Arrests 2018: Law Enforcement Response to Crime in the San Diego Region

MARCH 2020

Research findings from the Criminal Justice Clearinghouse
The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region’s quality of life.

February 19, 2020
Introduction

The Applied Research Division of the San Diego Association of Governments (SANDAG) functions as the clearinghouse for criminal justice information in the San Diego region. On an annual basis, the Division prepares a report on local criminal justice agencies’ response to crime in the region as measured by arrest statistics. Because arrest statistics include information regarding whether the suspect is an adult or juvenile and include a greater variety of crime types than are reported in regional crime reports (e.g., alcohol/drug-related offenses), this information provides an added dimension for understanding the nature of crime and another measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 for both the adult and juvenile population, as well as number of arrests by offense type. In addition, 42 supplemental tables, which include statistics for individual jurisdictions, are presented. Some points to remember when interpreting these numbers include the following:

- Similar to how the FBI has traditionally reported crimes, the offense or charge attributed to an arrest reflects only the most serious out of potentially multiple violations included in the arrest.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime was reported.
- For youth, even though contact with law enforcement is made and an arrest report is taken, diversion to a community-based or other type of program or release to a parent or guardian may occur as an alternative to juvenile justice system processing.
- The data presented here were provided by the California Department of Justice through a public records request. While these are official numbers reported to and by the State, it is important to note they may vary from other sources that could be available.

Highlights

- In 2018, San Diego County had the second highest juvenile and the third highest adult arrest rates compared to the other four largest California counties. On average, 223 adult and 9 juvenile arrests were made daily in San Diego County in 2018.
- The juvenile arrest rate reached a new ten-year low in 2018, down to 10.0 arrests per 1,000 juveniles, compared to 55.1 in 2009 (an 82% drop). Since 2012, the juvenile arrest rate has been lower than the adult arrest rate.
- While adults 20 to 29 still had the highest arrest rate of any age group in 2018 (55.7 per 1,000), the second highest group has changed over the past five years, with adults 30 to 39 taking the number two spot from those 18 to 19.
- While misdemeanor arrest rates increased in 2015 following the passage of Proposition 47 (Prop 47), they decreased for the third consecutive year in 2018. Prop 47 made numerous property and drug offenses that could have been felonies, misdemeanors.
- For adults, there were slightly more arrests for alcohol-/drug-related offenses in 2018 compared to 2017, but decreases in every other category.
- For juveniles, the number of arrests in each category type decreased from 2017 to 2018.
**Arrest rates**

**Trends**

In 2018, there were 32.5 adults arrested per 1,000 population. As Figure 1 shows, this rate was the lowest in the past ten years and a 3% decrease from 2017. Across the jurisdictions, the 2018 adult arrest rate varied from 13.7 to 53.5, with one-year decreases in ten of the jurisdictions and increases in the other nine (Table 6).

Before 2012, the arrest rate was higher for juveniles than adults. As Figure 1 shows, the 2018 juvenile arrest rate of 10.0 represented a decrease of 82% from 2009 and 28% from 2017. Across the jurisdictions, the juvenile arrest rate varied from 4.3 to 16.7 in 2018, with 14 of the agencies reporting one-year decreases and 5 reporting that the number of arrests was too small to compare (Table 9).

**Felonies and misdemeanors**

In 2015, the year following the passage of Prop 47, which reduced a number of property- and drug-related offenses from felonies to misdemeanors, the felony arrest rate declined by 28% (from 2014 to 2015) and the misdemeanor arrest rate increased by 12%, directional differences that may have been expected with this legislative change (Figure 2). In 2018, the felony arrest rate decreased 4% from 2017 (to 7.7), after remaining unchanged from 2016 to 2017 and the misdemeanor arrest rate decreased for the third consecutive year by 5% from 2017 (to 21.9).
Arrest rates also varied by race/ethnicity for both adults and juveniles, with individuals of “other” races/ethnicities having the lowest rate (11.4), while Blacks had the highest rate (111.8). Over the past year, the arrest rate decreased for all four groups, from -3% for Blacks to -8% for those of “other” race/ethnicities (Table 2A).

