+1. APPROVAL OF MEETING MINUTES

The Public Safety Committee is asked to review and approve the minutes from its November 13, 2015, meeting.

2. PUBLIC COMMENTS/COMMUNICATIONS/MEMBER COMMENTS

Members of the public shall have the opportunity to address the Public Safety Committee on any issue within the jurisdiction of the Committee that is not on this agenda. Anyone desiring to speak shall reserve time by completing a “Request to Speak” form and giving it to the Clerk prior to speaking. Public speakers should notify the Clerk if they have a handout for distribution to Committee members. Public speakers are limited to three minutes or less per person. Committee members also may provide information and announcements under this agenda item.

REPORTS

+3. REPORT FROM CHIEFS’/SHERIFF’S MANAGEMENT COMMITTEE
(Chief Manuel Rodriguez, National City Police Department)

Chief Rodriguez will report on the December 2, 2015, and January 6, 2016, meetings of the Chiefs’/Sheriff’s Management Committee.

4. REPORT FROM THE SAN DIEGO COUNTY FIRE CHIEFS’ ASSOCIATION
(Chief Tim Isbell, Bonita Fire Department)

Chief Isbell will report on the January 7, 2016, meeting of the San Diego County Fire Chiefs’ Association.

+5. FY 2016 PROGRAM BUDGET AMENDMENT: URBAN AREA SECURITY INITIATIVE FUNDING (Pam Scanlon)

The Public Safety Committee is asked to approve an amendment to the FY 2016 Program Budget to accept $400,000 in multi-year funding through the Urban Area Security Initiative Program. The award will allow ARJIS to develop a regional information systems training program, continue coordination efforts on the ARJIS interfaces with the San Diego County Sheriff’s Department NetRMS system, and enhance the ARJIS Mobile Program.
+6.  ARJIS EX-OFFICIO MEMBERSHIP REQUEST: STATE OF CALIFORNIA
     DEPARTMENT OF CONSUMER AFFAIRS (Pam Scanlon)

     RECOMMEND

     The California Department of Consumer Affairs, Division of Investigations has
     formally requested ex-officio ARJIS membership. The Chiefs'/Sheriff’s
     Management Committee reviewed this request at its December 2, 2015,
     meeting and recommends approval. The Public Safety Committee is asked to
     recommend that the Board of Directors approve ARJIS ex-officio membership.

7.  METH IN SAN DIEGO COUNTY: THE FEDERAL PERSPECTIVE ON
     CURRENT AND UPCOMING ISSUES
     (Laura Duffy, U.S. Attorney for the Southern District of California)

     INFORMATION

     The U.S. Attorney’s Office for the Southern District of California is a key
     partner in our region’s Methamphetamine Strike Force (MSF) and has played a
     significant role in addressing drug trafficking. Ms. Duffy will share information
     about the recent release of the MSF’s Report Card, including current trends
     and how law enforcement efforts address this issue.

+8.  ARJIS TECHNOLOGY STRATEGIC PLAN
     (Pam Scanlon and Bob Kaelin, MTG Consulting)

     INFORMATION

     Over the past few months, ARJIS has worked with MTG Consulting to create a
     draft Technology Strategic Plan. As part of this process, a user survey was
     conducted and information was compiled regarding short- and long-term
     goals and measurements of success. An overview of this effort and how it fits
     within overall ARJIS planning and assessment activities will be presented.

9.  CONTINUED PUBLIC COMMENT

     INFORMATION

     If the five speaker limit for public comments was exceeded at the beginning of
     this agenda, other public comments will be taken at this time. Subjects of
     previous agenda items may not again be addressed under public comment.

10.  UPCOMING MEETINGS

     INFORMATION

     The next meeting of the Public Safety Committee is scheduled for Friday,
     February 19, 2016, at 1 p.m.

REPORTS

3. PUBLIC SAFETY COMMITTEE UPDATE (INFORMATION)

Pam Scanlon (Director, ARJIS) reported the Public Safety Committee (PSC) met on Friday, September 18, 2015. Agenda items included: (1) approval to accept $75,000 in funding for the current fiscal year for Community Assessment Team Plus; (2) update on the Data Sharing Memorandum of Understanding (MOU); (3) overview of the City Heights Restorative Community Conference Pilot Project; and (4) Dr. Cynthia Burke (Director, Applied Policy/Criminal Justice Research) presented an overview of the updated regional crime statistics. The PSC met on Friday, October 16, 2015. Agenda items included: (1) Approval to accept $415,599 for a 2-year grant regarding San Diego Community Court; and (2) an overview of how local law enforcement has worked collaboratively to address the changes regarding Assembly Bill 109 and Proposition 47. Chair Sinnott suggested two items: (1) a PSC status report to the SANDAG Police Board meeting for December 2015, and (2) a re-evaluation of the PSC to be done in the beginning of the new year with input from members to ensure the PSC be as effective as possible. The PSC met on Friday, November 13, 2015. Agenda items included: (1) Public Safety Related Goals for the 2016 Legislative Program; (2) ARJIS Information Sharing Assessment presentation by Dr. Brian Jackson (RAND...
Chair Sinnott noted that staff is continuing on finalizing the MOU, reviewing strategic goals, and putting together a work plan. The next meeting of the PSC is scheduled for Friday, January 15, 2016, at 1 p.m.

