

Regional Micro-Mobility Coordination Meeting #1 Agenda

Topic: Data Sharing

Monday, September 24, 2018, 2 – 4 p.m.
SANDAG Conference Room 7

Micro-mobility services, like dockless bikeshare and e-scootershare, have quickly become popular mobility choices in the San Diego region. While they offer convenient travel options, operating successful micro-mobility programs has been a challenge for local agencies. The goal of the Regional Micro-Mobility Coordination Meetings is to facilitate collaboration among local jurisdictions, transit agencies, universities, and the military and to establish standard guidelines for micro-mobility operations including data sharing, dockless vehicle parking, education/outreach, and equity.

- | | |
