5. ENTERPRISE ARJIS UPDATE (INFORMATION)

ARJIS Executive Director Pamela Scanlon gave a PowerPoint presentation and update on Enterprise ARJIS (eARJIS). After 30 years ARJIS has successfully migrated off the mainframe, and implemented a suite of new tools and infrastructure with enhanced functionality and modernization for officers and investigators. ARJIS kept within the budget and without cost overruns. Ms. Scanlon thanked all the agencies who have helped with the transition. San Diego Police Department’s Chris Haley was a tremendous help with the data entry.
phase. eARJIS now has SharePoint portals replacing the ARJIS Web pages; COGNOS Reporting System (replacing the Crime Analysis Statistical System-CASS); COPLINK and SRFERS (replaced the original ‘green screens’ used for queries); new Web-based forms (replaced the data entry screens); and Web-based forms with prompts and enhanced ONASAS email alerting system (replaced the Officer Notification System records entered by officers).

The California Department of Corrections and Rehabilitation (CDCR) is really involved in BOLOs (Be on the Lookout) which is important to their officers. ARJIS is expanding into Orange County and Arizona and continues to work the Southwest Border.

ARJIS continues to work on the interfaces. The reporting phase has been the most successful so far. Ms. Scanlon advised the agencies that if help is needed with data entry to make reports for year-end to let her know. ARJIS staff is visiting agencies’ records divisions to offer assistant, tips and tricks, and solicit recommendations for enhancements.

More workshops will be held in January 2012 for ad hoc reports. New tools have been added on the investigative side. ARJIS has received UASI money for facial recognition through SRFERS. SRFERS was built in house with federal grant money and COPLINK is an off the shelf product which was recently bought by IBM.

At the next Business Working Group meeting (December 20, 2011), the Group will prioritize the list of enhancements to be submitted to the Chiefs’/Sheriff’s Committee for approval.

ARJIS will be looking into the LeadsOnline final proposal. Each agency has a quote for this service. If accepted, LeadsOnline would give ARJIS an interface with the product.

With an upcoming approval from the San Diego City Council, the City will have a new IT Contract starting in early 2012. As such, ARJIS may be able to “piggyback” on some services.

Mr. Dan Newland (San Diego Police Department) stated that they are looking at the data center and not sure if moving the CLETS Center. It is open for discussion.

Assistant Chief Zimmerman stated that the help desk is a remote company, but not sharing data.

6. PUBLIC SAFETY IN THE SAN DIEGO REGION: AN OVERVIEW OF CLEARINGHOUSE PRODUCTS AND CURRENT PROJECTS (INFORMATION)

Dr. Cynthia Burke (Director, Applied Research Division, Criminal Justice/Public Policy) gave a PowerPoint presentation with an overview of recent statistics on regional crime, gang-related crime, and homicides with an update on current efforts of the Criminal Justice Research Division. Dr. Burke stated that gang-related homicides are back up and property crime was down. Property Crime arrests for adults has dropped.

Assistant Chief Zimmerman believes property crime arrests for adults are under-reported as the threshold of cases is growing. This needs to be looked at.
Dr. Burke stated that SANDAG has published three articles in “The Informant” and would be available to come out for line ups to present current statistics and information. SANDAG is currently working with the Criminal Investigative Unit (CIU) at Mid-City with BJA-funded SMART Policing, doing a graffiti tracker evaluation, and an officer survey with Federal Task Forces concerning border issues.

Dr. Burke asked that if any of the members have any ideas on future projects to let her know.

7. REGIONAL eWATCH AND NEW PUBLIC CRIME MAP (INFORMATION)

Ms. Scanlon gave an update of the UASI funded new regional eWatch application. This has been very successful with the highest number of subscriptions ever nationwide in a single day (5,969).

8. HOMELAND SECURITY GRANT STATUS (INFORMATION)

Ms. Katie Mugg (ARJIS Staff) gave an update on four grants from the National Institute of Justice (NIJ) and Department of Homeland Security (DHS) Science and Technology (UASI). These grants help with continuing the partnership with DHS to further initiate new information sharing projects to improve officer and public safety throughout the region.

The first grant was the BOLOs (Be on the Lookout) – expansion to entire Southwest Region (Nevada/Arizona/Los Angeles). A recent success story featured a BOLO for a registered sex offender who had cut off his GPS monitoring device and was found and arrested by National City Police Department within 12 hours of the notice.

The second grant was Department of Homeland Security ICEPIC adding access in the field to their database and photos of 23 million criminal records. This provides INLETS with an updated version with developing connectivity thru SRFERS to get federal images for mobile users.

The third grant was the Officer Notification and Smart Alerting System (ONASAS) expanding along the Southwest Border and connecting with federal notification systems.

The fourth grant was Scars/marks/tattoos (SMT) having officers in the field and in jails capture examples of the newest types of tattoos, gang tattoos, tattoo sleeves, etc. for standardization across the nation. This includes reviewing products and making recommendations on products that do tattoo recognition similar to facial recognition.

Ms. Scanlon noted there is a need to recommend new standards concerning facial and tattoo recognition.