**Action:** This agenda item was presented for information.

### 4. AGENCY MEMBERSHIP REQUEST (DISCUSSION/POSSIBLE ACTION)

Investigators Duncan Fraser and Steve Brewer, and Supervisor Eric Ryan (State of California, Department of Consumer Affairs) provided an overview of their agency’s request for ARJIS membership. The focus of the agency is investigating complaints of personnel in the medical profession. The agency is an authorized California Law Enforcement Telecommunications System (CLETS) user comprised of ten investigators and two supervisors. Ms. Scanlon noted that they are also (Peace Officer Standards and Training) POST certified.

Discussion followed concerning the agency and if it would be possible to have their agency’s information going into ARJIS, in addition to them retrieving information. It may be possible; however, they noted the issue of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) is to consider. A legal review would be required to determine exactly what information can be shared.

Ms. Scanlon also noted ARJIS has received requests from North County Transit District (NCTD) and the County Department of Housing and Community Development for data access and/or membership. The County does background checks for Section 8 housing. NCTD is interested in local data (not CLETS) and wants to contribute data (citations and field interviews [FIs]). These agencies will be asked to make a presentation at an upcoming meeting once the formal requests for membership have been received.

**Action:** Upon a motion by Chief Froomin, and a second by Chief Gonzales, the Management Committee recommended approving the State of California, Department of Consumer Affairs’ request for membership. This recommendation will go to the Public Safety Committee for approval. Yes – Chief David Bejarano (Chula Vista Police Department), Chief Froomin, Chief Carter, Chair Rodriguez, Chief McCoy, Chief Gonzales, Assistant Chief Guaderrama, and Commander Barnett. No – None. Abstain – None. Absent - Carlsbad Police Department, El Cajon Police Department, La Mesa Police Department, and San Diego Harbor Police Department.

### 5. DATA SHARING MEMORANDUM OF UNDERSTANDING AND DATA RETENTION UPDATE (INFORMATION)

Ms. Scanlon reported on the MOU. A working group committee was formed to address issues of the MOU with PSC Chair Terry Sinnott, PSC Vice Chair Steve Vaus, Supervisor Ron Roberts, Sheriff William D. Gore, Chief Shelley Zimmerman, and Chief David Bejarano. A meeting with legal representatives will be held the first week of January 2016.

Dale Stockton (ARJIS staff) reported on the draft record retention guidelines for data housed in the ARJIS. The draft guidelines set forth the retention criteria for ARJIS-maintained records that are not covered by other specific Records Retention Acceptable Use Policies (AUPs). The retention guidelines
represent the recommendations of the County Chiefs’ and Sheriff’s Association and are in keeping with established best practices regarding the storage and retention of criminal justice records in support of law enforcement operations and public safety. A working group was formed from the Business Working Group (BWG) to discuss retention guidelines and propose options. After hearing the proposed guidelines from the working group, the BWG recommended the following: all agency-submitted records, other than those covered by other specific (AUPs), will be maintained by ARJIS for a period of seven years from the date of creation, after which they will be purged. The working group identified situations, such as a court-order, where an agency may need to modify or delete a record held by ARJIS. The working group highlighted it is the responsibility of the submitting agency, as the custodian of record, to modify or delete the record as may be needed prior to the seven year period. Not subject to the seven year retention period and acceptable for extended or indefinite retention are (1) sex offender registration; (2) criminal registrations which extend beyond the standard seven year purge period; (3) specific requests by agencies to maintain a record that may be relevant beyond the seven year period; and (4) other records which are covered by separate and/or specific AUPs. This is a stand-alone document and can be used in conjunction with the Data Sharing MOU. The Committee recommended forwarding the draft guidelines to their respective agencies and SANDAG legal counsels for review.

