</table>

Members of the public will have the opportunity to address the Cities/County Transportation Advisory Committee (CTAC) and the Regional Planning Technical Working Group (RPTWG) on any issue within the jurisdiction of the Working Groups that is not on this agenda. Speakers are limited to three minutes each.

## Consent

### 3. Meeting Summaries

- The CTAC should approve the March 4, 2010, Meeting Summary.
- The RPTWG should approve the March 11, 2010, Meeting Summary.

## Reports

### 4. Electric Vehicles in the San Diego Region (Joel Pointon, SDG&E; Keiichi Kitahara, Nissan; Andy Hoskinson, eTec)

SDG&E will provide an overview of electric vehicle (EV) activities in the region and the utility’s role. Nissan will provide information about the Leaf, its new all-electric vehicle that will be available in the San Diego region before 2011. eTec will discuss "The EV Project," the largest EV undertaking in U.S. history, and the region’s role.

### 5. Planning for Healthy Communities (Stephan Vance, SANDAG)

SANDAG has an opportunity to support the County Health and Human Services Agency over the next two years in a region-wide effort to combat obesity under a $16 million economic stimulus grant from the Centers for Disease Control and Prevention. A portion of this initiative will provide pass-through grants to local agencies for efforts to address public health issues in local plans, for active community transportation plans, and for safe routes to school plans and programs. The scope of work for SANDAG’s component of the grant envisions local agency participation on a planning and public health ad hoc working group.
6. COMPLETE STREETS / LIVABLE STREETS: RETHINKING STREET DESIGN
(Andy Hamilton, Air Pollution Control District)

Fundamental to encouraging more people to walk, bike, and use transit is creating street environments where people feel safe and welcome. Mr. Hamilton will present examples of new approaches to street design, from New York to Seattle. New modal performance criteria coming in the 2010 Highway Capacity Manual will also be discussed.

+7. REGIONAL BIKE PLAN (Chris Kluth, SANDAG)

The San Diego Regional Bicycle Plan (Plan) is being developed to support implementation of both the Regional Comprehensive Plan and the Regional Transportation Plan. This report, presented to the Transportation Committee at its March 19th meeting, presents an overview of the key elements to the Plan. The draft Bike Plan and its Preliminary Draft Initial Study/Mitigated Negative Declaration is out for a 30-day public review and comment period. Staff will make a presentation on the Plan.

+8. URBAN AREA TRANSIT STRATEGY: DRAFT REGIONAL TRANSIT NETWORKS AND REVISED PERFORMANCE MEASURES (Carolina Gregor and Dave Schumacher, SANDAG)

As part of the development of the 2050 Regional Transportation Plan (RTP), staff has developed initial transit concepts and associated draft transit networks for the Urban Area Transit Strategy. The draft networks and revised performance measures will be presented to the RPTWG and CTAC for input and discussion. The draft networks will also be presented at the upcoming RTP workshops in late April and early May, providing additional opportunities for public input.

+9. 2050 REGIONAL TRANSPORTATION PLAN: TRANSPORTATION PROJECT EVALUATION CRITERIA WEIGHTINGS AND PROPOSED PLAN PERFORMANCE MEASURES (Scott Strelecki, SANDAG)

SANDAG staff will provide a report on the transportation project evaluation criteria weightings and proposed plan performance measures. This will include refinements that have been made by the Transportation Project Evaluation Criteria Ad Hoc Working Group (TPEC). RPTWG and CTAC members will be asked to discuss and provide feedback on the transportation project evaluation criteria weightings and proposed plan performance measures.

10. ADJOURNMENT AND NEXT MEETINGS

The next CTAC meeting will be held Thursday, May 6, 2010, from 9:30 to 11:00 a.m. The next RPTWG meeting will be held Thursday, May 13, 2010, from 1:15 to 3:15 p.m.
