Members of the public will have the opportunity to address the Regional Planning Technical Working Group (TWG) on any issue within the jurisdiction of the group. Speakers are limited to three minutes each.

SANDAG staff will make a presentation on the regional growth forecasting process to-date; draft results from the local land use inputs for Phase 1; draft results of the various 2050 alternative land use scenarios for Phase 2 identified by the TWG; and new requirements based on Senate Bill (SB) 375. The Working Group will then break out into discussion sessions to review and analyze each of the alternative land use scenarios, and to make a recommendation to the SANDAG Regional Planning Committee on preferred scenarios for additional analysis and for use at the upcoming growth forecast workshops to be held this summer.

The next TWG meeting will be held on Thursday, May 14, 2009, from 1:15 – 3:15 p.m.
