PUBLIC SAFETY COMMITTEE
AGENDA

Friday, November 13, 2009
1 to 3 p.m.
SANDAG Board Room
401 B Street, 7th Floor
San Diego

AGENDA HIGHLIGHTS

• PUBLIC SAFETY-RELATED GOALS FOR THE 2010 LEGISLATIVE PROGRAM
• REGIONAL eWATCH PHASE I DEMONSTRATION
• ENTERPRISE ARJIS UPDATE

PLEASE TURN OFF CELL PHONES DURING THE MEETING

YOU CAN LISTEN TO THE PUBLIC SAFETY COMMITTEE MEETING BY VISITING OUR WEB SITE AT WWW.SANDAG.ORG
Welcome to SANDAG. Members of the public may speak to the Public Safety Committee on any item at the time the Committee is considering the item. Please complete a Speaker’s Slip, which is located in the rear of the room, and then present the slip to Committee staff. Also, members of the public are invited to address the Committee on any issue under the agenda item entitled Public Comments/Communications/Member Comments. Speakers are limited to three minutes. The Public Safety Committee may take action on any item appearing on the agenda.

This agenda and related staff reports can be accessed at www.sandag.org under meetings on SANDAG’s Web site. Public comments regarding the agenda can be forwarded to SANDAG via the e-mail comment form also available on the Web site. E-mail comments should be received no later than noon, two working days prior to the Public Safety Committee meeting.

In compliance with the Americans with Disabilities Act (ADA), SANDAG will accommodate persons who require assistance in order to participate in SANDAG meetings. If such assistance is required, please contact SANDAG at (619) 699-1900 at least 72 hours in advance of the meeting. To request this document or related reports in an alternative format, please call (619) 699-1900, (619) 699-1904 (TTY), or fax (619) 699-1905.
1. ROLL CALL

+2. APPROVAL OF THE OCTOBER 16, 2009, MEETING MINUTES  APPROVE

3. PUBLIC COMMENTS/COMMUNICATIONS/MEMBER COMMENTS

Members of the public will have the opportunity to address the Public Safety Committee (PSC) on any issue within the jurisdiction of the Committee that is not on this agenda. Speakers are limited to three minutes each and shall reserve time by completing a “Request to Speak” form and giving it to the Clerk prior to speaking. Committee members also may provide information and announcements under this agenda item.

REPORT ITEMS (4 through 9)

4. REPORT FROM CHIEFS'/SHERIFF’S MANAGEMENT COMMITTEE  INFORMATION
   (Chief Alan Lanning, Chiefs'/Sheriff’s Management Committee)

Chief Alan Lanning will present on the November 3, 2009, meeting of the Chiefs'/Sheriff’s Management Committee.

+5. PUBLIC SAFETY-RELATED GOALS FOR THE 2010 LEGISLATIVE PROGRAM  RECOMMEND
   (Genevieve Morelos)

Each year, SANDAG approves an annual legislative program for the next calendar year. Consistent with past programs, the draft 2010 Legislative Program includes policies and proposals for possible federal and state legislation and local activities. The public safety-related legislative priorities included in the Legislative Program are consistent with the mission of the PSC to promote public safety and justice through collaboration, information sharing, effective technology, and objective monitoring and assessment. The PSC is asked to recommend that the Executive Committee include the public safety-related goals discussed in this report in the 2010 Legislative Program.
ITEM # | RECOMMENDATION
--- | ---
+6. | REGIONAL eWATCH PHASE I DEMONSTRATION
(Kurt Smith, San Diego County Sheriff’s Department)  
INFORMATION

A key deliverable for ARJIS for FY 2010 is the development of Regional eWatch, a no-cost subscription service that allows citizens to register up to three addresses within San Diego County and receive notifications of crimes, arrests, and/or traffic incidents occurring around those locations. Funded with $75,000 through the Urban Areas Security Initiative (UASI), this application will be tied directly to the existing ARJIS Public Crime MAPS application, enabling users to view these incidents graphically and also run additional queries. The Sheriff’s Department has coordinated a pilot effort in support of the regional subscription service and Mr. Kurt Smith, the Department’s Crime Analysis Manager, will provide a live demonstration of the product.

