

CRIME BULLETIN

Crime in the San Diego Region Mid-Year 2018 Statistics

SEPTEMBER 2018

BOARD OF DIRECTORS

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

Introduction

Since 1980, SANDAG has been compiling and reporting regional crime statistics for San Diego County and remains the only local source for regional statistics not available at the national level. This summary presents information regarding how many and what types of Part I crimes were reported to local law enforcement in the first half of 2018 and how these numbers compare to prior years. These data are useful to local law enforcement agencies as they track the effectiveness of their prevention and response efforts on jurisdictional and regional crime rates.

Violent crime

- A total of 5,507 Part I violent crimes were reported to local law enforcement agencies in the region between January and June 2018 (Tables 1 and 6), an average of 30 per day (not shown). Part I violent crimes include homicide, rape, robbery, and aggravated assault.¹
- Of the 17 jurisdictions with violent crime numbers that were able to be compared (more than 30), 8 had a higher violent crime rate in the first six months of 2018 compared to 2017 and 10 had a lower one (Table 3).
- There were 40 homicides in the first half of 2018, a decrease of 5 percent from mid-year 2017 when 42 occurred (Tables 1 and 8).
- There were 604 rapes reported to law enforcement in San Diego County in the first half of 2018 using the new UCR definition, compared to 534 in the first half of 2017 (Tables 1 and 8). The new definition went into effect in 2015.
- The number of robberies reported across the region decreased 7 percent from mid-year 2017 (1,440) to 2018 (1,346) (Tables 1 and 8). The number of robberies at banks and commercial establishments did not change in number compared to 2017 mid-year, but there were decreases in the other three locations, ranging from -8 percent on highways to -22 percent in residences (not shown).
- The 3,517 aggravated assaults reported during the first six months of the year represented a 3 percent increase from the prior year (Tables 1 and 8). There were 8,407 domestic violence incidents reported, which include aggravated assaults and other offenses (both violent and property), a decrease of 1 percent from the 8,449 reported in the first half of 2017 (not shown).
- Compared to mid-year 2008, the violent crime rate is 19 percent lower than it was then (Figure 1).

Highlights

Compared to mid-year 2017, there were fewer homicides (5% decrease) and robberies (7% decrease) reported to law enforcement in the San Diego region in the first half of 2018.

However, the number of rapes and aggravated assaults were up (13% and 3% increases, respectively). The number of domestic violence incidents was down 1 percent from this time last year.

For property crime, fewer burglaries (down 13%) and motor vehicle thefts (down 3%) were reported. Larcenies increased by less than 1 percent.

¹ When interpreting these mid-year figures, it is important to note that in 2015, California law enforcement agencies began to use the new and broader Uniform Crime Reporting (UCR) definition of rape that includes male victims, sodomy, penetration with any body part or objects, and no longer requires force. As a result of this change, some Part I crimes that previously would have been aggravated assaults are now rapes and some Part II crimes that previously would not have been captured in these statistics are now Part I crimes.

Property crime

- A total of 27,727 property crimes were reported to local law enforcement agencies in the first half of 2018 (Tables 1 and 7). This equates to an average of 153 per day. Sixty-eight percent (68%) of these property crimes were larcenies, 17 percent motor vehicle thefts, and 15 percent burglaries (not shown).
- Of the 25 jurisdictions with property crime numbers that were able to be compared (more than 30), 19 had a lower property crime rate in the first six months of 2018 compared to 2017, and 6 had a higher one (Table 4).
- The 4,131 burglaries reported in the San Diego region in the first half of 2018 represented a decrease of 13 percent from the first half of 2017 (when there were 4,760). Residential burglaries decreased 14 percent and non-residential burglaries decreased 12 percent. Fifty-five percent (55%) of burglaries in the first half of 2018 were residential (Tables 1 and 8).
- The number of larcenies reported in the region at mid-year 2018 (18,915) represented a less than 1 percent increase from mid-year 2017 (18,903). Petty theft (estimated value of items stolen \$400 and under) decreased by 8 percent and grand theft increased by 13 percent (Tables 1 and 8).
- Across the seven types of larcenies, there were increases in thefts from motor vehicles (4%), from buildings (4%), of bicycles (5%), and pickpockets/purse snatching (9%) (not shown).
- Motor vehicle theft decreased 3 percent over the past year, from 4,814 vehicles stolen at mid-year 2017 to 4,681 at mid-year 2018 (Tables 1 and 8).
- There were 189 arsons reported by law enforcement in the first half of 2018, up from 176 the first half of 2017, an increase of 7 percent (Tables 10 and 11).
- The mid-year 2018 property crime rate was 40 percent lower than it was in 2008 (Figure 2).

