

CRIMINAL JUSTICE BULLETIN

Arrests 2017: Law Enforcement Response to Crime in the San Diego Region

DECEMBER 2018

Research findings from the Criminal Justice Clearinghouse

Board of Directors

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

Introduction

The Applied Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for criminal justice information in the San Diego region. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region as measured by arrest statistics. Because arrest statistics include information regarding whether the suspect is an adult or juvenile and include a greater variety of crime types than are reported in regional crime reports (e.g., alcohol/drug-related offenses), this information provides an added dimension for understanding the nature of crime and another measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 for both the adult and juvenile population, as well as number of arrests by offense type. In addition, 42 supplemental tables, which include statistics for individual jurisdictions, are presented. Some points to remember when interpreting these numbers include the following:

- Similar to how the FBI reports crimes, the offense or charge attributed to an arrest reflects only the most serious out of potentially multiple violations included in the arrest.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime was reported.
- For youth, even though contact with law enforcement is made and an arrest report is taken, diversion to a community-based or other type of program or release to a parent or guardian may occur as an alternative to juvenile justice system processing.
- The data presented here were provided by the California Department of Justice through a public records request. While these are official numbers reported to and by the State, it is important to note that they may vary from other sources that could be available.

Highlights

- In 2017, San Diego County had the second highest adult and juvenile arrest rates compared to the other four largest California counties. On average, 229 adult and 13 juvenile arrests were made daily in San Diego County in 2017.
- The juvenile arrest rate reached a new ten-year low in 2017, down to 13.9 arrests per 1,000 juveniles, compared to 56.9 in 2008 (a 76% drop). Since 2012, the juvenile arrest rate has been lower than the adult arrest rate.
- While adults 20 to 29 still had the highest arrest rate of any age group in 2017 (60.3 per 1,000), the second highest group has changed over the past five years, with adults 30 to 39 taking the number two spot from those 18 to 19.
- While misdemeanor arrest rates increased in 2015 following the passage of Proposition 47 (Prop 47), they decreased in both 2016 and 2017. Prop 47 made numerous property and drug offenses that could have been felonies, misdemeanors.
- For adults, there were more arrests in each category type in 2017 compared to 2016, with the exception of property offenses, which decreased 9 percent.
- For juveniles, the number of arrests in each category type decreased from 2016 to 2017, except for violent crime arrests, which were up 4 percent.

Arrest rates

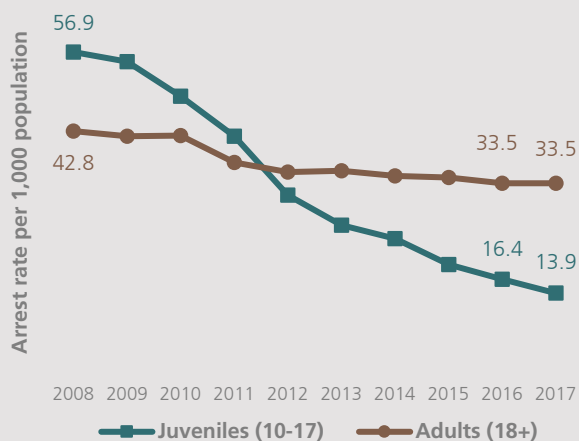

Trends

In 2017, there were 33.5 adults arrested per 1,000 population.¹ As Figure 1 shows, this rate was the same in 2016, which was the lowest in the past ten years. Across the jurisdictions, the 2017 adult arrest rate varied from 14.3 to 56.0, with one-year decreases in nine of the jurisdictions and increases in the other ten (Table 6).

Until 2012, the arrest rate was traditionally higher for juveniles than adults. As Figure 1 shows, the 2017 juvenile arrest rate² of 13.9 represented a decrease of 76 percent from 2008 and 15 percent from 2016. Across the jurisdictions, the juvenile arrest rate varied from 8.8 to 20.9 in 2017, with 13 of the agencies reporting one-year decreases, 3 agencies reporting one-year increases, and 3 reporting that the number of arrests was too small to compare (Table 9).