+7. | ENTERPRISE ARJIS: AN OVERVIEW AND UPDATE
(Pam Scanlon, SANDAG; and Bob Kaelin, MTG)  
INFORMATION

A major effort of ARJIS in Fiscal Year (FY) 2010 is the replacement of the legacy ARJIS system through the development of Enterprise ARJIS. Specifically, the new system will provide a single point of access to the region’s justice data with upgraded state-of-the-art information sharing and analysis tools. Priority activities during this fiscal year include procuring and installing the first phase of Enterprise applications that include three technology solutions (portal, middleware, and identity access management) and replacement of ARJIS legacy citation functionality using the procured technology solutions. An update and overview of activities during the first quarter of FY 2010 will be provided, as well as major activities scheduled for the remainder of the fiscal year.

+8. | DRAFT SANDAG PUBLIC PARTICIPATION PLAN
(Anne Steinberger, SANDAG)  
DISCUSSION

Staff will present an overview of the outreach process and solicit additional input from committee members on the Draft SANDAG Public Participation Plan, which was released for a 45-day public comment period on October 9, 2009.

9. | UPCOMING MEETINGS  
INFORMATION

The next meeting of the PSC is scheduled for Friday, December 11, 2009, at 1:00 p.m.

10. | ADJOURNMENT

+ next to an item indicates an attachment
PUBLIC SAFETY COMMITTEE DISCUSSIONS AND ACTIONS
Meeting of October 16, 2009

1. ROLL CALL

Chair Mark Lewis (East County) called the Public Safety Committee (PSC) meeting to order at 1 p.m. Roll call was taken and a quorum was present. See last page for attendance.

2. APPROVAL OF MEETING MINUTES

Upon a motion by Councilmember Marti Emerald (City of San Diego) and a second by Councilmember Jillian Hanson-Cox (East County), the minutes of September 18, 2009, were unanimously approved.

3. PUBLIC COMMENTS/COMMUNICATIONS/MEMBER COMMENTS

There were no public comments.

Chair Lewis noted the distribution of the CJ Bulletin “Gang Involvement Among San Diego County Arrestees in 2008.” He encouraged members to read this important document.

Councilmember David Roberts (North County Coastal) noted two examples of how communities are working together in the County regarding the consolidation of fire service. A lot of the credit goes to Vice Chair David Ott (Regional Fire/Emergency Medical Services). Councilmember Roberts expressed the need to continue looking at opportunities to improve public safety.

Chair Lewis agreed and added that it also saves taxpayers’ money and a great deal of time and effort.

REPORTS

4. REPORT FROM CHIEFS'/SHERIFF’S MANAGEMENT COMMITTEE (INFORMATION)

Chief Kirk Sanfilippo (County Chiefs'/Sheriff’s Association) gave an update on the Chiefs'/Sheriff’s Management Committee meeting held on October 7, 2009. The next scheduled meeting of the Chiefs'/Sheriff’s Management Committee is Wednesday, November 4, 2009.
5. **AMEND THE FY 2010 PROGRAM BUDGET AND OVERALL WORK PROGRAM TO ACCEPT ADDITIONAL FUNDING FOR A NEW PHASE OF A PREVIOUS ARJIS PROJECT (APPROVE)**

Upon a motion by Mayor Pro Tem Bob Campbell (North County Inland) and a second by Vice-Chairwoman Pam Slater-Price (County of San Diego), the PSC unanimously approved amending the FY 2010 Program Budget and Overall Work Program to add a new work element and accept $476,821 in funding to complete these objectives.