**Action:** This agenda item was presented for information.

6. **ARJIS TECHNICAL STRATEGIC PLAN (DISCUSSION/POSSIBLE ACTION)**

Mr. Dale Stockton (ARJIS staff) gave an update on a user survey that was conducted in November to assess how agencies are using ARJIS. Almost 500 users responded. The results highlighted the methods used to access ARJIS, frequency of use, satisfaction, and recommendations. Two-thirds of respondents were investigators or analysts. Eighty-seven percent of respondents indicated they use ARJIS at least weekly with the majority of respondents (55+% indicating daily use. Almost 20 percent of respondents indicate they access ARJIS using a handheld mobile device. Two-thirds of respondents want or currently use handheld devices. Nearly 85 percent of respondents indicate an interest in keyword searches. Currently, only COPLINK supports the ability to do a key word search in a report narrative. Comments and suggestions will be evaluated and if feasible, included in the annual work plan for prioritization. An update will be presented at a future meeting.

Bob Kaelin (MTG Consulting) provided an overview on the ARJIS Technical Strategic Plan currently in process. This plan is focused on a three-year timeframe. The draft technology vision is: “To provide officers and other users the desktop and mobile tools and data that promote officer and public safety through timely, appropriate, responsible, and effective sharing of information wherever they serve.” The focus is to deploy a suite of secured solutions for the region, seek to increase services, enhance the timeliness and scope of reporting information, update the quality and usefulness of ARJIS applications, and continue to provide validated 24 hours, 7 days information to the region.

**Action:** This item was presented for discussion/possible action. ARJIS staff will continue to update the Committee on the strategic plan and security assessment.
7. UPDATE FROM THE BUSINESS WORKING GROUP (INFORMATION)

Ms. Scanlon reported the Business Working Group met on September 15, 2015, at Escondido Police Department. Agenda items included (1) updates on BOLOS, Portal, Data Sharing MOU, COGNOS enhancements and training classes; (2) larceny report request; (3) dashboard enhancements; (4) status of ARJIS retention policies and related efforts; (5) Palantir update; and (6) data requests update. The BWG met on November 17, 2015, at the San Diego Sheriff’s Department. Agenda items included (1) ARJIS/RAND DOJ grant update; (2) rape stats for review; (3) announcement of the recruitment for a Technical Management position; (4) ARJIS Technical Strategic Plan; and (5) data requests.

The next Business Working Group meeting is scheduled for Tuesday, January 19, 2016, at Carlsbad Police Department.

Action: This agenda item was presented for information.

8. UPCOMING MEETINGS (INFORMATION)

The next meeting of the Chiefs'/Sheriff’s Management Committee is scheduled for Wednesday, January 6, 2016, at 9:45 a.m., at the Sheraton Four Points.

Action: This agenda item was presented for information.

9. ADJOURNMENT (INFORMATION)

The meeting was adjourned at 10:47 a.m. by Chair Rodriguez.

CHIEFS’/SHERIFF’S MANAGEMENT COMMITTEE

AGENDA ITEM NO.: 1

Action Requested: APPROVE

JANUARY 6, 2016, MEETING MINUTES

The meeting of the Chiefs’/Sheriff’s Management Committee was called to order by Chief Craig Carter (Escondido Police Department) at 9:49 a.m.

1. APPROVAL OF DECEMBER 2, 2015, MEETING MINUTES (APPROVE)

Action: Upon a motion by Chief Frank McCoy (Oceanside Police Department) and a second by Acting Chief Neil Gallucci (Carlsbad Police Department), the minutes of December 2, 2015, meeting were approved.

Yes – Acting Chief Gallucci, Chief David Bejarano (Chula Vista Police Department), Chief Jon Froomin (Coronado Police Department), Chief Craig Carter (Escondido Police Department), Captain Jose Tellez (National City Police Department), Chief McCoy, Chief John Bolduc (San Diego Harbor Police Department), Assistant Chief Al Guaderrama (San Diego Police Department), Commander Mike Barnett (San Diego Sheriff’s Department), and Assistant Chief Miguel Rosario (San Diego District Attorney’s Office). No – None. Abstain – None. Absent – El Cajon Police Department and La Mesa Police Department.

2. PUBLIC COMMENTS/COMMUNICATIONS/MEMBER COMMENTS

Chair Manuel Rodriguez (National City Police Department) could not attend today and delegated Chief Carter to direct the meeting.

The order of the reports were changed for presentation today.

REPORTS

3. PUBLIC SAFETY COMMITTEE UPDATE (INFORMATION)

The next scheduled Public Safety Committee meeting will be held on Friday, January 15, 2016, at 1 p.m.

Action: This item was presented for information.

