APPENDIX A LIST OF TECHNICAL REPORTS IN SUPPORT OF FINAL SEIS/SEIR (AS OF SEPTEMBER 12, 2014)

The following technical reports and memoranda were prepared in support of the Supplemental Environmental Impact Statement and Subsequent Environmental Impact Report (SEIS/SEIR). These reports are available for download on the San Diego Association of Governments (SANDAG) Web site (www.SANDAG.org/midcoast) and for review at the offices of SANDAG at 401 B Street, Suite 800, San Diego, California. The reports and memoranda also are available on digital video discs (DVDs) and can be obtained at the SANDAG offices.

Many of the technical reports prepared in support of the Draft SEIS/SEIR have been updated to reflect the refinements to the Build Alternative and comments received on the Draft SEIS/SEIR or, including any new or additional analysis. The analyses and conclusions presented in some technical reports were not affected by the refinements to the Build Alternative or comments on the Draft SEIS/SEIR or the *Mid-Coast Corridor Transit Project Supplemental Environmental Impact Statement/ Supplement to the Subsequent Environmental Impact Report* (Supplement) (SANDAG, 2014ee); therefore, those reports did not require updates. Further studies undertaken as part of project development or in response to comments resulted in the preparation of new technical reports or memorandums. Technical reports that were not updated since the Draft SEIS/SEIR was circulated in 2013 are indicated with a “¹”; reports that are new are indicated with a “²”.