6. **AMEND THE FY 2010 PROGRAM BUDGET AND OVERALL WORK PROGRAM TO ADD A NEW ARJIS PROJECT (APPROVE)**

Upon a motion by Vice-Chairwoman Slater-Price and a second by Councilmember Roberts, the PSC unanimously approved amending the FY 2010 Program Budget and Overall Work Program to add a new work element and accept $282,096 in funding to complete these objectives.

7. **AGENDA AMENDED**

Agenda item will be carried over for a future meeting.

8. **OVERVIEW OF THE SAN DIEGO GAS & ELECTRIC FIRE SAFETY PROGRAM (INFORMATION)**

Mr. Amad Solomon (Regional Public Affairs Manager, Sempra Energy) gave an overview of the San Diego Gas & Electric (SDG&E) Community Fire Safety program. This program is designed to increase reliability and safety while reducing the likelihood of power lines being involved in wildfires during extreme weather conditions.

9. **REGIONAL POLICIES REGARDING YOUTH CURFEW ORDINANCES (INFORMATION)**

Dr. Cynthia Burke (Director, Criminal Justice Research Division) gave a report on youth curfew laws throughout the San Diego region upon the request of Councilmember Emerald. Chief William M. Lansdowne (San Diego Police Department) stated he would take this report to the County Chiefs'/Sheriff’s Association for review. Chief Sanfilippo stated he would discuss with the members of the Chiefs'/Sheriff’s Management Committee and report to the PSC.

10. **COPLINK UPGRADE OVERVIEW AND DEMONSTRATION (INFORMATION)**

Ms. Barbara Montgomery (Project Manager, ARJIS) gave a PowerPoint presentation on the upgrade to COPLINK. COPLINK is a powerful tool for law enforcement officers and investigators that compiles and presents law enforcement data from different sources that is essential for identifying suspects and solving crime.

11. **UPCOMING MEETINGS**

The next meeting of the PSC is scheduled for Friday, November 13, 2009, at 1 p.m.

12. **ADJOURNMENT**

The meeting was adjourned at 2:20 p.m.

PUBLIC SAFETY-RELATED GOALS FOR THE 2010 LEGISLATIVE PROGRAM

Introduction

Each year, SANDAG approves an annual legislative program for the next calendar year. Consistent with past programs, the draft 2010 Legislative Program includes policies and proposals for possible federal and state legislation and local activities. The public safety-related legislative priorities included in the Legislative Program are consistent with the mission of the Public Safety Committee (PSC) to promote public safety and justice through collaboration, information sharing, effective technology, and objective monitoring and assessment.

Recommendation

The Public Safety Committee is asked to recommend that the Executive Committee include the public safety-related goals discussed in this report in the 2010 Legislative Program.

Discussion

Last year, the PSC recommended the inclusion of three public safety-related goals in the 2009 Legislative Program. These same goals are recommended for the 2010 Legislative Program and include:

- **Goal 1**: Support efforts to pursue resources to improve regional public safety voice and data communications and interoperability, including connectivity with state and federal systems.

  This goal is consistent with efforts to create a regional strategy for voice and data communications and interoperability, consistent with the regional framework and action plan developed by the PSC in 2006-2007.

- **Goal 2**: Support efforts to pursue Homeland Security funding at both the state and federal levels to improve public safety, enhance border security in the San Diego region, through Automated Regional Justice Information System (ARJIS) operations and enhancements; regional transportation system improvements; and activities related to regional emergency preparedness, prevention, and response to catastrophic events.

  The San Diego region has been successful in securing federal and state homeland security funds to enhance the ARJIS system; improve rail, bus, and port security; and secure funding for emergency preparedness and prevention activities. In Fiscal Year (FY) 2009, the Department of Homeland Security appropriations included $388.6 million for the Transit Security Grant
Program (TSGP) to protect critical transit infrastructure. Of this amount, North County Transit District received $848,000 in TGSP funds, and Metropolitan Transit System (MTS) was awarded $2.4 million for closed-circuit television wireless monitoring systems to be used in light rail vehicles and buses. MTS also was awarded $5.4 million in Proposition 1B state bond dollars for transit security and has received $2.7 million to date. Additionally, the Port of San Diego received $1 million in FY 2009 from the American Recovery and Reinvestment Act (ARRA) Port Security Grant Program.