6. ARJIS LAW ENFORCEMENT PORTAL ENHANCEMENTS (DISCUSSION/POSSIBLE ACTION)

Director Pam Scanlon (ARJIS) previewed a live presentation on the enhancements to the ARJIS law enforcement only portal. ARJIS is featuring Be On the Lookout (BOLO) and success stories. ARJIS
applications and other law enforcement applications (SDLaw/eSUN and Parole LEADS) can be accessed from the portal. Other useful links can also be found such as the county mainframe. The goal is to post relevant and timely information for officers. ARJIS will also post videos. The first featured video is from the California Peace Officer Standards and Training (POST) titled “Complacency Kills”. It is important that these videos are veted by a reliable accredited source (for example POST or the International Association of Chiefs of Police). A San Diego County Robbery Map and List of Commercial/Bank/Home Invasion is available. ARJIS Tips and Tricks to help with applications are added weekly. Also available are maintenance, outage messages, major policies, and protocols. Searches can be done from the library of BOLOs available. It is now possible to search on narrative.

**Action:** This agenda item was presented for discussion/possible action.

5. **ARJIS URBAN AREA SECURITY INITIATIVE REVIEW (DISCUSSION/POSSIBLE ACTION)**

Katie Mugg (ARJIS staff) gave a PowerPoint presentation on the Urban Area Security Initiative (UASI). Director Scanlon noted that Leslie Gardner, San Diego Law Enforcement Coordinating Center was present. ARJIS is preparing for next year’s (FY 2016) prioritization and requirements. ARJIS is going to the Public Safety Committee on January 15, 2016, for approval to accept $400,000 UASI FY 2015 funds. The FY 2015 award will allow ARJIS to consolidate existing mobile applications; develop NetRMS (web-based records management system) interfaces and enhancements; and provide a regional trainer.

Director Scanlon noted that there is a mandate from the Department of Justice to capture “use of force” data. These topics will be discussed with the Business Working Group and brought back to the Chiefs'/Sheriff’s Management Committee for discussion.

As in past years it is anticipated that 25 percent of the grant must be allocated to Law Enforcement Terrorism Prevention Activity. The Office of Homeland Security, however, advises that 25 percent is a minimum and not a cap on the amount law enforcement agencies request. The grant time frame has been extended for two years. The Obama Administration has issued Executive Order 13688 which establishes new guidelines for equipment purchases which will need to be taken into account during the UASI FY 2016 application process. Ms. Mugg will send the 50+ page document to members.

Ms. Mugg noted that Chief Aceves coordinated the law enforcement UASI related activities. Since his retirement, the Chiefs'/Sheriff’s Management Committee was asked to identify a replacement to facilitate the FY 2016 effort.

**Action:** The item was for discussion/possible action. The Chiefs'/Sheriff’s Management Committee requested this agenda item be brought back next month for updates. Staff will confirm with Chief Walt Vasquez (La Mesa Police Department) if he is available to help lead the effort.

4. **ARJIS TECHNOLOGY STRATEGY SUMMARY (DISCUSSION/POSSIBLE ACTION)**

Director Scanlon and Bob Kaelin (MTG Consultant) gave a PowerPoint presentation on the ARJIS Strategic Technology Plan.
In planning for the Strategic Plan, a user survey was given with 500 responses concerning the overview of the plan, directional plan, and feedback if we are heading in the right direction. Mr. Kaelin also talked with business and technical people, and some chiefs on the Chiefs’/Sheriff’s Management Committee. The goal was to focus on what ‘ARJIS can do for you.’

The ARJIS plan is focused on three initiatives: core enhancements, structural developments, and research efforts. The next steps include presenting the Draft Plan to the Public Safety Committee.

**Action:** This agenda item was presented for discussion/possible action.

6. **UPDATE FROM THE BUSINESS WORKING GROUP (INFORMATION)**

The next meeting is Tuesday, January 19, 2016, at Carlsbad Police Department.

**Action:** This agenda item was presented for information.

8. **UPCOMING MEETINGS (INFORMATION)**

The next meeting of the Chiefs’/Sheriff’s Management Committee is scheduled for Wednesday, February 3, 2016, at 9:30 a.m. at Sheraton Four Points.

9. **ADJOURNMENT**

The meeting was adjourned at 10:47 a.m.

FY 2016 PROGRAM BUDGET AMENDMENT: URBAN AREA SECURITY INITIATIVE FUNDING

Introduction

ARJIS received approval from the Public Safety Committee at its April 17, 2015, meeting to pursue FFY 2015 Urban Area Security Initiative (UASI) funds to develop a regional information systems training program, continue efforts on the ARJIS interfaces with the San Diego County Sheriff’s Department NetRMS system, and enhance the ARJIS Mobile Program.

Discussion

ARJIS Regional IT Trainer - $100,000

The regional law enforcement systems trainer would provide training to any of the over 4,400 local, federal, and state law enforcement officers in this region. Hands on training would be offered on public safety related applications such as COPLINK, the state, regional, Federal Enterprise Retrieval System (SRFERS), the Tactical Identification System (TACIDS), and Sheriff-hosted applications; as well as mandated California Law Enforcement Telecommunications System (CLETs) and security awareness training. Weekly train-the-trainer sessions would be held to assist in knowledge transfer, and monthly training sessions would be held for newly hired law enforcement officers throughout the region. The trainer would work with the ARJIS technical team to develop a training page on the secure ARJISnet portal to post user guides, curriculum, and tips. An interactive training schedule would be posted to allow users to request customized training at their locations during business hours, evenings, and weekends.