Figure 1

Arrest rates per 1,000 population continue to drop for juveniles in 2017

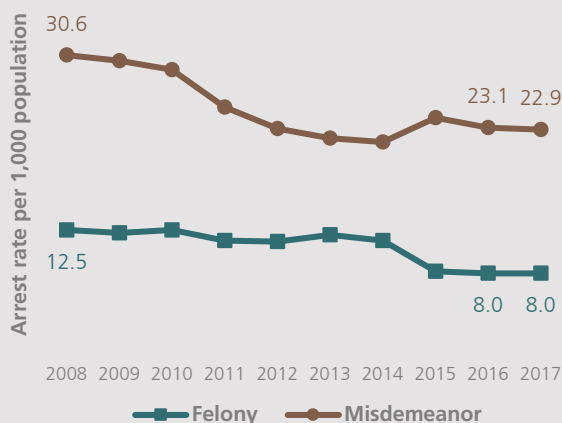

SOURCES: California Department of Justice; SANDAG

Felonies and misdemeanors

In 2015, the year following the passage of Prop 47, which reduced a number of property- and drug-related offenses from felonies to misdemeanors, the felony arrest rate declined by 28 percent (from 2014) and the misdemeanor arrest rate increased by 12 percent, directional differences that may have been expected with this legislative change (Figure 2). Since 2016, interestingly, the felony arrest rate has remained fairly stable, but the misdemeanor arrest rate declined for a second year, from 24.1 in 2015 to 23.1 in 2016 and 22.9 in 2017. As Tables 7, 8, 10, and 11 show, the felony rate for both adults and juveniles remained unchanged from 2016 to 2017 (8.6 and 4.0, respectively), but while the misdemeanor rate increased slightly for adults (<1%), it decreased for juveniles (-22%).

Figure 2

Felony arrest rates unchanged in 2017, misdemeanor arrest rates down

SOURCES: California Department of Justice; SANDAG

¹ At the time of the publication of this report, a final version of the Demographic/Economic Estimates was not available, and the most recent draft data were used, which may be revised once they are finalized.

² Until this year, the State of California reported arrests for the "Under 10" and "10 to 17" age groups separately. Those groups are now combined by the State into a single "Under 18" category. For this report, the "Under 18" age group is used as the "10 to 17" age group, and the population used to calculate juvenile arrest rates remains youth aged 10 to 17, as few juvenile arrests are of those under the age of 10, ensuring more reliable comparisons with previous years.

Arrestee race and age

Arrest rates also varied by race/ethnicity for both adults and juveniles, with individuals of “other” races/ethnicities having the lowest rate (12.7), while Blacks had the highest rate (114.0). Over the past year, the arrest rate increased for Whites and Blacks (2% each) but was down for Hispanics (-4%) and those of other ethnicities (-10%) (Table 2A).

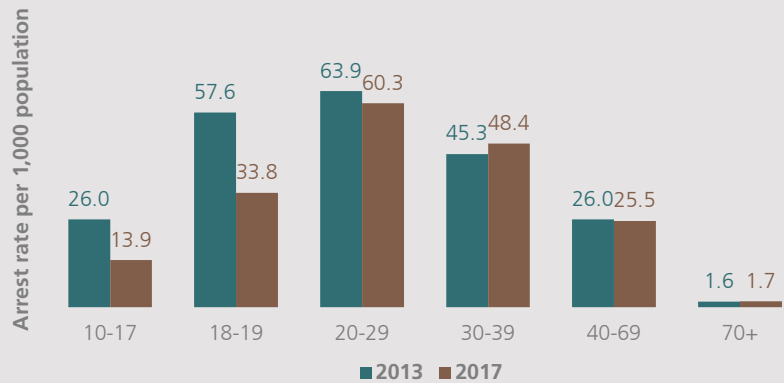

Arrest data by age showed that in 2017, adults between 20 and 29 had the highest arrest rate (60.3), followed by those 30 to 39 (48.4), 18 and 19 (33.8), and 40 to 69 (25.5). It is interesting to note that in 2013, those 18 and 19 had the second highest arrest rate of any of the age groups, and that over the past five years, the arrest rate for this group decreased 41 percent (Figure 3 and Table 2B).

San Diego compared to other California counties

In 2017, San Diego County had an adult arrest rate (33.5) that was lower than the State’s (34.1), but a juvenile arrest rate (13.9) that was slightly higher than the State’s (13.6). Compared to the other largest California counties, San Diego had the second highest adult and juvenile arrest rates, following only San Bernardino. For adults, three of the counties had lower adult arrest rates in 2017 compared to 2016, and the only two that had increases had ones that were less than one percent (Orange and San Diego). For juveniles, all of the largest counties had one-year decreases, ranging from 12 percent in San Bernardino to 18 percent in Riverside (Figure 4 and Table 5).