In FY 2009, ARJIS received approximately $981,000 in federal funding for homeland security. ARJIS also applied for several grants focusing on enhancing regional information sharing projects and was awarded more than $750,000 in ARRA funds to continue efforts on the State Regional and Federal Enterprise Retrieval System (SRFERS) and to develop the Geo-Query application.

- **Goal 3**: Support funding opportunities for prevention and intervention programs that address substance abuse, increase public safety, and reduce youth and gang violence.

Similar to last year, this goal supports the criminal justice efforts of the PSC, and focuses on seeking funding opportunities for prevention and intervention programs in this issue area in order to improve public safety in the San Diego region.

**Next Steps**

Following action by the PSC, the public safety-related goals would be included in the proposed 2010 Legislative Program for review by the Executive Committee. Final action on the 2010 Legislative Program is scheduled for the Executive Committee and Board of Directors meetings in December.

REGIONAL eWATCH PHASE I DEMONSTRATION

Introduction

A key deliverable for ARJIS for FY 2010 is the development of Regional eWatch, a no-cost subscription service that allows citizens to register up to three addresses within San Diego County and receive notifications of crimes, arrests, and/or traffic incidents occurring around those locations. Funded with $75,000 through the Urban Areas Security Initiative (UASI), this application will be tied directly to the existing ARJIS Public Crime MAPS application, enabling users to view these incidents graphically and also run additional queries. The Sheriff’s Department has coordinated a pilot effort in support of the regional subscription service and Mr. Kurt Smith, the Department’s Crime Analysis Manager, will provide a live demonstration of the product.

Discussion

Background

The City of San Diego has deployed an eWatch application that allows citizens in the City to register for a daily e-mail notification of crimes that have occurred around addresses of interest within the City of San Diego only. The data are provided by the San Diego Police Department via ARJIS. There are currently over 18,000 unique e-mail addresses registered to receive notifications. The goal of eWatch is to bolster crime prevention efforts and empower the public with knowledge. The long term plan has been to expand this functionality to all other jurisdictions in the region.

With the award of $75,000 in UASI grant funds, ARJIS has partnered with the Sheriff to expand the eWatch subscription to the entire County utilizing the existing Public Crime MAPS application, currently available to the public, with daily uploads of the region’s crime incidents. With the UASI funding, ARJIS will add a new regional subscription service to the Crime MAPS application.

This new regional subscription service leverages the efforts already completed on both the ARJIS Public and the Law Enforcement Only mapping applications, as well as existing hardware, software, and secure network infrastructure. This has saved considerable rework by ARJIS and technical staff during the development of the application.
The San Diego County Sheriff’s Department is the pilot site for the project and will soon be announcing the rollout to citizens in jurisdictions covered by the Sheriff’s Department. The pilot project will initially be limited to notifications on property crimes only, such as vehicle break-ins and residential robberies. The pilot will augment ongoing crime prevention efforts through enhancing the delivery of timely crime information that supports community decision making.

Next Steps

Following the completion of the Sheriff’s pilot project, a plan will be developed and executed to expand the service to citizens in all other jurisdictions within the County. Since the crime incident data are already being captured daily and loaded into the publically accessible mapping application, the deployment will be streamlined for other cities throughout the County. Those cities and ARJIS agencies will also be able to post the link to Regional eWatch on their respective Web sites.

Enterprises ARJIS: An Overview and Update

Introduction

A major effort of ARJIS in Fiscal Year (FY) 2010 is the replacement of the legacy ARJIS system through the development of Enterprise ARJIS. Specifically, the new system will provide a single point of access to the region’s justice data with upgraded state-of-the-art information sharing and analysis tools. Priority activities during this fiscal year include procuring and installing the first phase of Enterprise applications that include three technology solutions (portal, middleware, and identity access management) and replacement of ARJIS legacy citation functionality using the procured technology solutions. An update and overview of activities during the first quarter of FY 2010 will be provided, as well as major activities scheduled for the remainder of the fiscal year.