ARJIS NetRMS - $150,000

Through a collaborative effort with the San Diego County Sheriff’s Department, ARJIS has developed a real-time data interface from the NetRMS records management system to ARJIS. Initially procured by the Sheriff, additional law enforcement agencies within San Diego County have implemented or are in the process of implementing agency specific copies of NetRMS. Each of these agencies needs an interface to ARJIS, which requires development by ARJIS technical staff to program, test, validate, and classify agency data for standardized regional Uniform Crime Reporting; and for use in other ARJIS applications. The UASI FFY 2015 project funds would provide

Recommendation

The Public Safety Committee is asked to approve an amendment to the FY 2016 Program Budget to accept $400,000 in multi-year funding through the Urban Area Security Initiative Program.
continued support in the development of these interfaces for the National City and Carlsbad Police Departments; and a property and evidence module for use by all agencies in the region for incident reporting and follow-on investigations.

**ARJIS Public Safety Application Store - $150,000**

ARJIS has a mature mobile program that allows more than 500 officers from 29 local, state, and federal agencies to access and gather critically needed data in the field utilizing secure smartphones. ARJIS has deployed a variety of applications including SRFERS, COPLINK, and TACIDS, that were developed specifically for the mobile devices. The Public Safety application store would provide a secure mechanism for ARJIS to deploy newly developed applications and automatic updates of existing applications for authorized users. ARJIS would also consolidate functionality where appropriate into a single application or through single sign-on, strengthening stringent user authorization and access control through the ARJIS Security Center. The goal is for authorized officers in the field to have immediate access to cross jurisdictional public safety applications, using secure devices that are compliant with CLETS and Federal Bureau of Investigation Criminal Justice Information Systems policies, without having to return to the station or call over the radio to obtain information.

OBJECTIVE

The objective of this work element is to coordinate, develop, and implement applications that enhance public safety throughout the San Diego region. The Department of Homeland Security’s Urban Area Security Initiative addresses this need by funding agencies to implement projects that target information sharing in San Diego County and bordering regions. Emphasis in FY 2016 is to continue efforts with the Sheriff’s Department on the interface to the NetRMS Records Management System; initiate regional information systems training program; and recruit a contractor to lead the development of the public safety mobile application store.

PREVIOUS ACCOMPLISHMENTS

The ARJIS NetRMS project has shown tremendous success and has facilitated the completion of an interface between ARJIS and the San Diego Sheriff’s Department. This interface provides for the timely ingestion of Sheriff’s records into ARJIS, eliminating duplicate data entry and improving accuracy. ARJIS has established a successful wireless program that has assisted law enforcement officers in the region to positively identify suspects in the field, resulting in enhanced officer and public safety.

ARJIS EX-OFFICIO MEMBERSHIP REQUEST: STATE OF CALIFORNIA DEPARTMENT OF CONSUMER AFFAIRS

Introduction

The California Department of Consumer Affairs, Division of Investigation has formally requested ex-officio ARJIS membership. The Chiefs'/Sheriff's Management Committee reviewed this request at its December 2, 2015, meeting and recommends approval.

Discussion

The State of California Department of Consumer Affairs, Division of Investigation (DCA DOI) provides law enforcement investigative services in order to protect California consumers and licensees. The agency is an authorized California Law Enforcement Telecommunications System (CLETS) agency. There are two units in the San Diego region, the Investigation and Enforcement Unit and the Health Quality Investigation Unit, comprising two supervisors and ten investigators who have all undergone background checks and are Peace Officer Standards and Training certified, which is a requirement for access to criminal justice data.

The DCA DOI is requesting to become an ARJIS ex-officio member. An ex-officio member is a law enforcement agency authorized under the CLETS Policies, Practices, and Procedures to access regional law enforcement data. Ex-officio members have access to ARJIS data, but do not contribute data to ARJIS. Ex-officio member agencies are charged annually for user and connectivity fees based on the number of devices connected to the ARJIS network and for usage based on the number of personnel accessing the data. Because they do not have a population on which to base their membership fees, the fees are calculated based on the size of the agency. In this case, the DCA DOI is considered a small agency.

