Thursday, June 26, 2003

ITEM #

1. Introductions

+2. Presentation

   SANDAG uses screening and evaluation criteria to prioritize arterial, highway, and transit projects for planning and programming purposes. Staff is proposing to consolidate and revise previously used criteria for future prioritization efforts. Staff is not proposing to cross-compare arterial, highway, and transit projects but rather to make the criteria used for each as similar as possible. Staff will provide a background on criteria that have been used in the past, the proposed consolidated criteria, and a schedule leading to approval of the consolidated criteria by the Transportation Committee. Attached is a summary report.

3. Discussion

   Mr. Berkuti, CTAC Chair, will lead a discussion by committee, working group, and task force members.

4. Comments from the Public

   Members of the public are invited to share their comments. Speakers will be limited to three minutes.

5. Next Steps

   Mr. Berkuti will lead a discussion on next steps to be taken with the goal of gaining approval of consolidated transportation screening and evaluation criteria by the Transportation Committee.