Discussion

During the first quarter of FY 2010, ARJIS completed several key milestones for the ARJIS Enterprise effort and continues to focus on key initiatives. The initiatives are grouped under two key areas of emphasis: migrating all programs off the legacy mainframe system and acquiring and implementing state of the art tools and technologies to enhance officer and public safety. An overview of the Enterprise ARJIS and associated efforts will be presented as discussed in the highlights below.

Completed Tasks

Staff has been working diligently to achieve several major accomplishments that include the following:

- Completed the development, distribution, and evaluation of four Enterprise ARJIS Requests for Proposals (RFPS): (1) portal; (2) middleware; (3) identity and access management; and (4) citation module. The RFP development process involved multiple iterations and review cycles that included contributions from the Enterprise ARJIS Core Working Group (CWG), ARJIS Technical Team, SANDAG Contracts and Procurement, and MTG (the independent contractor assisting with the ARJIS Enterprise effort).

- Completed the initial selections of the vendors for the portal and middleware solutions. ARJIS and SANDAG are currently finishing contract negotiations with a strong focus on solidifying project scope, approach, and specific costs of each solution.
• Completed an assessment of the major components of the legacy migration tasks. Documentation has been completed for 16 applications, 18 interfaces, and 111 validation tables that comprise the ARJIS legacy system.

• Resumed the Enterprise ARJIS CWG meetings comprised of representatives from the ARJIS member agencies who contribute practitioner input, business case content, and serve as a two-way conduit for their agencies for project related issues. The CWG also provides input and feedback to staff and the independent consultant MTG throughout the project.

• Engaged the ARJIS Technical Team, comprised of all ARJIS technology resources, on confirmation of the ARJIS Technology Architecture in view of the portal and middleware product selections. The process involved the evaluation and documentation of all core business and technical aspects of ARJIS. Additionally, the process confirmed gaps in technology to ensure that they are addressed.

**Next Steps**

During the remainder of FY 2010, staff and the independent consultant, in coordination with the CWG, will complete the installation of the portal and middleware tools, complete the evaluation of and selection for the citation module, and complete and distribute the final two RFPs that will address the services and reporting aspects of Enterprise ARJIS.

Key efforts of staff will be focused on the selection and installation of core Enterprise ARJIS technologies and tools. Completion of this phase of the Enterprise ARJIS effort is crucial as it provides the technology and tools required to meet the demands of the ARJIS user community at large.

Staff will continue to provide periodic status reports to the PSC. In addition, staff and the consultant have set up a Web page accessible with a password that PSC members and member agencies may access anytime for project documentation.

DRAFT SANDAG PUBLIC PARTICIPATION PLAN

Introduction

The draft SANDAG Public Participation Plan (PPP) was released by the SANDAG Board of Directors for a 45-day public review and comment period on October 9, 2009. The PPP guides SANDAG public outreach efforts for transit, highway, smart growth, environmental, planning, growth forecasts, the Regional Transportation Plan, Regional Transportation Improvement Program, Tribal Consultation, and other initiatives.

Discussion

The updated draft PPP was developed in accordance with guidelines established by the Federal Highways Administration (FHWA) for metropolitan transportation planning (23 CFR 450.316), addresses Title VI and related nondiscrimination requirements, and reflects the principles of social equity and environmental justice. Included in the PPP are procedures, strategies, and outcomes associated with the ten requirements listed in 23 CFR 450.316. The plan also fulfills various state and federal public involvement requirements. The PPP reflects the SANDAG commitment to public participation and involvement to include all residents and stakeholders in the regional planning process.

