BorderSafe Program

Automated Regional Justice Information System

BorderSafe Program
What is BorderSafe?

- **Data sharing to support Homeland Security efforts**
  - Research, evaluation, and recommendations in the sharing of regional justice data

- **BorderSafe Partners**
  - U.S. Department of Homeland Security (DHS)
  - Tucson Police Department and Coplink Agencies
  - CNRI – Corporation for National Research Initiatives
  - SPAWAR Systems Center
  - University of Arizona, Artificial Intelligence Lab
  - University of California, Supercomputer Center
BorderSafe Project Schedule

- **Phase I**
  - $373,000
  - Feasibility studies in data sharing and wireless technologies

- **Phase II**
  - $369,000
  - Implement Tucson Agreement and expand wireless

- **Phase III**
  - Fall 2005
  - Comparable amount
  - GPS enabled wireless, Entity Analytics, Agency Agreements
ARJIS BorderSafe Accomplishments

1. Field Access to ARJIS Data using Wireless Technology and PDAs
2. ARJISNet Agency Access Expansion
3. Tucson Police Department and Coplink Node
4. Data Sharing with DHS
5. Privacy Impact Assessment
1. Field Access to ARJIS Data

Getting the right information -
To the right person - *at the right time*
Data Sources

Provides Field Access to:

- ARJIS Officer Notification System
- CA. DMV Drivers Licenses
- CA. DMV Vehicle Registration
- Wants and Warrants
- Terrorist Watch Lists
- Jail Bookings with Photos
Chula Vista PD ID’ed a Bank Robber
Positive ID with DHS - ICE
Numerous Positive ID’s at the Beach

[Image of a police officer with a mobile device]
Horse Patrol ID’ed Sex Offender  (Balboa Park)
Many Other Success Stories

- FBI agent: ‘suspected terrorist’ hit – “I wouldn’t have found it without the PDA.”
- DHS positive ID on surveillance of clandestine landing strip – many narcotics arrests
- DHS hits on deported felons, approx. 200 arrests
- Oceanside PD, robbery suspect ID’d at the scene
- SD Sheriff solved kidnapping case, $500,000 bail
2. ARJISNet Agency Access Expansion

- U.S. Department of Homeland Security
  - Immigration and Customs Enforcement (ICE)
  - Customs/Border Protection (CBP)
  - US Coast Guard
- Narcotics Task Force – Airport Operations
- California Highway Patrol
- Tucson Police Department
3. COPLINK Systems at Tucson PD and ARJIS

Detect Search
Search for:
- Person
- Location
- Vehicle
- Incident

Associated With
1. PERSON - SET DAV
2. VEHICLE - SET 2D GRN

Limited to Crime Types
- All 01 Homicide
- 0101 (Homicide - Murder)
- 0102 (Homicide - Manslaughter)

Clear
Find Relationships
4. Data Sharing – DHS and Local Data

- **ARJIS Officer Notification System (ONS)**
  - An “Officer Only” alert system in ARJIS
  - ONS Data - CBP - 116 alerts

- **Customs and Border Protection**
  - License Plate Data
    - Trans-Border License Plate Readers
    - 5 Day Test = 780,000 plates
Of 780,000 Plates Matched Against ARJIS...

More than 1300 were involved in:

- 4 Murders
- 14 Rapes
- 24 Robberies
- 273 Assaults
- 128 Burglaries
- 345 Vehicle Theft
- 361 Weapons
- 241 Narcotics
Results in the Discovery of a Criminal Network
5. Privacy Impact Assessment - Results

- In Compliance with Privacy Regulations
- Provides Legal Road Map for Data Sharing
  - No single agency owns the shared data
  - Use governed by MOUs
- No “Fishing” Searches (probable cause)
- Privacy Assessment is a Living Document
BorderSafe is Important to the Region

- Positive impact on field operations

- Places ARJIS governance in a leadership position

- Expansion of data sharing between agencies
  - Most comprehensive multi-disciplinary partners within the region
  - With other states and federal agencies
PSC Involvement

- Implement an operational, data-sharing model across the southwest region
  - Partners (e.g., Imperial County, Orange County, CBP, Nevada)
  - Governance structure
  - Business model
  - Funding resources
  - Integration with National Intelligence Plan
BorderSafe Program
