BOARD OF DIRECTORS
AGENDA

Friday, December 5, 2008
10 a.m. to 12 noon
Caltrans Garcia Room
4050 Taylor Street
San Diego, CA 92110

THIS IS A JOINT MEETING OF THE SANDAG BOARD OF DIRECTORS AND TRANSPORTATION AND REGIONAL PLANNING COMMITTEES.

AGENDA HIGHLIGHTS

- WORKSHOP ON LONG-RANGE REGIONAL PLANNING EFFORTS
  - OVERVIEW OF EPIC GREENHOUSE GAS INVENTORY
  - OVERVIEW OF SENATE BILL 375 AND RELATED LONG-RANGE REGIONAL PLANNING

PLEASE TURN OFF CELL PHONES DURING THE MEETING

MISSION STATEMENT
The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus, makes strategic plans, obtains and allocates resources, plans, engineers, and builds public transit, and provides information on a broad range of topics pertinent to the region’s quality of life.

San Diego Association of Governments · 401 B Street, Suite 800, San Diego, CA 92101-4231
(619) 699-1900 · Fax (619) 699-1905 · www.sandag.org
Welcome to SANDAG. Members of the public may speak to the Board of Directors on any item at the time the Board is considering the item. Please complete a Speaker's Slip, which is located in the rear of the room, and then present the slip to the Clerk of the Board seated at the front table. Also, members of the public are invited to address the Board on any issue under the agenda item entitled Public Comments/Communications/Member Comments. Speakers are limited to three minutes. The Board of Directors may take action on any item appearing on the agenda.

This agenda and related staff reports can be accessed at www.sandag.org under Meetings on the SANDAG Web site. Public comments regarding the agenda can be forwarded to SANDAG via the e-mail comment form also available on the Web site. E-mail comments should be received no later than 12 noon, two working days prior to the Board of Directors meeting.

In compliance with the Americans with Disabilities Act (ADA), SANDAG will accommodate persons who require assistance in order to participate in SANDAG meetings. If such assistance is required, please contact SANDAG at (619) 699-1900 at least 72 hours in advance of the meeting. To request this document or related reports in an alternative format, please call (619) 699-1900, (619) 699-1904 (TTY), or fax (619) 699-1905.
1. PUBLIC COMMENTS/COMMUNICATIONS/MEMBER COMMENTS

Members of the public shall have the opportunity to address the Board on any issue within the jurisdiction of SANDAG. Anyone desiring to speak shall reserve time by completing a "Request to Speak" form and giving it to the Clerk of the Board prior to speaking. Public speakers should notify the Clerk of the Board if they have a handout for distribution to Board members. Speakers are limited to three minutes. Board members also may provide information and announcements under this agenda item.

2. WORKSHOP ON LONG-RANGE REGIONAL PLANNING EFFORTS

The purpose of this informational workshop is to provide an overview of new state laws and regulations that require regional and local governments to reduce transportation-related greenhouse gas emissions through integrated transportation, housing, and climate change planning activities. Presentations will be provided on regional climate change and transportation and housing planning efforts that are currently underway.

A. OVERVIEW OF EPIC GREENHOUSE GAS INVENTORY

(Scott J. Anders)

In September 2008, the Energy Policy Initiatives Center (EPIC), a research center at the University of San Diego School of Law, released a report that provides a detailed accounting of greenhouse gas emissions (GHG) for San Diego County. The report identifies the sources of San Diego GHG emissions and 21 strategies for the region to reduce its emissions to 1990 levels by 2020, the statutory limits in the California Global Warming Solutions Act of 2006 (AB 32). Scott J. Anders of EPIC will provide an overview of the report.

B. OVERVIEW OF SENATE BILL 375 AND RELATED LONG-RANGE REGIONAL PLANNING

(SANDAG Staff)

SANDAG staff will provide a summary of the provisions of SB 375 (Steinberg, 2008). An overview will be provided that highlights how the bill will affect the development of the next Regional Transportation Plan (RTP), Regional Housing Needs Assessment (RHNA), and regional climate change planning work.
3. **UPCOMING MEETINGS**

   The next Board Business meeting is scheduled for Friday, December 19, 2008, at 9 a.m. The next Board Policy meeting of the SANDAG Board of Directors is scheduled for Friday, January 9, 2009, at 10 a.m.