If approved, the Department would have query access to the ARJIS Enterprise network, applications, and regional data. Per Federal Bureau of Investigation (FBI) and the California Department of Justice (Cal DOJ) security policies, the agency is mandated to access ARJIS via the secure law enforcement intranet called 'ARJISnet'. Connection to this network is required of all ARJIS member agencies in order to access San Diego County's regional, state, and federal law enforcement systems and applications, including SDLaw (the Sheriff's suite of services). ARJISnet network connectivity

Recommendation

The Public Safety Committee is asked to recommend that the Board of Directors approve ARJIS ex-officio membership, as described in the report.
includes 24/7 system monitoring and network maintenance as required. ARJIS technical staff will assist with this one-time network connection; as well as ongoing support.

Secure access to the ARJIS Enterprise suite of applications and data includes local police incident data, booking records, Sheriff’s Department warrants, National Crime Information Center (NCIC) national wanted and missing persons, and other criminal justice data if approved, the Department of Consumer Affairs will be required to abide by the ARJIS Joint Powers Agreement, ARJIS Data Sharing Memorandum of Understanding, ARJIS Acceptable Use Policies (AUPs), FBI CJIS Security Policy, Cal DOJ CLETS Practices, and other relevant policies. Representatives from the agency will be present to provide an overview of their department, and answer any questions the Committee may have.

ARJIS TECHNOLOGY STRATEGIC PLAN

Introduction

Over the past few months, ARJIS has worked with MTG Management Consultants to create a draft Technology Strategic Plan. With a focus on ARJIS technology, it incorporates input from ARJIS users, staff, and key business stakeholders. An initial component of this process included a user survey that resulted in nearly 500 responses from officers in the field, detectives, data analysts, and other law enforcement agency users. An overview of the planning effort and how it fits within overall ARJIS planning and assessment activities will be presented.

Discussion

ARJIS provides a variety of information technology (IT) service offerings to justice and public safety agencies in the San Diego region. The key to meeting the needs of the region is to identify the business case and strategic issues to update or improve ARJIS services. A technology strategic plan for ARJIS will help ensure the efficiency and effectiveness of the ARJIS Enterprise. Additionally, it will help identify potential ARJIS initiatives and provide input to the annual work plan for review by the Chiefs'/Sheriff’s Management Committee and the Public Safety Committee, and approval by the SANDAG Board of Directors.

Over the past several few years, ARJIS has undergone significant changes resulting from implementation of the Enterprise project and, the City of San Diego dissolving the San Diego Data Processing Center (SDDPC), which served as the data center for ARJIS computers and provided a complete array of IT services, staffing, and support to ARJIS. This period of intense change for all of the ARJIS technology that included:

- A split of the technology environment that was housed at SDDPC into two locations: the network that moved to 401 B Street in San Diego, and the data center that was relocated to the National Law Enforcement Telecommunications System in Phoenix.
- Replacement of physical servers with an entirely virtualized server environment.
- Executing a contract with Xerox to move the data center and associated connections for 82 member agencies, and provide 24/7 support and maintenance of the secure network.
- The addition of servers and storage physically located at SANDAG (401 B Street) to provide a failover capability for the Phoenix data center.
• Significant updates to the server environment, including moving to current, state of the practice operating systems and software suites.

The accomplishment of these changes positions ARJIS to begin to enhance the offerings available to agencies and their users. Further, they provide a chance for ARJIS to continue to improve the technology environment and support a broader mobile solution.

The first step toward development of a draft Technology Strategic Plan was the execution of a user survey, provided to all ARJIS agencies. The high level results from approximately 500 respondents include:

• Two-thirds of respondents were investigators or crime analysts.

• Eighty-seven percent of respondents indicated they use ARJIS at least weekly with the majority of respondents (55%) indicating daily use.

• Only 20 percent of respondents indicate they currently access ARJIS using a handheld mobile device; however, two-thirds want to use or currently use handheld devices.

• Eighty-five percent of respondents indicate an interest in keyword searches.

Several hundred specific recommendations are currently being evaluated and if appropriate, will be incorporated into the draft of the Technology Strategic Plan.

The second component of development of the Technology Strategic Plan relates to identifying the specific areas of focus, identified by the user community, member agencies, and policy makers. These include:

• Data – providing accurate regional information to the ARJIS users through the ARJISnet secure network.

• Mobile – providing secure devices and tools to officers in the field.

• Analytics – providing analysis tools and management reports for agency policy makers.

• Services – providing needed regional services to agencies such as secured cloud computing, applications, and storage.

• Policies – developing privacy impact assessments and acceptable use policies for proposed and implemented applications.

Significant considerations of the Technology Strategic Plan as it is being prepared include a well-established business case, in addition to addressing privacy and policy concerns with all new and emerging technologies. These technologies play a crucial role in the daily work of law enforcement agencies, equipping officers with enforcement and investigative tools that have the potential to make them safer, better informed, and more effective and efficient. Developing and enforcing comprehensive policies regarding deployment and use is a critical step in realizing the value that
technologies promise, and is essential in assuring the public that their privacy and civil liberties are recognized and protected.

