meeting date" Jan 22, 2021
agenda item, 14
your name, and your organization: Barry Pollard, The Urban Collaborative Project (CBO rep. SESD)

Comments:

We are in complete support of the Equity Statement before you today. The statement represents a sense of commitment, focus, and resolve as we continue to address our Transportation disparities in all of our underserved/under-resourced communities.

This Statement is but a beginning and it "sets the table" for conversations and opportunities to make Transportation more equitable for ALL.

Barry Pollard,

The Urban Collaborative Project

Hello,

This is Kyle Knoebel in San Diego. I am writing in support of Item 14, SANDAG's Commitment to Equity Statement. As the San Diego region's most influential planning and research agency concerning transportation, SANDAG must set a good example and make equity a pillar of any current and future projects. SANDAG must ensure that it centers the voices of communities of concern in all of their projects in order to connect with the communities that most need access to transportation options.

Best,
Kyle Knoebel

Dear Board Members,

As a representative to the CBO/Social Equity Working Group and Outreach Team, please know that our group has been actively involved in fashioning a draft statement. We support SANDAG Board's adoption of an overarching policy statement, upon which to build a detailed social equity plan to assure that disadvantaged communities' historic inequity is finally corrected through the substantial investments made through SANDAG.

As one CBO/Social Equity representative, I look forward to your meeting discussion on the differences between the two draft alternatives presented in the staff report; and your assurance that SANDAG commits to addressing our region's social, racial and economic inequities.

Craig Jones