Figure 3

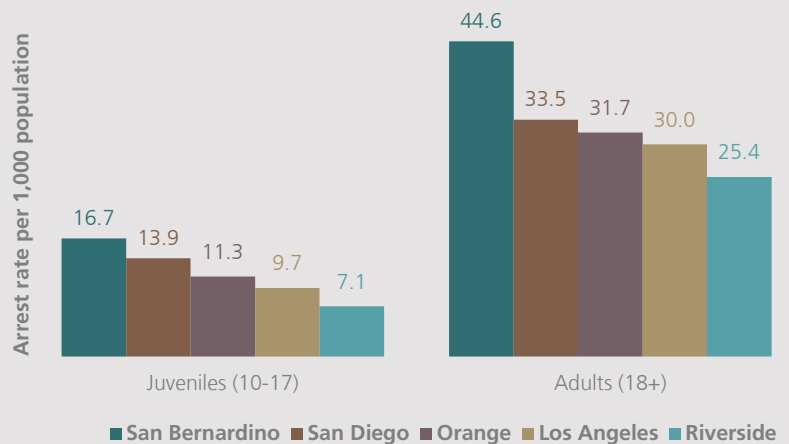

Since 2013, the arrest rate has declined for all groups except for those 30 to 39 and 70+

SOURCES: California Department of Justice; SANDAG

Figure 4

San Diego County had second highest juvenile and adult arrest rates in 2017 compared to other large California counties

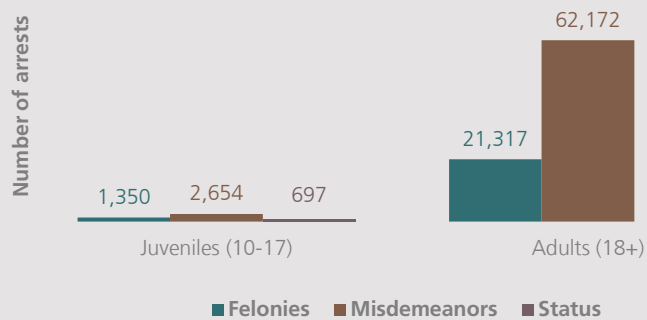

SOURCES: California Department of Justice; SANDAG

Number of adult and juvenile arrests

In 2017, there were 83,489 adult arrests (21,317 at the felony level and 62,172 at the misdemeanor level), and 4,701 juvenile arrests (1,350 felonies, 2,654 misdemeanors, and 697 status offenses³) (Figure 5 and Tables 13-15, and 26-28). On average, there were around 229 adult and 13 juvenile arrests every day in 2017 in the San Diego region by local law enforcement agencies (not shown).

Figure 5

In 2017, there were almost 18 adult arrests for every juvenile arrest

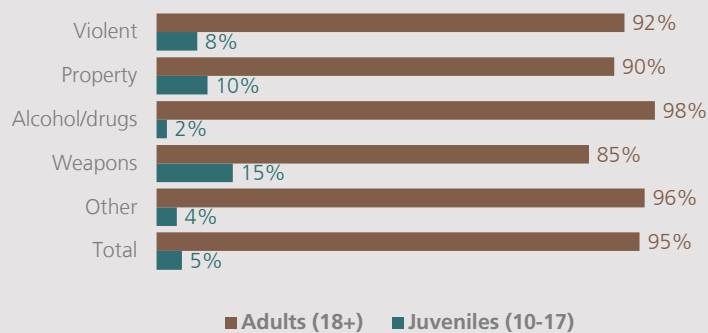

SOURCES: California Department of Justice; SANDAG

As Figure 6 shows, while 5 percent of all arrests in 2017 were of juveniles, there was variation by crime type, with juveniles representing a greater proportion of arrests for weapons (15%) and property (10%) offenses, and a smaller proportion of arrests for alcohol/drug-related offenses (2%).

Figure 6

Juveniles represent higher proportion of arrests for weapons and property offenses compared to other arrest types

SOURCES: California Department of Justice; SANDAG

³ Status offenses are offenses only juveniles can be arrested for, such as truancy or a curfew violation.

