 and \$5 million to CAL66 approved by the CTC at its September meeting. Total programming for these two projects would increase to \$348,135,000 and \$13,801,000, respectively.
- **Noise Barrier Program (CAL69):** The SR 94 Soundwall project in the City of La Mesa is part of the regional Highway Noise Barrier Program. Currently, the project includes \$1.3 million in Regional Surface Transportation Program funds matched with *TransNet*-Highway funding. Caltrans, as the lead agency is nearing final design, and the project has experienced a cost increase. In order to fully fund this project and proceed without delay, at its September meeting, the Cities/County Transportation Committee (CTAC) recommended that \$1.6 million of the amount set-aside for the regional Highway Noise Barrier program (March 23, 2007, Board action to swap STIP for *TransNet*) be added to this project. The CTAC report (Attachment 3), which identifies this as the region's highest priority noise barrier project (consistent with the SANDAG Highway Noise Barrier Program and Criteria – November 2001) is included. The total programmed amount would increase to \$3,085,000.

- **I-805 Southbound Auxiliary Lanes (CAL78A):** As part of the overall I-805 corridor project, this segment received State Highway Operations and Protection (SHOPP) funding. Total proposed programming for this new project is \$19,445,000.
- **Grade Separation (CAL107):** Caltrans received federal High Priority Program funding for this new project to study a grade separation on 32nd Street between I-15 and Harbor Drive in the City of San Diego. The total programmed amount would be \$500,000.

City of Encinitas

Board Policy No. 031, " *TransNet* Ordinance and Expenditure Plan Rules," states that an agency that maintains a balance of more than 30 percent of its annual apportionment must use the remaining balance to fund projects. The FY 2006 audit identified unused *TransNet* funds originally allocated for projects that have now been completed or are otherwise no longer active. The City of Encinitas determined that there are several projects that are already partially funded by *TransNet* that are excellent candidates for additional *TransNet* funding since they are either currently under construction or very close to construction. Therefore, the City of Encinitas proposes to increase funding for two projects – **Street Overlay Program (ENC14A)**, **Safe Routes to School Sidewalk Program (ENC17)** – and create two new projects – **Traffic Signal Installations (ENC39)** and **Leucadia Boulevard Improvements (ENC40)** – in order to complete the projects and expend the unused *TransNet* funds. Total proposed programming for each of these projects is included in Table 1.

City of Escondido

- **Citracado Parkway (ESC03):** The city proposes to add *TransNet* funds in FY 2008. Total project programming would increase to \$6,600,000.
- **Citracado Parkway II (ESC04):** The city proposes to add \$6 million in local funds to fully fund this project. Total project programming would increase to \$20,489,000.
- **Ninth Avenue (ESC09).** The city proposes to revise funding between fiscal years. Total project programming would be reduced to \$5,743,000.
- **Nordahl Road Bridge Widening at SR 78 (ESC13):** After consulting with Caltrans, the city has changed the project scope from a bridge widening to a reconstruction project to accommodate operational improvement and adding turn lanes. As a result, this amendment would change the capacity status from CI to NCI for conformity purposes. The total programmed amount would be reduced to \$4,865,000.

City of Lemon Grove

In order to achieve consistency between the City of Lemon Grove's five-year Capital Improvement Program (CIP), several projects are proposed for revisions.

- **Major Street Improvements (LG08):** The city proposes to combine this project with **Citywide Maintenance Program (LG10)**, which would be deleted. The total programmed for LG08 would increase to \$3,416,000.
- **Traffic Improvement Projects (LG09):** This amendment would reduce the funding for this project. The total programmed amount would be reduced to \$450,000.

- **Street Draining Improvements (LG12):** This is a new project to improve the drainage systems at various locations. The total programmed amount would be \$285,000.