To start the update process for the PPP, in June 2009, SANDAG launched initial public outreach with a survey in English and Spanish to secure input from residents, stakeholders, agencies, and other interested parties on how SANDAG should communicate opportunities to receive information or provide input on regional projects. The survey was distributed at SANDAG Board and Committee meetings, promoted in rEgion (the SANDAG monthly electronic newsletter), circulated to SANDAG e-mail lists, promoted on the SANDAG Web site, and circulated at diverse community events. SANDAG distributed a press release and public notices to promote the survey. More than 1,100 participants responded. Key feedback included recommendations to provide information on the SANDAG Web site, provide information via e-mail newsletters, implement e-mail and online options for providing feedback, and consider conducting some public meetings, workshops, and/or open houses during the workday.
An initial task for the Stakeholders Working Group (SWG) was to provide input on the draft PPP. The SWG is composed of diverse individuals from throughout the region who are interested in providing input into regional initiatives such as the Regional Transportation Plan, the Sustainable Communities Strategy, and the Regional Comprehensive Plan. In September, the SWG received an overview of the plan, in October provided initial input on the draft plan, and will provide final input at its November 18, 2009, meeting.

Notices and Outreach

In an effort to receive robust input on the draft PPP, notices were posted in the Asian Journal; La Prensa (in Spanish); North County Times (all editions); San Diego Daily Transcript; San Diego Union-Tribune (all editions); San Diego Voice & Viewpoint; and Star News. Public Announcements on drive-time radio are underway from November 2 – 13 with a call to action for residents to tell SANDAG how they want to be involved in regional projects. The media list and radio stations for public service advertising are listed in Attachment 1.

Initial media coverage includes a news article that appeared in the Union-Tribune on October 26, 2009, and a story on KPBS radio on October 26, 2009.

SANDAG staff also contacted working groups, committees, organizations, and agencies to promote the public input period for the PPP and to solicit additional input. Initial reports are that stakeholders are taking the PPP to their groups for input and will report back to SANDAG.

Announcements also were distributed to the following groups to secure input and promote further distribution to other interested parties. Working groups, committees, and interested stakeholders include:

- City Managers
- Planning Directors
- City of San Diego and County of San Diego Community Planning Groups
- Bicycle Pedestrian Working Group
- Cities/County Transportation Advisory Committee
- Committee on Binational Regional Opportunities
- iCommute (formerly RideLink) Employer Database
- Independent Taxpayers Oversight Committee
- Mid-Coast Corridor Transit Project Working Group
- Regional Energy Working Group
- Regional Housing Task Force
- Regional Planning Stakeholders Working Group
- Regional Planning Technical Working Group
- San Diego Region Conformity Working Group
- Tribal Working Group

SANDAG also is promoting the public comment period and soliciting additional input through the SANDAG Web site, e-mail distribution, and through the rEgion newsletter. Through these outreach efforts, more than 5,000 interested stakeholders will be reached.
Public Comment Period

The deadline for comments is November 30, 2009, at 4 p.m. The plan may be downloaded at www.sandag.org/PPP. Comments will be received via mail, e-mail, fax, or phone. A dedicated phone line has been established to take comments. A printed or electronic copy may be requested from SANDAG. Please direct requests and provide comments or input on the PPP to SANDAG Public Information Office, 401 B Street, Suite 800, San Diego CA 92101; phone (619) 699-0640; fax (619) 699-1905; e-mail to pio@sandag.org.

Next Steps

Staff will present final draft information to the Transportation Committee, Regional Planning Committee, Borders Committee, and Public Safety Committee. After input and comments are received, staff will incorporate changes into a final draft PPP. The final draft PPP will be presented to the Board of Directors for consideration at its December 18, 2009, meeting.

