ABOUT THE PROJECT

The Georgia – Meade Bikeway will provide a vital connection for people to walk and bike between vibrant communities within San Diego’s urban core - North Park, Normal Heights, and Kensington-Talmadge. The proposed 3.5-mile bikeway also will provide connections to several regional bikeways.

The Georgia – Meade Bikeway will run along Georgia Street between Robinson Avenue and Howard Avenue, shift to Howard Avenue for one block, and continue on Florida Street to Meade Avenue. The bikeway will run along Meade Avenue between Park Boulevard and Fairmount Avenue. Proposed features include buffered bike lanes, raised crosswalks, and traffic calming measures designed to make the streets more pleasant for everyone - people who walk, bike, drive cars, work and live there.