SANDAG

- **GARVEE Debt Service (SAN19):** Caltrans has requested that SANDAG revise the funding under the 'prior' column to reflect the actual amount of debt service that was paid in FY 2005 and FY 2006. The total programmed amount would reduce to \$150,943,000 since the actual debt payment made is less than programmed.
- **Vehicle Assist and Automation (SAN68):** At the May 11, 2007, meeting, the Board approved the submittal of several applications to participate in the national competition for funding under Federal Transit Administration Section 5309 Bus and Bus-Related Facilities program and in Section 5339 Alternative Analysis program. Through this process, SANDAG received \$18 million for the new vehicle guidance technology along a 20-mile corridor of I-805. Including the local match, the total programmed amount would be \$22,500,000.
- Included in the March 23, 2007, Board action to swap STIP for *TransNet* funds were two Blue Line projects – **Blue Line Station Platform and Shelter (SAN66)** and **Blue Line Vehicles (SAN67)**. This programming will fund the preliminary engineering phase that will determine the total cost and scheduling of the overall projects. The overall projects are to be funded as part of the *TransNet* Early Action Program in combination with the local matching contribution as agreed by Metropolitan Transit System. The overall project programming for these projects, including *TransNet* and MTS funds, will occur when the costs and schedules have been refined. Current proposed programming totals \$4.4 million and \$500,000, respectively.

County of San Diego

- The County proposes to delete two projects – **San Vicente Road South II (CNTY37)** to be combined with CNTY36 and **Local Advanced Construction for Non-Capacity Increasing Bridge Projects (CNTY40)**, which is no longer needed because the funding is already programmed under CAL44; and add two new projects – **Valley Center Road Widening (CNTY41)** and **Otay Mesa Road Widening (CNTY42)**. The total programmed would be \$100,000 for CNTY41 and \$109,000 for CNTY42.
- One project – Riverside Drive (CNTY10) – has been completed.
- The County proposes to change the capacity status for two projects – **Bradley Avenue Overpass at SR 67 (CNTY21)** changes from NCI to CI with full funding included in the 2030 RTP, and **Valley Center Road Bridge (CNTY22)** changes from CI to NCI with the revised project description that no longer shows bridge widening. For project CNTY21, the County overestimated the cost for the Preliminary Engineering (PE) phase in the prior version. This amendment fully funds the PE phase with additional funding for the right-of-way phase included. The total programmed amount would be reduced to \$4,183,000 for CNTY21 while the programmed amount of \$14,488,000 remains the same for CNTY22.
- **Ramona Street Extension (CNTY35):** The County proposes to increase funding for this project. The total programmed amount would increase to \$845,000.
- **San Vicente Road South (CNTY36):** The County proposes to revise funding between fiscal years. The total programmed amount would increase to \$12,305,000.

City of San Diego

The City of San Diego proposes a number of minor changes to its projects, including a change to capacity status from NCI to CI with full funding included in the 2030 RTP – **I-5/SR 56 Interchange (SD88)**; revision to one project description without any programming change – **I-5/Genesee Avenue Interchange (SD103)**; and funding revisions to three projects – **El Camino Real (SD34)**, **Park Boulevard-Harbor Drive Rail Grade Separation (SD125)**, and **San Diego River Multiuse Bicycle and Pedestrian Path (SD131)**. Specific funding details are included in Table 1.

City of San Marcos

- **South Santa Fe from Bosstick to Smilax (SM22)**: The City of San Marcos proposes to revise fund types and increase local funds to fully fund this project. The total programmed amount would increase to \$6,400,000.
- **Barham Drive Widening (SM23)**: The City of San Marcos proposes to add \$2,180,000 in local funds. The total programmed amount would increase to \$8,680,000.
- **Woodland Parkway Interchange (SM24)**: In order to receive final environmental clearance, this amendment would fully fund this project and change the project status from NCI to CI. The total programmed amount would increase to \$44,455,000.
- **McMahr Street Improvements (SM27)**: The City of San Marcos proposes to revise the scope and increase the funding. The total project programming would increase to \$6,185,000.
- **San Marcos Boulevard Street Improvements (SM30)**: This is a new capacity increasing project funded entirely with local funds. Total proposed project programming would be \$13,100,000.
- The other projects reflect proposed minor changes to funding – **Grand Avenue Bridge (SM19)**, and two completed projects – **South Santa Fe Road (SM09)** and **Twin Oaks Valley Road (SM11)**. Programming details for these projects are included in Table 1.

Transportation Corridor Agencies (TCA)

- **Foothill Transportation Corridor South (TCA01)**: Clarifies that the funding programmed is for Phase 1 only, while the project description is inclusive of all segments that fall within San Diego County. TCA also proposes to revise funding between fiscal years. The total programmed amount would be reduced to \$290,900,000.