Item 5
Public Safety-Related Goals for the 2010 Legislative Program

Recommendation:

The Public Safety Committee is asked to recommend that the Executive Committee include the public safety-related goals discussed in this report in the 2010 Legislative Program.
PILOT PROJECT STATUS:

✓ POSITIVE INTERNAL AND EXTERNAL REVIEWS
✓ TEMPORARY ‘SOFT ROLLOUT’ A SUCCESS
✓ MAPPING AND FUNCTIONAL IMPROVEMENTS
ANSWERS:

ALL ARJIS AGENCY DATA IS STAGED FOR REVIEW

Questions?
ARJIS Enterprise Project Status Review:

Agenda

• Project Status
• Accomplishments
  – Expanded ARJIS Enterprise Core Working Group (CWG)
  – Statements of Work for Portal and Middleware
  – Draft of Reporting Solution RFP under review
• Current Activities
  – ARJIS Enterprise Program Management
  – Solution Review Meetings
  – Citation Module Design Review
Project Status:  
**ARJIS Enterprise Effort**

- **Scope**
  - MTG’s role has shifted from planning to implementation assistance.

- **Schedule.**
  - Target completion date is July 1, 2011.

- **Updates.**
  - 19 projects underway that create or build upon Enterprise services.
  - Mainframe migration program referred as “Legacy” is dependent on several Enterprise technologies.

---

Accomplishments:  
**Expanded ARJIS Enterprise CWG**

- **Composition.**
  - Consists of ARJIS user agency representatives.
  - Two focuses:
    - Officers representing field and investigative users.
    - Professionals representing non-field disciplines.

- **Participation.**
  - The CWG will review the Citation Proposals.
  - The Reporting RFP requirements will be reviewing by the CWG.
  - The CWG is briefed on ARJIS Enterprise project efforts.
Accomplishments: Statements of Work

- Selections were made on two of the three RFPs issued in March 2009.
  - Middleware.
    - Software AG's product WebMethods was selected.
    - The statement of work and contract are ready for signature.
  - Portal.
    - Microsoft's product Microsoft Office SharePoint Server (MOSS) 2007 was selected.
    - The statement of work is almost finished.
- The IAM solution was not awarded.

Accomplishments: Statements of Work (continued)

ARJIS Enterprise

Mainframe

Applications
Portal
Middleware
Reporting
Database
Security
Management

MOSS 2007
WebMethods
SQL Server 2008
Accomplishments:

*Draft Reporting RFP under Review*

- ARJIS staff and the CWG are reviewing the reporting RFP.
- The reporting solution provides:
  - A standard tool to build ARJIS reports.
  - The tool users can use to build ad-hoc reports on ARJIS information.
  - A complex analysis and trending capability.
- **Target release is in January 2010**

Current Activities:

*ARJIS Enterprise Program Management*

- ARJIS has four major programs currently underway – Enterprise, Legacy, Grants, and NetRMS (Sheriff’s records management system) Interface.
- The Enterprise program currently includes:
  - Portal and Middleware Implementations
  - CopLink Improvements
  - ARJIS Transaction Database (ATD) and SQL Server Upgrade
  - NDEx Connection Update
  - Mapping Updates
- **Maintain close coordination with Legacy efforts.**
Current Activities: **Solution Review Meetings**

- Due to the complexity and cost, ARJIS has convened a Technical Team to review and provide input on technical infrastructure design.
  - Specific subject matter experts in each technology.
  - Involves additional experience sets in the discussions.
  - Includes the perspective of the organization that supports the hardware.
- The expanded view reduces risks and increases the reliability of the ARJIS technology environment.

Current Activities: **Citation Module Design Review**

- The Citation Module is a small dedicated application focused on:
  - Updating an existing ARJIS service.
  - Testing the Portal and Middleware tools to ensure they work.
- The citation effort exercises all of the technologies in ARJIS as a true microcosm representing the larger Enterprise efforts.
Questions?
As we approach the end of another year, we have much to be proud of in regard to our collaborative efforts across the region. Faced with fiscal constraints, a number of local jurisdictions, as well as ARJIS, successfully applied for and received American Recovery and Reinvestment Act funding to develop and implement new ways to better share information and increase public safety. In addition, fire departments across the region are to be commended for their efforts to better leverage resources while maintaining high standards through consolidation. On behalf of the Public Safety Committee (PSC), I wish you a happy, healthy, and safe holiday season as we say goodbye to 2009 and welcome the New Year.