What were adults in San Diego County most frequently arrested for in 2017? (Tables 21 to 25)

Misdemeanor other drug offenses (287/week)

Misdemeanor driving under the influence (180/week)

Misdemeanor failure to appear (139/week)

Misdemeanor drunk (139/week)

Felony aggravated assault (135/week)

What were juveniles in San Diego County most frequently arrested for in 2017? (Tables 34 to 39)

Misdemeanor assault and battery (12/week)

Misdemeanor petty theft/burglary (10/week)

Misdemeanor "other" (7/week)

Felony aggravated assault (7/week)

Curfew violations (7/week)

Arrests by offense type

What types of crimes are adults and juveniles arrested for? As Figure 7A shows, in 2017, about two in five (41%) adults were arrested for an alcohol/drug-related offense, making it the most common category, followed by “other” arrests (30%), violent offenses (17%), property offenses (9%), and weapon offenses (2%). Compared to ten years ago, the proportion of arrests that were alcohol/drug-related decreased, and those that were in the “other” category or violent category increased.

For juveniles (Figure 7B), the distribution across categories was slightly less variable than for adults – two thirds of offenses were violent, other, or property, with fewer status, alcohol/drug, and weapons. Compared to ten years ago, there has been some slight variation, with a greater percentage of arrests occurring in the violent category most notably.

Figure 7A

Fewer adult arrests were alcohol/drug-related in 2017, compared to 2008

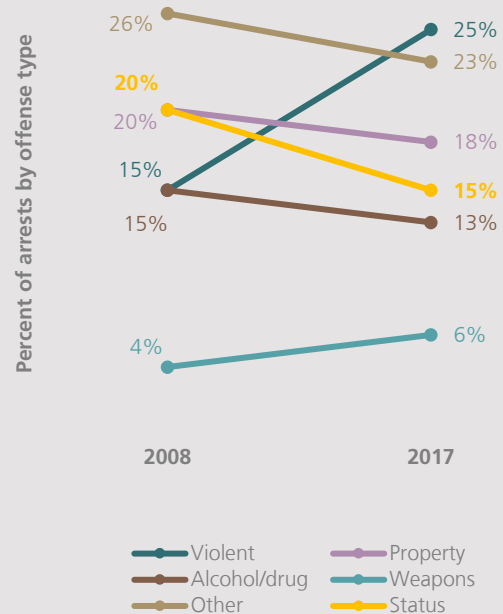

NOTE: Percentages may not equal 100 due to rounding.

SOURCES: California Department of Justice; SANDAG

Figure 7B

Juvenile arrests more evenly distributed across categories, compared to adults, in both 2008 and 2017

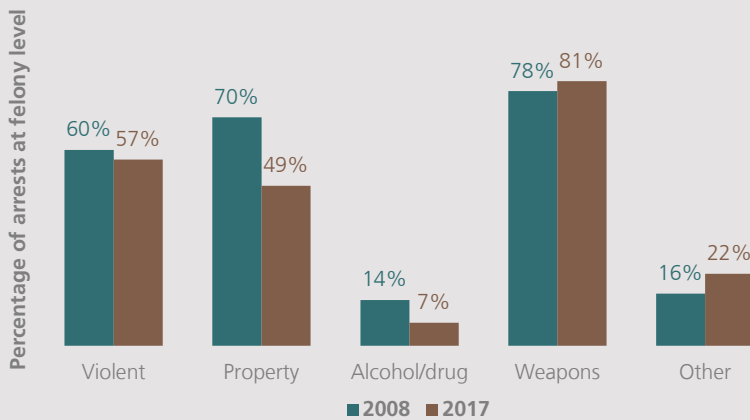

NOTE: Percentages may not equal 100 due to rounding.

SOURCES: California Department of Justice; SANDAG

The percentage of felony versus misdemeanor offenses varied for adults and juveniles, as well as over time. As Figure 8A shows, in 2008, 70 percent of property arrests of adults were at the felony level, a rate which decreased to 49 percent in 2017. Similarly, the proportion of alcohol/drug-related offenses at the felony level decreased from 14 percent to 7 percent. For juveniles, there were fewer arrests at the felony level in each category in 2017, compared to adults, with the exception of “other” arrests (Figure 8B).

