Approval for San Diego State University Police Department to become a Contributing ARJIS Member

Overview

The San Diego State University (SDSU) Police Department, currently an ARJIS Participating Member Agency (PMA), is requesting to become an ARJIS Contributing Member Agency (CMA) in order to enter incident reports directly into ARJIS. The Chiefs’/Sheriff’s Management Committee recommended at its May 13, 2020 meeting that the Public Safety Committee approve this request, in accordance with the SANDAG-ARJIS Data Sharing MOU.

Key Considerations

The SANDAG-ARJIS Data Sharing MOU outlines the responsibilities of SANDAG-ARJIS and the law enforcement agencies that contribute to and access data from the ARJIS Enterprise System. The MOU also incorporates Acceptable Use Policies (AUPs) that set forth the conditions under which ARJIS Systems may be accessed and the processing and maintenance requirements for records stored in the ARJIS Enterprise System.

There are 13 CMAs that contribute arrests, crime cases, supervision records, field interviews and other activity into ARJIS. These data are made available to the ARJIS member agencies via secure law enforcement applications and networks. There are over 45 PMAs with law enforcement responsibilities that can be given permission for agency personnel, certified by the California Department of Justice (DOJ), to query the region’s law enforcement data.

Approving this request will result in an estimated revenue of $7,996 for a one-time connection fee. The secure interface for the real-time data feed and the data entry screens are already developed. SDSU is familiar with the standards for sharing regional data and the ARJIS business rules. The collaboration, communication, and sharing of the region’s law enforcement data among the many jurisdictions and criminal justice disciplines in this region is unprecedented, and results in enhanced public safety for the citizens of this region.

Next Steps

As the governing board of ARJIS, the Public Safety Committee is asked to approve the SDSU Police Department’s request to become an ARJIS CMA.

New Grant Funding: Criminal Justice Research Division

Overview
As part of the Criminal Justice Clearinghouse, SANDAG partners with local stakeholders on grant-funded research projects. SANDAG recently was notified by North County Lifeline (NCL) that it had been awarded a three-year Title II grant from the California Board of State and Community Corrections (BSCC). The Criminal Justice Research Division (CJRD) was part of the grant application and will be the outside evaluator for the project. CJRD will receive $30,000 for three years, starting in FY 2020 to implement the evaluation activities.

Key Considerations
NCL has a lengthy history of providing services in the community to support children and families at risk of initial or continued involvement in the juvenile justice system. Title II funds will support NCL’s Intensive, Mentoring, Parent Advocacy and Comprehensive Trauma-informed services (IMPACT) Program. IMPACT is designed to reduce juvenile offending with an emphasis on system improvement/reform and strategies for addressing racial and ethnic disparities. IMPACT is a community-based system in North San Diego County that offers an alternative to detention/system involvement for youth, targeting ages 11 to 19 (but may serve up to age 25). Youth and their families receive long-term (up to 12 months) individual and family services to address each family’s unique needs. For this grant, CJRD will develop a Local Evaluation Plan detailing the evaluation design and data elements, provide technical support, and data analytics to determine how the IMPACT program was implemented and to what effect.

The funding will allow CJRD to strengthen NCL’s ability to monitor and document the results of its IMPACT program.

Cindy Burke, Director of Research and Program Management

Action: Information
An overview of a new criminal justice evaluation that has been added to the FY 2020 Program Budget due to new grant funding will be presented.

Fiscal Impact:
A total of $30,000 (253000) will be added to the FY 2020 Program Budget to implement evaluation activities across multiple years.

Schedule/Scope Impact:
The new funding will support regional information gathering and dissemination through November 30, 2023.

OBJECTIVE

SANDAG’s Applied Research Division (ARD) will partner with North County Lifeline (NCL) to develop an evaluation plan and provide technical support and data analytics of their Intensive Mentoring, Parent Advocacy and Comprehensive Trauma-informed services (IMPACT) Program. IMPACT is designed to reduce juvenile offending with emphasis on system improvement/reform and strategies for addressing racial and ethnic disparities (RED).

PREVIOUS ACCOMPLISHMENTS

This is the fourth project ARD has partnered on with NCL. Mostly in the role of technical advisory and data analyst, ARD has been successful in supporting NCL in documenting its process and outcomes to quantify and highlight its important work in providing services to at risk populations.
