PROPOSED FY 2018 PROGRAM BUDGET AMENDMENT:
SMART SUCCESSFUL TREATMENT AND RECOVERY EVALUATION PROJECT

Introduction

In March 2017, SANDAG, in partnership with the San Diego County Probation Department, Sheriff’s Department, and Health and Human Services Agency (HHSA), responded to a grant solicitation from the Bureau of Justice Assistance (BJA) for projects that would strengthen how individuals under community supervision are supervised and rehabilitated through the implementation of evidence-based practices. In September 2017, SANDAG was notified that its submission was selected through the competitive grant review process for funding.

Discussion

Since the passage of Assembly Bill 109 (Public Safety Realignment) in 2011, counties across California have been responsible for housing, supervising, and rehabilitating a higher risk population that previously would have been managed by the state. As a result, focus now is needed on high-risk probationers returning from local detention to local communities who also may have substance abuse and/or mental health needs and a high risk of recidivating.

Recognizing this need for improved coordination, local partners proposed implementing a pilot project that would enhance community supervision and rehabilitation for this population in San Diego County. Through the implementation of an integrated public health and safety supervision strategy, known as Smart Successful Treatment and Recovery (Smart STAR), it is anticipated that the successful reentry of 250 formal high-risk probationers returning to East County would be increased and recidivism would be reduced.

Specifically, this goal will be achieved by administering validated assessments while the probationer still is detained, creating a prerelease transition plan to expedite linkages to service and co-locating Probation and HHSA staff at a Family Resource Center to improve supervision and service delivery.

Recommendation

The Public Safety Committee is asked to recommend that the Board of Directors approve an amendment to the FY 2018 Program Budget, accepting $749,916 in Bureau of Justice Assistance grant funding to implement the Smart Successful Treatment and Recovery Evaluation project (Overall Work Program Project No. 23467.00).
**Smart STAR Evaluation**

Of the $749,916 in grant funding, 75 percent would be pass-through to the County of San Diego to improve the availability of substance abuse and/or mental health treatment beds to strengthen the system of care, and the other 25 percent would be utilized by SANDAG to support the evaluation and data-sharing components of the project.

To evaluate the pilot’s success, SANDAG will select a comparison group of matched individuals on formal probation, and performance measures will be captured using multiple methodologies (i.e., surveys, treatment tracking, case review, and collection of archival crime and other data from law enforcement data systems). SANDAG previously has served as the evaluation partner on three other BJA Smart efforts and has worked with the partners on this effort on similar projects to better understand how community reentry from incarceration can be improved with reducing the risk for recidivism.

**Next Steps**

Pending a recommendation from the Public Safety Committee, the Board of Directors is scheduled to consider this amendment at its October 27, 2017, meeting.

### OBJECTIVE

As part of this three-year grant, San Diego County public safety and health agencies will create a pilot project - STAR (Successful Treatment and Reentry) - to support high-risk probationers reentering East County communities through the implementation of best practices. SANDAG will conduct a process and impact evaluation of these efforts to determine if goals were realized and expected outcomes were achieved.

### PREVIOUS ACCOMPLISHMENTS

SANDAG has served as the research partner on previous efforts to evaluate efforts to increase the effectiveness of successful rehabilitation and reentry of individuals following incarceration. This effort would continue this history of collaboration and information sharing.

Why SMART was needed

- Prop. 47 reduced many drug and theft crimes from felonies to misdemeanors
- It was intended to divert offenders from prison to community-based mental health/drug treatment and housing programs
- No funding was provided for such programs until June 2017
- Once passed, CAO saw a 185% increase in drug and theft cases without meaningful incentives for offenders to complete diversion programs
**Prop. 47’s Impact on City Attorney’s Office**

Cases issued from 2014 to 2015:

- Drug charges up 38%
- Theft charges up 65%
- Combo charges up 184%

**Treatment Challenges**

- Voluntary Treatment Programs
  - Penal Code 1000 & Prop. 36
  - Drug Court

- Supervision resources for felons not available to misdemeanor offenders including:
  - Formal Probation
  - Parole
  - AB 109
  - Reentry Programs
Law Enforcement Challenges

• Resources/Staffing

• Prop. 47 = Misdemeanor Crimes
  • California Penal Code section 853.6(i)
  • Officers must cite and release misdemeanors

  • Subject to certain exceptions found in 853.6(1)-(10):
    • Intoxication/Requires Medical Attention
    • Outstanding Warrants/History of FTAs
    • No Identification/Refuses to Sign Citation
    • Criminal Activity Likely to Continue

Criminal Justice System Challenges

• Limited accountability

• Revolving door syndrome

• Intelligence sharing

• No funding for treatment

• Minimal incentive for offenders to accept treatment
The SMART Approach to Addressing the Chronic Misdemeanor Offender

Collaboration with:

- San Diego Police Dept.
- Sheriff's Dept.
- San Diego Superior Court
- Public Defender's Office
- HHSA - Behavioral Health Services
- Family Health Centers of San Diego (FHCSD)
- San Diego Second Chance Program (Second Chance)
- ACLU
- Housing Commission

Who does SMART help?

Individuals who have

- committed low-level misdemeanors
- undergone comprehensive background checks
- been identified as likely to succeed with treatment and housing
Who is eligible?

- People who:
  - Have **one or more** misdemeanor drug offenses since Prop 47 took effect;
  - Were arrested at least **twice** in the past six months for a quality-of-life offense.
- This population is especially vulnerable to crime and exploitation.

Who is excluded from SMART?

- All participants are screened by SDPD, the City Attorney’s Office, and Family Health Centers of San Diego.
- Sex offenders are categorically excluded.
- As are offenders on felony probation for drug sales.
- Offenders with severe mental illness.
What are the goals?

• Reduction in recidivism
• Reduction in emergency room visits
• Increased access to healthcare
• Increased days in treatment
• Reduction in court appearances

How does SMART work?

• Available at multiple stages in the criminal justice continuum.

Questions?
THE DEVASTATING IMPACT OF FENTANYL AND CARFENTANIL
U.S. ATTORNEY’S OFFICE – SOUTHERN DISTRICT OF CALIFORNIA
OCTOBER 20, 2017

Deputy U.S. Attorney Mark Conover
Southern District of California

FENTANYL

• Synthetic Opioid
• Schedule II
• Effects indistinguishable from morphine or heroin (mu receptor agonist)
• Legitimately distributed as patches or lozenges
How Fentanyl Can Enter Body

- Intravenous (IV) is the fastest and most effective way
- Inhaled/Snorted
- Ingestion (orally)
- Nasal Spray
- Sublingual Spray
- Sublingual Tablets

- Transdermally (Through the skin)
  - This is a unique concern with fentanyl
What is an Opioid Overdose?

Heroin fits exactly in receptor

Opioid receptor on brain

The brain has many, many receptors for opioids. Too much heroin fitting in too many receptors slow and stop the breathing.

General Potency Comparison
