ARJIS Mapping Dashboard
SANDAG Public Safety Committee
May 19, 2017

Regional Mapping Dashboard

• ARJIS provides the County with a Regional Mapping Dashboard for use by all member agencies
  o 79 of 82 member agencies don’t have their own Dashboard
• ARJIS Dashboard displays regional data
  o Arrests, crime cases, CAD 911, field interviews, officer notifications – sex offenders, parolees
• Enterprise license for 82 member agencies
  o Significant economies of scale
Regional Mapping Dashboard

- Organize and analyze geographic info on regional crime data
- Ability to create charts, time series and exportable reports
- Assists management in resource allocation
- Officer safety - informs investigators and officers of crime incident locations
- Assists in identifying crime series
  - Criminals often commit crimes in multiple jurisdictions

Dashboard Mode

- Snapshot of data to quickly identify patterns and trends
- ‘Briefing Books’ designed in advance with pre-populated data using different visualization techniques
Customized Pages for Each Agency

- Each agency has access to 3 different Briefing Books
  - Crime Summary: Violent and property crimes
  - Traffic: Accidents, hit and runs, citations, and DUIs
  - Offenders: Arrestees, 4th waiver, sex offenders, and field interviews
- Each Briefing Book has up to six customized widgets
  - 180+ customized maps and chart ‘widgets’

Analysis Mode

- Custom queries can be created by the end user to view any available data they wish. Data can be customized by:
  - Date/time
  - Crime and incident type
  - Jurisdiction/address
  - Wild card searches
  - Repeat incidents
  - Overlay data sources

Fiscal Year 2017 Enhancements

- Each year the Business Working Group ranks a list of potential enhancements to the application; Fiscal Year 2017 included:
  - Upgrade to Dashboard Version 3.0
    - User interface upgrades
    - Updated zoom features
    - Ability to attach PDFs
  - Additional record detail content (narratives)
  - New data and layers
    - Suspect home address
    - Stolen and recovered vehicles
    - Trolley stations

Links and Relationships

- Allows users to link records and show their relationship on a map
- Relationships are pre-configured to relate the associated datasets based on fields with the same information
How are Member Agencies Using the Dashboard?

La Mesa Police Department

- Mapping info for patrol – resource allocation
- Monitoring pro-active enforcement via CAD Calls for Service
- Identification of Crime Series
Chula Vista Police Department

“An officer took a commercial burglary report where a witness saw a transient named ‘Bob’ near the business before the alarm went off. The officer logged into Dashboard and looked at field interviews that contained the name ‘Bob’. He found a transient that had been interviewed multiple times nearby. He went to the location of the interviews and found ‘Bob’ who confessed to the burglary.”

Metropolitan Transit System (MTS)

“Dashboard is the tool I use for crime statistics. MTS is different because our trolley stops/stations are in different jurisdictions: San Diego, Chula Vista, National City, El Cajon, La Mesa and Sheriff’s. The ‘Trolley Stations Layer’ has been a great benefit. I used to run station addresses individually, but now I combine and run them by sectors with multiple addresses. This feature has saved me an enormous amount of time”

- MTS Record Manager
Escondido Police Department

- Responding to public record requests
- Time and resource saving

“I received a request from Housing and Neighborhood Services for crime around several local construction projects. I estimated a request of this magnitude would take at least two days. I decided to complete the request in Mapping Dashboard and was able to complete the study in less than one hour.”

- Crime Analyst, Escondido Police Department

Harbor Police Department

- Use for daily, weekly, and monthly in-depth patrol activity analysis
- Incorporated as critical component in Department’s Intelligence Led Policing
  - Intelligence Section analysis
  - Weekly Patrol Strategies/Unified Command Team Meetings
  - Daily Patrol Lineups
- Use for directed enforcement (*Playbook Missions*)
- Use for cross-jurisdictional crime pattern analysis
Harbor Police Department

- Recent use of ARJIS Dashboard for 2016 crime analysis of 1,000 foot radius immediately surrounding Petco Park (Arrests, Cites, CAP, Property Crimes)
Harbor Police Department
San Diego Airport CFS Last 30 Days