Background

The ability for SANDAG to analyze data and produce reports on crime trends for the region relies upon a cooperative agreement with each local law enforcement agency. SANDAG obtains crime data from every agency on a monthly basis, allowing the presentation of regional crime data in a timely manner.

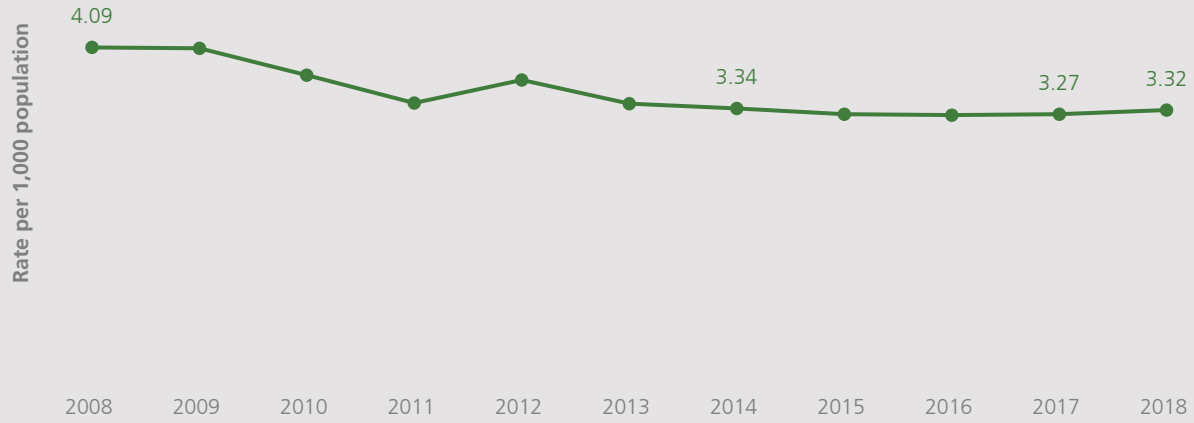

Crimes are categorized according to the FBI's standardized UCR guidelines for law enforcement agencies across the country. Reported crimes are tallied in ARJIS according to the date of data entry, which may or may not reflect the day of occurrence. It should be noted that while local law enforcement agencies strive to tabulate their statistics in a timely fashion, data entry delays sometimes occur, which may affect statistics.

The mid-year crime rates per 1,000 residents are estimated by multiplying the number of crimes reported between January and June by two and dividing that number by the population which has been divided by 1,000.

The statistics presented in this CJ Bulletin include crime rates and numbers for San Diego County and individual jurisdictions for the first half of 2018. Comparisons are made to prior years. The number and type of crimes that are reported can be influenced by several factors, including the degree of opportunity to commit crimes in a given jurisdiction, which can be related to the amount of commercial land use and ease of access to the area.

Crime statistics for January through December 2018 are expected to be available in April 2019. If you have any questions about these numbers, please contact the Criminal Justice Research Division at (619) 699-1900. For more information about the SANDAG Criminal Justice Clearinghouse, please visit sandag.org/cj.

NOTE: FBI Index Crimes include homicide, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. "Unincorporated" includes 4S Ranch, Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas for which crime data are not individually shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista). Percent changes are not presented if either comparison number used to compute the crime rate equals 30 or less.

Alpine	28,673	29,431	3%
Fallbrook	53,247	54,137	2%
Lakeside	54,085	55,729	3%
Ramona	36,931	36,734	-1%
Spring Valley	73,130	73,076	<-1%
Valley Center	24,314	24,505	1%
Camp Pendleton	38,316	40,043	5%
Total	3,231,651	3,316,192	3%

NOTE: "Sheriff-Total" includes contract cities and the unincorporated area served by the San Diego County Sheriff's Department. Pendleton population is excluded from Sheriff's unincorporated area and included in the region total. "Unincorporated" includes 4S Ranch, Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas not shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista). Populations used to compute crime rates at the city-level reflect the most current finalized California Department of Finance estimates, January 2017. Below the city-level, SANDAG's Draft vintage 2017 Demographic/Economic Estimates are used and may be revised when they are finalized later this year.