City of Vista

- **West Vista Way Widening (VISTA 08)**: Consistent with the City of Vista's CIP, this amendment proposes to revise funding between fiscal years. The total programmed amount would be reduced to \$2,183,000.
- **Hazard Elimination Safety (HES) Grapevine Road and West Vista Way Traffic Signal (VISTA16)**: Consistent to the City of Vista's CIP, this amendment proposes to add local funds. The total programmed amount would increase to \$336,000.

- **Grapevine Road Street Improvement (VISTA17):** Consistent with the City of Vista's CIP, this amendment proposes to revise funding between fiscal years. The total programmed amount would increase to \$1,500,000.
- **California Avenue Improvements (VISTA18):** Consistent with the City of Vista's CIP, this amendment proposes to add local funds. The total programmed amount would increase to \$1,544,000.
- **Maryland Drive Sidewalks (VISTA19):** Consistent with the City of Vista's CIP, this amendment proposes to add local funds. The total programmed amount would increase to \$2,017,000.
- **HES Emerald and West Vista Way Intersection (VISTA20):** Consistent with the City of Vista's CIP, this amendment proposes to add local funds as a match to a federal grant. The federal programming is included under CAL43A. The total programmed amount would increase to \$405,000.
- **Inland Rail Trail Bike Lane Facility (VISTA22):** After receipt of state bike funds, the amendment proposes to delete all *TransNet* funding and replace it with state and local funds. The total programmed amount would increase to \$9,726,000.
- **HES Escondido Avenue Median (VISTA23):** Consistent with the City of Vista's CIP, this amendment proposes to add local funds. The total programmed amount would increase to \$956,000.
- **Roadway Rehabilitation/Curbs and Gutters (VISTA25):** Consistent with the City of Vista's CIP, the city proposes to create this new project. The total programmed amount would be \$471,000.
- **Taylor Street Improvements (VISTA26):** Consistent with the City of Vista's CIP, the city proposes to create this new project. The total programmed amount would be \$240,000.
- **Foothill Overlay and Improvements (VISTA27):** Consistent with the City of Vista's CIP, the city proposes to create this new project. The total programmed amount is \$500,000.
- **Thibodo Road Curb and Landscaping (VISTA28):** Consistent with the City of Vista's CIP, the city proposes to create this new project. The total programmed amount would be \$200,000.
- **La Mirada Drive and Poinsettia Avenue Signal and Intersection (VISTA29):** Consistent with the City of Vista's CIP, the city proposes to create this new project. The total programmed amount would be \$600,000.
- **Street Rehabilitation and Maintenance (VISTA30):** Consistent with the City of Vista's CIP, the city proposes to create this new project. The total programmed amount would be \$9,277,000.
- **Signal at East Vista Way and Oak Drive and at North Santa Fe at East Drive (VISTA 32/33):** Consistent with the City of Vista's CIP, the city proposes to create these two new signal projects. The total programmed for these projects are \$245,000 and \$215,000 respectively.

Fiscal Constraint Analysis

Federal regulations require the 2006 RTIP to be a revenue-constrained document with programmed projects based upon available or committed funding and/or reasonable estimates of future funding. Funding assumptions are generally based upon: (1) authorized or appropriated levels of federal and state funding from current legislation; (2) conservative projections of future federal and state funding based upon a continuation of current funding levels; (3) the most current revenue forecasts for the *TransNet* program; and (4) the planning and programming documents of the local transportation providers.

Tables 2a through 2c (Attachment 4) provide updated program summaries. (Chapter 4 of the Final 2006 RTIP discusses, in detail, the financial capacity analysis of major program areas including a discussion of available revenues). Based upon the analysis, the projects contained within the 2006 RTIP, including Amendment No. 9, are reasonable when considering available funding sources.

Air Quality Analysis

On August 4, 2006, SANDAG found the 2006 RTIP in conformance with the Regional Air Quality Strategy/State Implementation Plan (SIP) for the San Diego region. All of the required regionally significant capacity increasing projects were included in the quantitative emissions analysis conducted for the 2006 RTIP. In a letter dated October 2, 2006, Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) jointly approved the conformity determination for the 2006 RTIP and conformity re-determination for the 2030 RTP: 2006 Update.

