| +3.    | **Regional Arterial System Project Schedule Extensions** *(José Nuncio)*  
Last month, CTAC requested that Poway's request for a schedule extension for the Espola Road widening project be reviewed by the CTAC Project Review Subcommittee. On February 20, 2003, the Subcommittee also reviewed a proposed schedule extension for the County's South Santa Fe Avenue widening project. The Subcommittee recommends that CTAC recommend a schedule extension for both projects to the Transportation Committee. Attached is the summary report. |

Caltrans staff will provide a summary of do's and don'ts when it comes to using federal funds on local arterial projects. Attached is a summary report. |
| +5.    | **Arterial Cost Estimates** *(Richard Chavez)*  
Cities and the County are requested to provide cost estimates for arterial widening, arterial extension, or freeway interchange modification projects on the Regionally Significant Transportation Network (RSTN). All freeway interchanges are part of the RSTN. The Cities and County are also requested to provide cost estimates for any other Regional Arterial System (RAS) widening or extension project that Cities/County would like to be considered for the TransNet sales tax extension process. The RSTN and RAS are defined in the 2030 Regional Transportation Plan (RTP). Cost estimates are due April 3, 2003. Attached is the list of RSTN arterial projects *(Draft 2030 RTP Technical Appendices, Table TA 9.1)* and the cost estimate form to be used.