Figure 8A

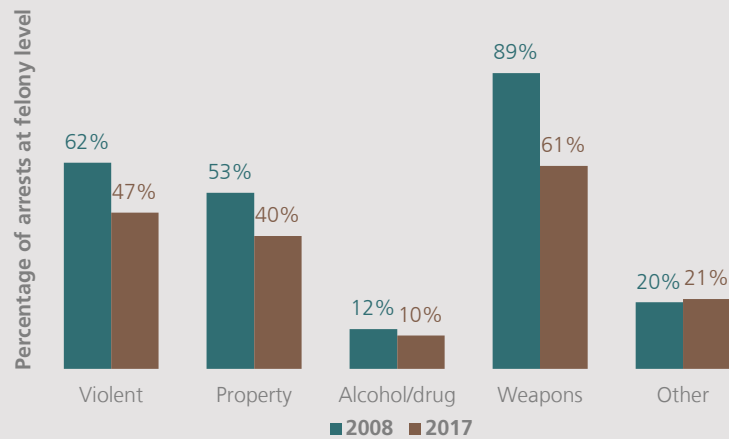

Fewer adult property and alcohol/drug-related arrests at the felony level in 2017 than 2008

SOURCES: California Department of Justice; SANDAG

Figure 8B

Fewer juvenile arrests at the felony level in 2017 than 2008 for every category but 'other'

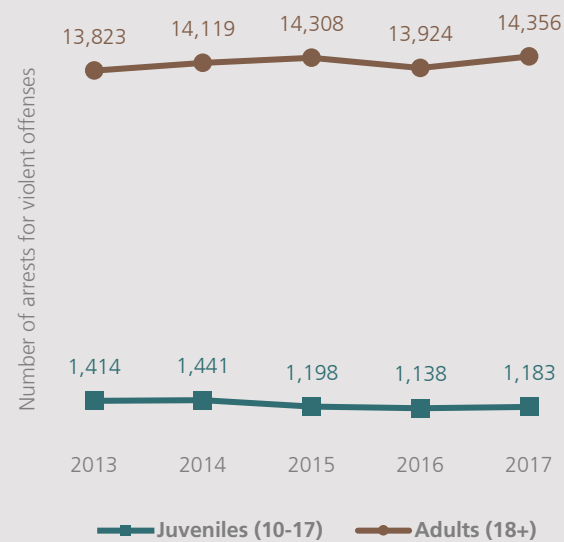

SOURCES: California Department of Justice; SANDAG

Violent offenses

The violent offense arrest category includes four felony-level offenses – homicide, rape, robbery, and aggravated assault – and misdemeanor-level manslaughter/assault and battery. There were 14,356 adult and 1,183 juvenile arrests for violent offenses in 2017 (Figure 9). Arrests for a violent offense increased 3 percent over the past year for adults (Table 20). For juveniles, there was a 4 percent increase from 2016 to 2017, the only increase since 2013 to 2014 (Table 33).

Figure 9

Arrests for violent offenses up for both adults and juveniles in 2017

SOURCES: California Department of Justice; SANDAG

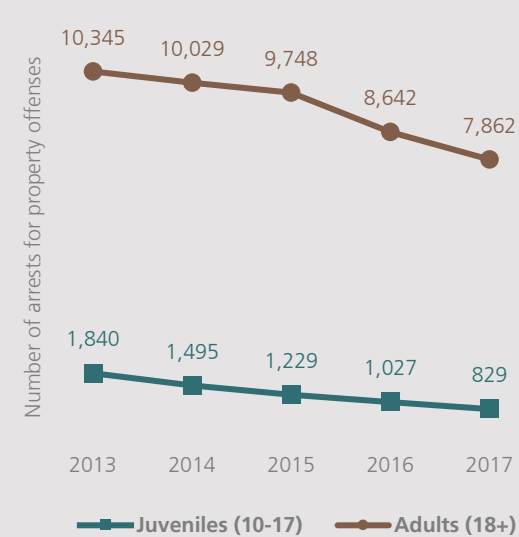

For adults, there were one-year decreases in the number of arrests for homicide (-10%) and robbery (-3%) and no change for rape, but there were increases in arrests for misdemeanor manslaughter/assault and battery (2%) and aggravated assault (5%) (Table 21). For juveniles, there was an increase in the number of robberies (19%) and aggravated assault (12%), but a decrease in the number of arrests for misdemeanor manslaughter/assault and battery (-5%). Numbers were too small to compare for homicide and rape (Table 34).

Property offenses

Property offenses include felony-level burglary, larceny, motor vehicle theft, and misdemeanor-level petty theft/burglary. In 2017, there were 7,862 adult arrests for a property offense, which represented a 9 percent decrease from 2016 and a new five-year low (Figure 10 and Table 20). For juveniles, the number of arrests for a property crime dropped to 829, a one-year decrease of 19 percent from 2016 and a five-year low (Table 33).