Arrest data by age showed that in 2018, adults between 20 and 29 had the highest arrest rate (55.7), followed by those 30 to 39 (49.3), 18 and 19 (26.2), and 40 to 69 (25.8). Over the past year, the arrest rates for the three youngest age groups decreased, but they increased for those in the older age groups, including by 6% for those 70 and older (Figure 3 and Table 2B).

San Diego compared to other California counties

In 2018, San Diego County had an adult arrest rate (32.5) and juvenile arrest rate (10.0) that were lower than the State’s (34.2 and 11.1, respectively) (Table 5). Compared to the other largest California counties, San Diego had the second highest juvenile and third highest adult rates. For adults, three of the counties had lower adult arrest rates in 2018 compared to 2017 (San Bernardino, San Diego, and Riverside), and the other two had increases (Los Angeles and Orange). For juveniles, all of the largest counties had one-year decreases (Figure 4 and Table 5).
Number of adult and juvenile arrests

In 2018, there were 81,225 adult arrests (20,667 at the felony level and 60,558 at the misdemeanor level), and 3,461 juvenile arrests (1,175 felonies, 1,855 misdemeanors, and 431 status offenses\(^1\)) (Figure 5 and Tables 13-15, and 26-28). On average, there were around 223 adult and 9 juvenile arrests every day in 2018 in the San Diego region by local law enforcement agencies (not shown).

**Figure 5**
In 2018, there were around 23 adult arrests for every juvenile arrest

Sources: California Department of Justice; SANDAG

As Figure 6 shows, while 4% of all arrests in 2018 were of juveniles, there was variation by crime type, with juveniles representing a greater proportion of arrests for weapons (15%), violent (7%), and property (7%) offenses, and a smaller proportion of arrests for “other” (3%) and alcohol/drug-related offenses (1%).

**Figure 6**
Juveniles represent higher proportion of arrests for weapons offenses compared to other arrest types

Sources: California Department of Justice; SANDAG

---

\(^1\) Status offenses are offenses only juveniles can be arrested for, such as truancy or a curfew violation.
Arrests by offense type

What types of crimes are adults and juveniles arrested for? As Figure 7A shows, in 2018, about two in five (43%) adults were arrested for an alcohol/drug-related offense, making it the most common category, followed by “other” arrests (29%), violent offenses (17%), property offenses (9%), and weapon offenses (2%). Compared to ten years ago, the proportion of arrests that were alcohol/drug-related decreased, and those that were in the “other” category or violent category increased.

For juveniles (Figure 7B), violent offenses were most common (30%), followed by other (21%), property (16%), and alcohol/drug (13%). Compared to ten years ago, the percentage representing violent offenses has increased the most, and those that were status offenses decreased to the greatest degree.

![Figure 7A](image1.png)

Fewer adult arrests were alcohol/drug-related in 2018, compared to 2009

![Figure 7B](image2.png)

Juvenile arrests more evenly distributed across categories, compared to adults, in both 2009 and 2018

Note: Percentages may not equal 100 due to rounding.
Sources: California Department of Justice; SANDAG
The percentage of felony versus misdemeanor offenses varied for adults and juveniles, as well as over time. As Figure 8A shows, in 2009, 68% of property arrests of adults were at the felony level, a rate which decreased to 51% in 2018. Similarly, the proportion of alcohol/drug-related offenses at the felony level decreased from 15% to 7%. For juveniles, there were fewer arrests at the felony level in each category in 2018 compared to adults, with the exception of “other” arrests (Figure 8B).

Sources: California Department of Justice; SANDAG
Violent offenses

The violent offense arrest category includes four felony-level offenses – homicide, rape, robbery, and aggravated assault – and misdemeanor-level manslaughter/assault and battery. There were 13,893 adult and 1,035 juvenile arrests for violent offenses in 2018 (Figure 9). Arrests for a violent offense decreased 3% over the past year for adults (Table 20). For juveniles, there was a 12% decrease from 2017 to 2018 (Table 33).