4. **ADJOURNMENT**

GHG Inventory Project Overview

Purpose
- Estimate GHG Emissions for San Diego County 1990-2006
- Project Emissions through 2020
- Calculate Regional Emissions Reductions Targets
  - AB 32
  - Executive Order S-3-05
- Identify / Calculate Emissions Reduction Strategies to Meet Targets

www.sandiego.edu/epic
GHG Inventory Project Overview

Scope
- San Diego County
- All Economic Sectors
- Entire Population
- Military Not fully Captured

Method
- Followed CARB Method
- Based on the IPCC Protocols
- Modified where Appropriate

www.sandiego.edu/epic

Overview of Senate Bill 375 and Related Long-Range Regional Planning

December 5, 2008
Background

- Executive Order S-3-05
- CA Global Warming Solutions Act of 2006 (AB 32)
- Proposed AB 32 Scoping Plan
- California Energy Commission Agreement
- Attorney General comments on SANDAG RTP
- SB 375 (Steinberg, 2008)

Overview

- Major Provisions of SB 375
- Related Regional Planning
  - Regional Growth Forecast
  - Regional Transportation Plan Update
  - Regional Housing Needs Assessment
  - Climate Change Planning
- Questions and Discussion
SB 375

Five key provisions:
• Creates regional targets for greenhouse gas emissions
• Requires regional planning agencies create Sustainable Communities Strategy
• Connects regional housing allocation planning with Regional Transportation Plan (RTP)
• Requires regional transportation funding decisions be consistent with RTP
• Streamlines and creates new CEQA exemptions for certain projects

Regional GHG Targets for Transportation / Land Use
• CARB required to set up a Regional Targets Advisory Committee (RTAC) by 1/31/09
• Regional targets to be based on the total GHG attributable to cars and light trucks
• Metropolitan Planning Organizations (MPOs) may recommend their own regional GHG target
• CARB will revise target at least every eight years
Sustainable Communities Strategy

- SB 375 creates a new element for the RTP, a Sustainable Communities Strategy (SCS)
- SCS must show how the GHG targets would be achieved through alternative development patterns, infrastructure, or additional transportation measures or policies that are determined to be feasible

SCS and Alternative Planning Strategy (APS)

- Additionally, SCS must
  - address protection of sensitive resource areas, including areas protected under Habitat Conservation Plans (HCPs)
  - provide consideration for Rural Sustainability to preserve farmland and resource lands, and direct growth to cities
- General Plans are not required to conform to SCS
- If SCS does not meet regional target, APS must be developed
Alignment with the Regional Housing Needs Assessment (RHNA)

SB 375 changes housing element law by aligning regional housing planning with regional transportation planning:

- All transportation and housing planning processes are put on the same eight-year schedule
- RHNA allocations must be consistent with the SCS and RTP
- If a local jurisdiction must rezone property as a result of the housing element, it must do so within three years

Housing Element Law

- **State Responsibility**
  - Determine regional housing need
  - Review housing elements

- **Regional Responsibility**
  - Consult with HCD on regional housing need
  - Allocate housing need by jurisdiction and income category

- **Local Responsibility**
  - Assist SANDAG RHNA allocation
  - Update housing elements
  - Rezone land if necessary
Transportation Funding Consistency

• SCS is one element of the RTP and all elements must be internally consistent

• RTP projects and funding decisions must be consistent with the SCS
  • SB 375 includes exemptions for projects in approved local transportation sales tax measures (*TransNet*), and state funding

CEQA Streamlining

• To qualify for CEQA streamlining, projects must be consistent with an SCS (or APS) that meets GHG reduction targets

• Two types of CEQA exemptions:
  • Qualifying Residential or Mixed-use project
  • Qualifying Transit Priority projects
Regional Growth Forecast (Series 12)

SANDAG Produces Forecasts

- Regional Comprehensive Plan
- Regional Transportation Plan
- Regional Housing Needs Assessment
- Other Local Uses
Housing Capacity for 2050 Forecast

- Series 8: General Intensification
- Series 9: Transit Focus Areas
- Series 10 & 11: Interregional Commute
- Series 12: Regional Comprehensive Strategy

Next Regional Transportation Plan Update
2030 RTP Goals

- Mobility
- Livability
- Efficiency
- Reliability
- Sustainability
- Equity
- Accessibility