Figure 10

Arrests for property offenses down for adults and juveniles in 2017

SOURCES: California Department of Justice; SANDAG

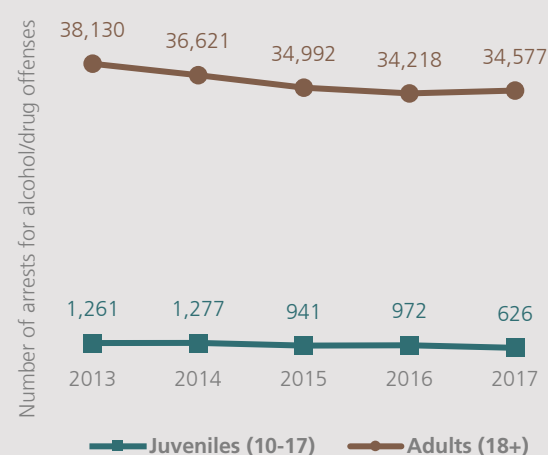

For adults, the greatest one-year decrease was seen in misdemeanor arrests for petty theft/burglary (-15%), with smaller one-year drops in felony-level burglary (-4%) and motor vehicle theft (-5%); there was a 7 percent increase for felony-level larceny arrests (Table 22). For juveniles, there were decreases in the number of felony larceny (-6%) and burglary arrests (-8%) as well as misdemeanor petty theft/burglary arrests (-29%). However, there was a 42 percent increase in arrests for motor vehicle thefts (Table 35).

Alcohol/drug-related offenses

In 2017, there were 34,577 adult and 626 juvenile arrests for alcohol/drug-related offenses (Figure 11). For adults, this represented a slight increase (1%) from 2016. For juveniles, it was a decrease of 36 percent – the largest one-year decrease for the six categories used in this report (Tables 20 and 33).

Figure 11

More adult, fewer juvenile arrests for alcohol/drug-related offenses in 2017

SOURCES: California Department of Justice; SANDAG

Within the alcohol/drug-related offense category are five felony and five misdemeanor categories. For adults, at the felony level, there was a significant drop in the number of felony arrests for marijuana⁴ (-75%) and dangerous drugs, which includes methamphetamine-related arrests (-18%), as well as for driving under the influence (-8%); there were increases, though, for felony-level narcotics (15%, which includes heroin) and other drug offenses (16%). At the misdemeanor level, there were increases in four of the five categories (ranging from 3% to 9%), but a 29 percent drop for misdemeanor liquor laws (Table 23). For juveniles, there were decreases in each of the five misdemeanor-level categories (that had numbers across years large enough to compare) with the exception of driving under the influence, which increased 13 percent (Table 36).

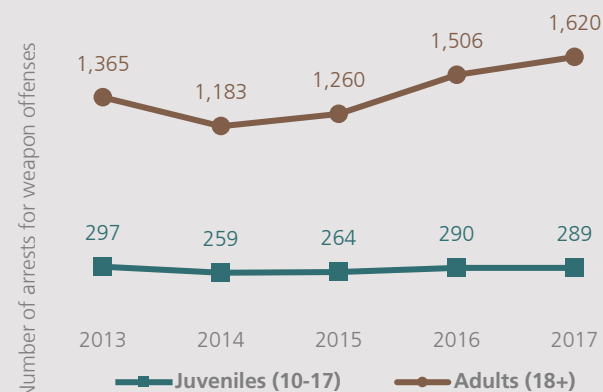

⁴ In November 2016, California voters approved Proposition 64 which legalized the recreational use of marijuana for individuals 21 years of age and older.

Weapons offenses

There were 1,620 adult arrests and 289 juvenile arrests for weapons violations in 2017 (Figure 12), representing an 8 percent increase for adults and a slight decrease (<-1%) for juveniles over the past year (Tables 20 and 33).