Projects in RTIP Amendment No. 9 meet the conformity provisions of the Transportation Conformity Rule (40 CFR §93.122(g)). All capacity increasing projects in Amendment No. 9 were included in the quantitative emissions analysis conducted concurrently for the *2030 San Diego Regional Transportation Plan: Pathways for the Future* (2030 RTP) and the 2006 RTIP Amendment No. 9. The full air quality conformity analysis is included in Appendix E of the Draft Final 2030 RTP. The air quality conformity analysis will be submitted with the approved 2030 RTP to FHWA for a finding of conformity for both the 2030 RTP and the 2006 RTIP Amendment No. 9. All other projects not included in the air quality conformity analysis are either noncapacity increasing or are exempt from the requirement to determine conformity according to the Transportation Conformity Rule (40 CFR §93.126). SANDAG followed interagency consultation procedures to determine which projects are exempt. Amendment No. 9 does not interfere with the timely implementation of Transportation Control Measures. The 2006 RTIP, including Amendment No. 9, remains in conformance with the SIP.

RESOLUTION

NO. 2008-10

APPROVING AMENDMENT NO. 9 TO THE 2006 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, on August 4, 2006, SANDAG adopted the 2006 Regional Transportation Improvement Program (RTIP) and found the 2006 RTIP in conformance with the 1998 Regional Air Quality Strategy (RAQS) and the 2002 Ozone Maintenance Plan; and

WHEREAS, on October 2, 2006, the U.S. Department of Transportation (DOT) determined the 2006 RTIP and 2030 RTP: 2006 Update conform to the applicable State Implementation Plan (SIP) in accordance with the provisions of 40 CFR Parts 51 and 93; and

WHEREAS, member agencies have requested the addition of new projects and various changes to existing projects for inclusion into the 2006 RTIP as shown in Table 1 (Attachment 2); and

WHEREAS, the proposed amendment is consistent with the 2030 San Diego Regional Transportation Plan: Pathways for the Future, which conforms to the 1994 and 2002 SIPs; and

WHEREAS, the regionally significant capacity increasing projects have been incorporated into the quantitative air quality emissions analysis and conformity findings conducted for the 2030 RTP and the 2006 RTIP Amendment No. 9;

WHEREAS, Amendment No. 9 to the 2006 RTIP continues to provide for timely implementation of transportation control measures contained in the adopted RAQS/SIP for air quality and a quantitative emissions analysis demonstrates that the implementation of the RTIP projects and programs meet all the federally required emissions budget targets; and

WHEREAS, projects in Amendment No. 9 satisfy the transportation conformity provisions of 40 CFR 93.122(g) and all applicable transportation planning requirements per 23 CFR Part 450; and

WHEREAS, all other projects in Amendment No. 9 are either noncapacity increasing or exempt from the requirements to determine conformity; and

WHEREAS, the 2006 RTIP Amendment No. 9 is a fiscally constrained document as shown in Tables 2a through 2c (Attachment 4); NOW THEREFORE

BE IT RESOLVED that the SANDAG Board of Directors does hereby approve Amendment No. 9 to the 2006 RTIP;

BE IT FURTHER RESOLVED that SANDAG finds the 2006 RTIP, including Amendment No. 9, is consistent with the 2030 RTP, is in conformance with the 1994 and 2002 SIPs and 1998 RAQS for the San Diego region, is consistent with SANDAG Intergovernmental Review Procedures, and is consistent with SANDAG Public Participation Policy, as amended.

PASSED AND ADOPTED this 30th day November 2007.

CHAIRPERSON

ATTEST: _____

SECRETARY

MEMBER AGENCIES: Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, San Marcos, Santee, Solana Beach, Vista, and County of San Diego.

ADVISORY MEMBERS: California Department of Transportation, Metropolitan Transit System, North County Transit District, Imperial County, U.S. Department of Defense, San Diego Unified Port District, San Diego County Water Authority, Southern California Tribal Chairmen's Association, and Mexico.