Property offenses

Property offenses include felony-level burglary, larceny, motor vehicle theft, and misdemeanor-level petty theft/burglary. In 2018, there were 7,218 adult arrests for a property offense, which represented an 8% decrease from 2017 and a new five-year low (Figure 10 and Table 20). For juveniles, the number of arrests for a property crime dropped to 565, a one-year decrease of 32% from 2017 and a five-year low (Table 33).

For adults, there were one-year decreases in the number of arrests for homicide (-3%), aggravated assault (-2%), and misdemeanor manslaughter/assault and battery (-6%), but increases in the number of rapes (12%) and robberies (2%) (Table 21). For juveniles, there were decreases in the number of arrests for robberies (-4%), aggravated assault (-5%), and misdemeanor manslaughter/assault and battery (-18%). Numbers were too small to compare for homicide and rape (Table 34).
Alcohol/drug-related offenses

In 2018, there were 34,919 adult and 437 juvenile arrests for alcohol/drug-related offenses (Figure 11). For adults, this represented a slight increase (<1%) from 2017. For juveniles, it was a decrease of 30% (Tables 20 and 33).

Within the alcohol/drug-related offense category are five felony and five misdemeanor categories. For adults, there were increases in four categories, including felony narcotics (<1%), felony dangerous drugs (4%), misdemeanor other drug offenses (5%), and misdemeanor drunk (3%), and decreases in five, ranging from -2% to -32%, with the largest one-year decreases for misdemeanor marijuana and misdemeanor liquor-related offenses (Table 23). For juveniles, there were decreases in each of the four misdemeanor-level categories (that had numbers across years large enough to compare) (Table 36).

Weapons offenses

There were 1,561 adult arrests and 265 juvenile arrests for weapons violations in 2018 (Figure 12), representing a 4% decrease for adults and an 8% decrease for juveniles over the past year (Tables 20 and 33).

For adults, arrests for felony-level weapon offenses were down 2% and misdemeanors were down 12% (Table 24). For juveniles, there was a decrease of 14% for felonies and an increase of 2% for misdemeanors (Table 37).

Other offenses

There were 23,634 adult arrests and 728 juvenile arrests for “other” offenses in 2018 (Figure 13). At the felony level, “other” charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges, such as contributing to the delinquency of a minor. Over the past year, there were decreases in other offense arrests for adults (-6%) and juveniles (-32%) (Tables 20 and 33).
For adults, all of the other crime types at the felony level decreased, with the exception of arrests for arson, which increased 42%. At the misdemeanor level, there were increases for five arrest categories and decreases for five, with the greatest changes including a 47% increase for hit-and-run, 15% increase for disturbing the peace, and a 21% decrease for failure to appear (Table 25).

For the five categories that had numbers large enough to compare for juveniles, there were one-year decreases in four, with only arrests for other felonies increasing (Table 38).

### Status offenses

As Figure 14 shows, there were 431 status offense arrests in 2018, which represented a 38% decrease from 2017. Arrests for curfew violations dropped by 43% (Table 39).

### Summary

This CJ Bulletin describes what types of arrests were made in the San Diego region in 2018 by local law enforcement agencies of both adults and juveniles. In 2018, San Diego County had the third highest adult and second highest juvenile arrest rates compared to the other most populated counties in the state. Noteworthy one-year changes in arrests for adults included only slight increases for alcohol/drug-related offenses. Juvenile arrest rates continued to decline and remained lower than those for adults. Five-year decreases across the categories for juveniles exceed 60% for property, alcohol/drug, status, and “other” offenses.

</tbody>
</table>

Note: Variations in emphasis or focus on individual status offenses by law enforcement and prosecution agencies impact the number of arrests/juvenile contacts. "Other" status offenses include incorrigible behavior (such as failure to comply with parental authority), failure to obey orders of the Juvenile Court (such as community service and fines), and running away from court-ordered placement. In 2013 and 2014, the State of California reported no runaway arrests for any agency in San Diego County. However, further investigation revealed that this is not consistent with follow-up inquiries to individual agencies. As such, it is important to note that the number of status offense arrests in 2014 may be somewhat higher than what is reported here and in other arrest statistics from the State of California. Percent changes are not presented when either comparison number is less than 30.