This is one of several planning and assessment efforts currently underway at SANDAG. The ARJIS Technology Strategic Plan should align with and complement those other activities.

**Next Steps**

ARJIS will refine the Technology Strategic Plan and bring it back to the Public Safety Committee for review and a recommendation to the Board of Directors for approval. Once approved, it will provide ARJIS with key technical priorities that the ARJIS Business, Technical, and Chiefs’/Sheriff’s Management Committees may use for recommending projects and priorities to the Public Safety Committee for inclusion in the annual Work Program and Budget.

Division of Investigation (DOI) was established by the Legislature in 1961 to provide centralized investigative services for the various regulatory boards, bureaus, programs, committees, and commissions within DCA. Section 830.3(a) of the California Penal Code designates DOI investigators as sworn peace officers, who perform a full range of peace officer duties and responsibilities, including:

- Conducting investigations on complaints relating to suspected violations of the Business and Professions Code, Health and Safety Code and other applicable statutes.
- Locating and interviewing accused persons, witnesses and analyzing their statements.
- Examining records, gathering evidence, reporting facts, making arrests, submitting criminal complaints and issuing misdemeanor citations.
- Writing and serving search warrants.

Report Card Indicator Details and Source(s)
1. Total number and rate per 100,000 based on SANDAG population estimates for persons over age of 10 for persons with positive meth result on toxicology (regardless of type of case) AND all cases where acute methamphetamine intoxication was on the death certificate. Source: County of San Diego Medical Examiner’s Office.
2. Rate per 100,000 of emergency department discharges per 100,000 for San Diego County residents with a diagnosis of amphetamine dependence or abuse. Patients who were admitted to the hospital were not included, and multiple visits by the same person cannot be identified. Source: County of San Diego, Health and Human Services Agency (HHSA), Emergency Medical Services.
3. Percent of persons admitted to publicly-funded drug treatment who identify meth as their primary drug of choice. Source: County of San Diego, HHSA, Behavioral Health Services.
4. Percent of meth positive tests from a sample of interviews and drug tests among adult and juveniles at time of booking. Source: Substance Abuse Monitoring, a program operated by the San Diego Association of Governments.
5. a. Number of meth-related toxic clean ups and dump sites. Source: County of San Diego Department of Environmental Health
   b. Meth Lab Seizures. Source: Drug Enforcement Administration (DEA)
7. Availability Measures:
   a. Methamphetamine “easy to get” percent from jail interviewees. Source: SAM interviews
   b. Price of meth samples acquired during arrests/investigations. Source: San Diego Law Enforcement Coordination Center (SD-LECC)
   c. Crystal and Ice Meth Seizures at San Ysidro, Otay Mesa and Tecate. Source: Customs and Border Protection.
8. Number of cases with Special Project Codes for Drug Endangered Children. Includes both Level I cases with meth labs, and Level II cases which occur when children are found in settings involving the use, possession, selling or transportation of drugs. Drug Endangered Children (DEC) data depends on CWS staff entering the Special Project Code, which is not always consistent.
9. Numbers of calls and emails to the Meth Hotline (1-877-No-2-METH or www.no2meth.org). Source: SD-LECC

---

*Emergency department diagnoses are coded for all amphetamine abuse and amphetamine dependence; it can reasonably be assumed that most amphetamine mentions among ED discharges are in fact methamphetamine.

*Population Rate and ED Use Rate are per 100,000 total population and 100,000 total ED discharges, respectively. Patients who were admitted to the hospital were not included, and multiple visits by the same person cannot be identified. Source: County of San Diego, Health and Human Services Agency, Emergency Medical Services, Emergency Department Discharges Database, 2010 – 2013.

*Level 1 (Lab) cases are one percent of all DEC cases. Level II cases occur when children are found in settings involving the use, possession, selling or transportation of drugs. DEC data depends on CWS staff entering the Special Project Code, which is not always consistent.*
Why Are Meth Problems So Big?
As seen in the below chart, availability -- as measured by meth coming in across the border -- continues to be at an all-time high, closely matching consequence indicators at the morgue and emergency departments.

What Needs to Be Done?
Analysis of several databases, existing research and literature, along with discipline expert opinions, suggest the following are required to decrease meth use and subsequent consequences:

1. **Disrupt the Meth Market At All Levels As Possible.**
   Support law enforcement efforts to reduce the availability of meth in our region. A new Drug Trends committee has begun to trade information on early trends among enforcement, prosecution and health.

2. **Increase Health Screening Among Meth Users.**
   Older meth users are suffering the cardio-vascular consequences of chronic meth use. Earlier health screening and engagement in drug treatment may reduce early mortality. MSF is reaching out to the health care community to increase strong connections between physical and behavioral health care.