Four Components of the 2030 RTP

- Land Use
- Demand Management
- Systems Development
- Systems Management
Land Use – Transportation Connection (Growing Smarter)

- Regional Comprehensive Plan (RCP)
- Smart Growth Concept Map
- Independent Transit Plan Review
- Tribal Collaboration
- *TransNet* Environmental Mitigation Program
- Energy/Climate Change Planning

Demand Management
Systems Management

Systems Development (Capacity and Choices)

- Commitment to TransNet Early Action Program and Managed Lane System
- Revised Transit Plan
- Goods Movement Action Plan
- Toll Roads
- Updated Regional Arterial System
2030 RTP Scenarios

- The Adopted Plan: Reasonably Expected Revenues
  - $57 billion

- Revenue Constrained (federal requirement)
  - $41 billion

- Unconstrained Needs
  - $88 billion

2050 RTP

- RTP EIR Settlement Agreement
- Urban Core Transit Plan

- New Emerging Issues
  - SB 375 Implementation
  - Airport Multimodal Planning
SANDAG Energy/Climate Planning

- Develop Regional Climate Action Plan (RCAP)
- Update Regional Energy Strategy (RES)
- Implement Sustainable Region Program (SRP)
- Perform Regional Assessment of Alternative Fuels, Vehicles and Infrastructure
GHG Inventory for San Diego County

- Off-road Equipment and Vehicles 4%
- Other Fuels/Other 4%
- Industrial Processes and Products 5%
- Civil Aviation 5%
- Natural Gas End Uses 9%
- Electricity 25%
- Agriculture/Forestry/Land Use 23%
- Waste 2%
- Rail 1%
- Water-borne Navigation 0.4%
- On-road Transportation 46%

2006 Data
www.sandiego.edu/epic
Source: EPIC GHG Study 9/08

SB 375 Regional Transportation Targets

- AB 32 Scoping Plan calls for 5 MMT CO$_2$ reductions statewide from passenger vehicles by 2020
- Defers to SB 375 for setting regional targets for 2020 and 2035 horizon years
- Local and regional agencies will need to partner to meet targets
Regional Climate Action Plan (RCAP)

- Long-range policy plan
- Establishes GHG baseline and projections
- Precursor to SB 375 – foundation for climate planning for next RTP
  - Identifies measures to reduce GHG in transportation and land use
  - Focuses on measures that regional and local government can influence

Regional Climate Action Plan (RCAP)

Plan Elements:
- EPIC GHG inventory (1990 to current)
- Business-as-usual forecasts to 2030
- GHG test target (based on AB 32 estimates)
- GHG reduction scenarios
- Policy development
2030 Projected Transportation Emissions

RTP Business-as Usual  22.5 MMT CO₂

Projected GHG Reductions

• State measures  9.1 MMT CO₂
• Regional measures  2.5 MMT CO₂

Regional GHG Reduction Scenarios for Transportation

• Low Carbon Land Use Scenario
• Enhanced Transit Scenario
• Transportation Demand Management
Land Use and Transit Assumptions

- Build-out of Smart Growth Concept Map
- New circulator bus service in central San Diego
- Shorter headways for COASTER, light rail, bus rapid transit, and regional buses

Emission Reduction in 2030: 0.3 MMT CO₂

Transportation Demand Management (TDM) Assumptions

- Telecommuting
- Pay-as-you-drive Insurance
- Regional Carbon Fee
- Parking Pricing

Emission Reduction in 2030: 2.2 MMT CO₂
RCAP Ongoing Development

• Existing analysis conducted for 2006 and 2030; 2020 milestone to be added
• Expansion of applicable regional and local GHG reduction measures
• Smart Growth Enhancements to the Transportation Model
• Additions and refinements to TDM measures modeled
• Draft plan to be released in May 2009

Next Steps
Integrated Regional Planning Work
Plan and Schedule for Next RTP Update

- RTP Goals and Objectives: July-Sept 2009
- New Growth Forecast: Jan-Feb 2010
- RTP Scenarios: June-Sept 2010
- Draft GHG Targets: June 2010
- Final GHG Targets: Sept 2010
- Draft RTP/EIR: Feb-March 2011
- Final RTP/EIR/RHNA: July 2011
SB 375 Next Steps

- Request SANDAG Representative on RTAC
- Work with CARB on San Diego regional targets
- Align RTP and RHNA Cycles

Questions and Discussion
