Eligible Projects

Eligible capital projects must be located in an “Existing/Planned” Smart Growth Opportunity Area on the SANDAG Smart Growth Concept Map. Eligible projects include pedestrian improvements, bike facilities, transit access improvements, and other innovative smart growth-supporting infrastructure. Eligible capital projects may include, but are not limited to:

- Public plazas
- Pedestrian street crossings
- Streetscape improvements (such as, median landscaping, street trees, lighting, and street furniture)
- Parklets
- Traffic calming features (such as pedestrian bulb-outs or traffic circles)
- Access improvements to transit stations/routes
- Wayfinding signage
- Community gateway features
- Pedestrian and bike paths and bridges
- On-street bike lanes
- Bike parking
- Low impact development elements included as part of the above

Applicants are encouraged to use innovative solutions that are comprehensive in scope.