2006 Regional Transportation Improvement Program

Amendment No. 9

San Diego Region (in \$000s)

Lemon Grove, City of

MPO ID: LG08	Capacity Status: NCI	RTIP #: 06-09
TITLE: Major Street Improvements	Exempt Category: Safety - Pavement resurfacing and/or rehabilitation	

DESCRIPTION: 2007 Sidewalk Rehabilitation: Remove/replace various sidewalk locations citywide including installation of ADA compliant curb ramps:

Broadway Median Improvement: Remove/replace existing deteriorated and damaged curbs/pavements with new curb, stamped concrete, and landscaping and irrigation system.

Federal Boulevard Resurfacing: Grind the entire length of Federal Blvd pavement section and install pavement to add strength and longevity to the roadway.

Federal Boulevard Slope Restoration Project: Install a slope stabilization structure to improvement upon the unsafe slope damaged from inclement weather in FY05.

Lemon Grove Avenue Rehabilitation: Remove/replace existing pavement on LGA from Central Avenue to the Southerly City limits.

Lemon Grove Avenue Realignment: A key element in the redevelopment and implementation of the City's downtown Village Specific Plan. Principal feature include the realignment of LGA between State Route 94 and North Avenue. Related work includes site grading, overhead utility relocations and under grounding, a railroad grade crossing modification, upgrade of the sewer and storm drainage systems, streetscape improvements, safety lighting and other traffic improvements.

Pavement Rehabilitation Citywide: Rehabilitation of several streets based upon their level of deterioration in accordance with the Pavement Management System. Rehabilitation includes grinding, grading and compacting along the ROW edges or full width of the roadway.

Pavement Management System: Provide an updated/current system to inventory a list of paved streets that need to be improved upon Citywide.

CHANGE REASON: Increase funding, Revised project description/scope

AGENDA ITEM NO.: **6****Action Requested: APPROVAL**

STATE ROUTE 94 SOUNDWALL PROJECT UPDATE
AND COST INCREASE FUNDING PROPOSAL

File Number 1109100

LOCATION

The project is located in the Cities of La Mesa and Lemon Grove on westbound State Route 94 in the vicinity of Massachusetts Avenue (see vicinity map).

DESCRIPTION

The proposed project is to construct a soundwall. This project is part of SANDAG's Highway Noise Barrier Program for the City of La Mesa. The soundwall was proposed by the City of La Mesa as part of a call for projects solicited by SANDAG. This project was listed as the region's highest priority within the program. Caltrans is responsible for project delivery.

PROJECT BACKGROUND

SANDAG committed to contribute Regional Short-Range Transit Plan (RSTP) funds, to be matched with non-federal *TransNet* funds, covered under *TransNet* Master Agreement 11-0387. Caltrans is near completion of the design for the project and could be ready for advertisement in December 2007. This soundwall project has \$1,311,000 in RSTP and \$170,000 in *TransNet* match committed for a total of \$1,481,000 according to Local Assistance Contribution Agreement No. 11-8255 dated August 17, 2005. The current estimate shows a significant cost increase. The prior estimate and programming for construction was \$996,000. The current construction estimate is \$2,300,000, an increase of \$1,304,000. In addition, there is a need for \$300,000 in additional support costs, for a total project budget increase of \$1,604,000.

The original scope and estimate of the project included a longer soundwall and a preliminary estimate with an inadequate escalation factor applied. During design, piles, safety shaped barriers, landscaping, stormwater features, and drainage issues were necessary as part of the construction and were not part of the preliminary estimate. The original project was also down-scoped in an attempt to reduce costs and bring it in line with the original preliminary estimate of \$996,000, but the required design features and escalation costs during this period brought the current estimate to \$2,300,000. The down-scoped costs still provide the necessary noise attenuation.

RECOMMENDATION

The SANDAG Board has a policy of dedicating 1 percent of all new State Transportation Improvement Program (STIP) programming to regional noise barrier projects. As part of the recent State Transportation Infrastructure Bond measure, Proposition 1B, SANDAG received a STIP augmentation of \$163,700,000. Under the Board policy, 1 percent of that total (\$1,637,000) will be available for programming of noise barrier projects. Caltrans is requesting that CTAC recommend approval to the Transportation Committee to program funds from the noise barrier reserve to cover the cost increase. Past practice has been that before adding future candidate noise barrier projects to the program, current projects that were previously programmed and identified as the regional priorities should be completed first. Caltrans believes that applying that practice is appropriate for this project.