― Hon. Mark Lewis, Chair PSC and Mayor of El Cajon

PSC Discusses Issues of Regional Significance

As part of the September 2009 meeting, PSC members reviewed information regarding how different jurisdictions across the region track graffiti either informally or through a private vendor system that enables prosecutors to better document repeat vandals and more effectively prosecute them. As a result of this discussion, the recommendation was made that the SANDAG Board of Directors direct staff to further investigate how these efforts could be regionally-based, including who would be responsible for managing this effort and how it could be funded. This item will be on the agenda for the November 20, 2009 Board of Directors meeting.

Another issue brought forth at a recent PSC meeting involved differences in youth curfew ordinances across the region. Specifically, while most jurisdictions have curfew laws from 10:00 p.m. to 6:00 a.m., there is variability in terms of when they begin and end, as well as how violations are addressed. As a result of the discussion at the October 2009 meeting, the San Diego County Chiefs’/Sheriff’s Association will convene to develop regional recommendations for the PSC in regard to how these ordinances could be more effective across jurisdictions.

Geo-Query will enhance the successful ARJIS Wireless program by providing a geographic/time stamp for all database queries made from wireless devices.

ARJIS Awarded Recovery Act Funds

As the San Diego region struggles with the current economic crisis, it is critical that public safety agencies are able to collaborate on efforts and leverage resources to effectively keep our communities safe. To assist in this effort, ARJIS successfully competed for over $750,000 in American Recovery and Reinvestment Act funding to support two efforts aimed at preventing and controlling crime, administering justice, and assisting victims that were in jeopardy due to budget cuts.

Continued on back
The first project, SRFERS (State Regional and Federal Enterprise Retrieval System), involves an effort to develop a federated query which will search regional and border-crossing License Plate Reader (LPR) data, enhance Officer Notification Systems with data from the national level, and develop interfaces to share out-of-state booking photos with other jurisdictions, including Las Vegas. The second effort, Geo-Query, will enhance the successful ARJIS Wireless program by providing a geographic/time stamp for all database queries made from wireless devices. This information will be compiled in a database and available for analysis, providing an important piece of information not currently available to officers in the field.

Funding for both of these efforts will continue in FY 2010-11, helping ARJIS to increase the economic efficiency and effectiveness of law enforcement activities in the San Diego region at a time when funding levels will most likely continue to be constrained.

For more information about these projects, please contact ARJIS Director Pam Scanlon at (619) 699-6971 or psc@sandag.org.

Criminal Justice Clearinghouse Keeps Region Informed

Over the past several months, the SANDAG Criminal Justice Clearinghouse has released a number of CJ Bulletins, as well as quarterly CJ Faxes. The Clearinghouse is funded by SANDAG member agencies, enabling the compilation and analysis of regional public safety data over time. Some highlights from recent publications:

- In FY 2008-09, $609 was budgeted per San Diego County resident for public safety functions in the region.
- Drug use among adult arrestees was at its lowest point in the past nine years in 2008.
- Around half (53%) of arrestees with a gang affiliation reported that other family members have been or are also involved with a gang.
- Around two in five (44%) of homicides in the region in 2008 involved the use of a firearm.
- During the first half of 2009, the property crime rate was down dramatically (18%) to a new 10-year low, with regional decreases in the number of reported burglaries, larcenies, and motor vehicle thefts.

- The violent crime rate also was at a ten-year low, but the actual number of violent crimes increased slightly (1%), due to a regional increase in the number of aggravated assaults, even though homicides, rapes, and robberies were down.

To access these CJ products, please visit the SANDAG web site at www.sandag.org/cj. The CJRD Director, Cynthia Burke, can also be reached at (619) 699-1910 or cbu@sandag.org.