3. **Increase Family-Based Intervention Services.**
   The data suggest a generational pattern where today’s younger meth users are more likely to have parents with drug problems. Children need to recover alongside their parents. Trauma-informed practice for the whole family can get to root causes and break the cycle.

4. **Expand Crime-Free Multi-Housing Partnerships To Promote Sustainable Crime-Free Neighborhoods Where Children and Families Live.**
   Community norms about drug use can be protective – or can be risk factors. Norms where we live are essential cues for parents and families. Crime-Free Multi-Housing is being expanded to bring health, safety and thriving into this important strategy.

5. **Maintain Our High Quality Prevention Work On Alcohol And Marijuana As The First Line of Defense For The Vast Majority of Youth Who Never Use Meth.**
   Fortunately, most youth in schools do not use meth – lifetime use rates range from 3 to 5 percent. However, early use of tobacco, alcohol and marijuana are risk factors that may lead to other substance use.

What are we missing?

- Seasoned OCDETF prosecutors.
- Full collaboration w/ dedicated law enforcement partners
- Seizing more meth and prosecuting more defendants than ever before
- But despite these efforts, the consequences are increasing
A Comprehensive Meth Strategy

- Reinforce work with DOJ officials in Mexico
  - Disrupt super labs
- Convene drug trends sharing sessions
- Devote comprehensive resources to reactive cases
  - Hand pick select cases [liquid meth and fentanyl]
  - Assign seasoned OCDETF prosecutors
  - Identify patterns and common threads
- Prosecute top meth distributors in federal court
- Pursue outreach and prevention as well as prosecution

Federal Super Lab Strategy

Continued collaboration with Mexico

- Working closely with Mexican investigators and prosecutors to:
  - Share intelligence
  - Track and seize precursor chemicals
  - Disrupt
  - Shut down
  - Stem the flow
Youth Outreach

- HSI/CBP Anti-Smuggling Program Targeting High School Youth
  - Successful in San Diego County
  - Now expanding program to Imperial County
- New U.S. Attorney Partnership targeting young adults
  - Federal defenders
  - Young adult offenders
  - Visiting community colleges and faith-based groups
  - Communicating the lifelong collateral consequences of felony conviction

SANDAG-ARJIS

DRAFT ARJIS Technology Strategic Plan Overview

January 15, 2016

Background

- FY 2007 - PSC Interoperability and Communications Needs Assessment
- FY 2008 - Business Case & Enterprise Strategic Plan
- FY 2011 – FY 2013 ARJIS Enterprise development
- FY 2013 - Data Center move/network outsourcing
- July 2013 - San Diego Data Processing dissolved
- FY 2009 & FY 2016 - network security assessments
- FY 2016 - Technology Strategic Plan - in progress
Planning Framework

- Focus on ARJIS technical services
- Frame priorities for ARJIS work efforts
- Planning Outreach:
  - Regionally focused
  - User survey (almost 500 responses)
  - Select chiefs
  - Technology committee chair and business committee
  - Select agencies, including SDPD and SDSO
- Public Safety Committee (today’s presentation)
- Plan being developed in concert with other planning efforts

ARJIS Plan

Strategy Overview

- Planning structure includes:
  - Three initiatives
  - Focus areas within each initiative
  - Projects in each focus area
- Initiatives and focus areas are strategic priorities
- Projects are operational priorities:
  - Recommended by the Business Committee
  - Approved in accordance with SANDAG policies
ARJIS Plan

Initiative 1 – Core Enhancements

**Initiative**
- Core Enhancements

**Focus Areas**
- Data
- Mobile
- Analytics

**Sample Proposed Projects**
- 9-1-1/CAD Classification Update (Use of Force)
- Local Data (DA, Firearms)
- Portal Content Additions (LE and Public Portals)
- App Store Mobile Field Interviews
- Swipe/OCR Drivers License
- Citizen Analytics
- Management Reporting
- Location-Based Analytics

Initiative 2 – Structural Developments

**Initiative**
- Structural Developments

**Focus Areas**
- Services
- Policies
- Geo
- Security

**Sample Proposed Projects**
- Agency Backup Service
- Hosting Service
- Network Expansion
- Retention/Privacy
- Mobile Acceptable Use
- Geo Services
- Geo Time Stamp
- Mobile Device Management
- Security Center
- Single Sign-On

Next Steps

- Confirm the direction for the proposed plan  
  [Management Committee and PSC]
- Complete the draft plan document  
  [MTG]
- Present proposed plan to the Public Safety Committee  
  [ARJIS]
- Present proposed plan to SANDAG Board  
  [ARJIS]
- Once approved, ARJIS will implement the plan via the annual work program