Figure 12

Arrests for weapons offenses up for adults in 2017

SOURCES: California Department of Justice; SANDAG

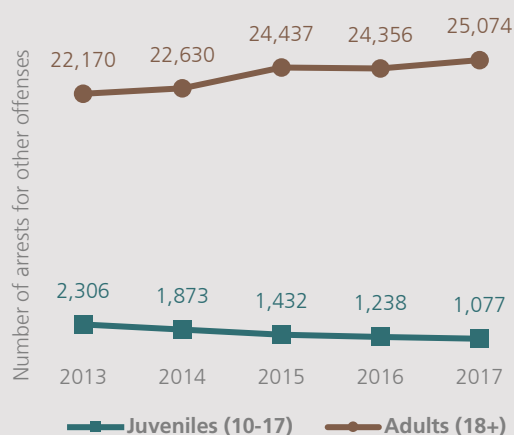

For adults, arrests for felony-level weapon offenses were up 8 percent and misdemeanors were up 4 percent (Table 24). For juveniles, there was a decrease of less than 1 percent for felonies and no change for misdemeanors (Table 37).

Other offenses

There were 25,074 adult arrests and 1,077 juvenile arrests for “other” offenses in 2017 (Figure 13). At the felony level, “other” charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges, such as contributing to the delinquency of a minor. Over the past year, there was an increase in other offense arrests for adults (3%), but a decrease for juveniles (-13%) (Tables 20 and 33).

Figure 13

Number of arrests for other offenses up for adults but down for juveniles

SOURCES: California Department of Justice; SANDAG

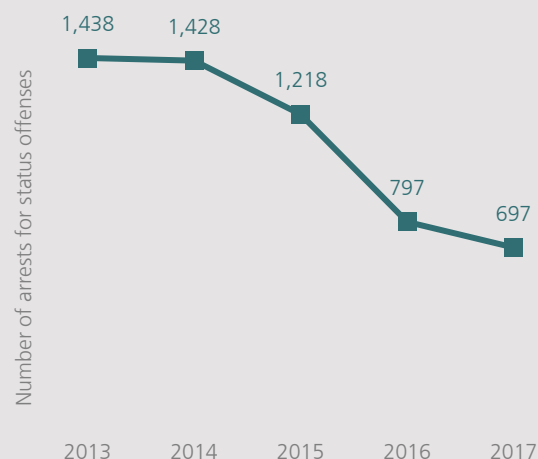

For adults, all of the other crime types at the felony level increased, including an 8 percent one-year increase for sex-related offenses and a 15 percent increase for forgery/checks/access cards. At the misdemeanor level, there were increases for five arrest categories and decreases for five, with the greatest changes including a 38 percent increase for arrests for disturbing the peace and a 20 percent increase for prostitution (Table 25). For the seven categories that had numbers large enough to compare for juveniles, the largest changes were for other misdemeanors (-27%) and vandalism/graffiti (-13%) (Table 38).

Status offenses

As Figure 14 shows, there were 697 status offense arrests in 2017, which represented a 13 percent decrease from 2016. Arrests for curfew violations dropped by 29 percent (Table 39).

Figure 14

Number of status offense arrests continued to decrease in 2017

SOURCES: California Department of Justice; SANDAG

Summary

This CJ Bulletin describes what types of arrests were made in the San Diego region in 2017 by local law enforcement agencies of both adults and juveniles. In 2017, San Diego County had the second highest adult and juvenile arrest rates compared to the other most populated counties in the state. Noteworthy one-year changes in arrests for adults included increases in each category (violent, alcohol/drug, weapons, and other), except for property-related, which decreased by 9 percent. Juvenile arrest rates continued to decline and remained lower than those for adults. There were decreases in the number of property, alcohol/drug, weapon, other, and status offenses, but a 4 percent increase for violent-related offenses.

Boys	595	308	223	-63%	-28%
Girls	346	175	120	-65%	-31%
Total	941	483	343	-64%	-29%
Other status					
Boys	287	179	229	-20%	28%
Girls	125	75	67	-46%	-11%
Total	412	254	296	-28%	17%
Total status					
Boys	937	512	477	-49%	-7%
Girls	501	285	220	-56%	-23%
Total	1,438	797	697	-52%	-13%

NOTE: Variations in emphasis or focus on individual status offenses by law enforcement and prosecution agencies impact the number of arrests/juvenile contacts. "Other" status offenses include incorrigible behavior (such as failure to comply with parental authority), failure to obey orders of the Juvenile Court (such as community service and fines) and running away from court-ordered placement. In 2013 and 2014, the State of California reported no runaway arrests for any agency in San Diego County. However, further investigation revealed that this is not consistent with follow-up inquiries to individual agencies. As such, it is important to note that the number of status offense arrests in 2014 may be somewhat higher than what is reported here and in other arrest statistics from the State of California. Percent changes are not presented when either comparison number is less than 30.
